La prochaine peste Serge Morand 2016-11-09 Craintes et parfois diabolisées, les maladies infectieuses font pourtant partie intégrante de l'histoire de l'humanité. L'homme est en effet l'espèce animale la plus parasitée sur terre, étant l'hôte de plus de mille parasites et pathogènes. La majorité d'entre eux sont d'origine animale, et beaucoup sont partagés avec les animaux sauvages ou domestiques. S'appuyant sur les dernières avancées scientifiques, cet essai propose un panorama inédit des relations évolutives entre les hommes et les primates non humains, mais aussi des relations écologiques que nous entretenons avec les autres animaux, par le biais de la chasse et de la domestication. Si ces relations sont à l'origine du parasitage des humains, on oublie trop souvent que nous pouvons aussi transmettre des maladies aux animaux. Les émergences ou réémergences actuelles de maladies infectieuses comme Ebola, Zika ou les gripes aviaires et porcines doivent être appréhendées à la fois dans le cadre historique de cette longue co-évolution et dans un cadre géographique global lié à la mondialisation des échanges. L'urgence est d'en tirer des leçons pour la gestion des crises sanitaires actuelles et futures. Serge Morand est chercheur au CNRS et travaille au Centre d'infectiologie Christophe Mérieux du Laos. Écologue évolutionniste et parasitologue de terrain, il conduit de nombreuses missions sur les relations entre biodiversité et maladies transmissibles.

**Rich Dad, Poor Dad** Robert T. Kiyosaki 2016-04-27 Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times—for all the right

reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

*Graines d'espoir* Jane Goodall 2015-10-07 "Cet ouvrage ne se réduit pas à une lettre d'amour dédiée aux végétaux, bien qu'en partie cela soit assurément le cas. Il s'agit aussi d'un appel aux armes, en même temps qu'une alerte devant la destruction de l'habitat naturel, la violence de l'industrie agroalimentaire, et des risques de l'ingénierie génétique. Il démontre qu'à notre époque, le long et beau voyage des plantes et des animaux à travers l'évolution, voyage mutuellement bénéfique, est arrivé à un nouveau stade critique, qui fonde l'urgence du propos de *Graines d'espoir*. Jane Goodall veut étendre la portée de l'empathie humaine une fois encore, de manière suffisamment large pour y inclure nos amies buveuses d'eau et de lumière. Pour leur bien comme pour le nôtre, partageons ces graines."

La chèvre de Monsieur Crétin Olivier Soria 2020-04-10 « Nous prétendons consommer à crédit jusqu'au bout dans l'espoir vain de nous enrichir à notre guise ? Eh bien, écoutez un peu l'histoire de la chèvre de Monsieur Crétin et, peut-être, percevrez-vous ce que nous pourrions gagner à vouloir vivre en considérant l'altérité. » Ouf ! Enfin, un livre qui allie plaisir et prise de conscience. À l'écart d'une écologie culpabilisante et moralisatrice, triste surtout, le conte La chèvre de Monsieur Crétin nous apporte de la délectation, aussi bien dans la forme que dans le fond. Pour les grands comme pour les petits. À PROPOS DE L'AUTEUR Les racines d'Olivier Soria se trouvent de part et d'autre des Pyrénées. Du côté ibérique, ses grands-parents sont paysans sur les terres des exploits légendaires de Don Quichotte. Il a soif de voyages et de découvertes. Il étudie le commerce international. Une décennie d'expériences professionnelles en France, en Espagne et en Angleterre ainsi que plusieurs voyages en Amérique Latine, en Asie et au Moyen-Orient vont lui dévoiler quelques secrets, plusieurs merveilles et de nombreuses prises de conscience. Toujours soucieux de l'altérité, il se propose de compléter ses études en préparant un master 2 « Éthique et développement durable ». Son mémoire sur le risque d'une monétarisation effrénée des services écologiques lui inspirera directement le conte La chèvre de Monsieur Crétin.

*The Cathedral* Joris-Karl Huysmans 1922 "The Cathedral (French: La Cathédrale) (1898) is a novel by the French writer Joris-Karl Huysmans. It is the third of Huysmans' books to feature the character Durtal, a thinly disguised portrait of the author. He had already featured the character of Durtal in *Là-bas* and *En route*, which recounted his conversion to Catholicism. *La Cathédrale* continues the story. After his retreat at a Trappist monastery, Durtal moves to the city of Chartres, renowned for its cathedral. Huysmans describes the building in great detail" -- Wikipedia.

Phalaina Alice Brie`re-Haquet 2022-09-06 We discover a new species of life form every day. But, every day, a species also disappears. The fly has 10 chromosomes, the hamster 22, the rat 42, the human 46, the chimpanzee 48, the cow 60, and the butterfly 380. London, 1881. There's something a little eerie about Manon - she's not like the other girls at the orphanage. Maybe it's her red eyes. Maybe it's her silence. Maybe it's the series of violent deaths that seem to follow her. What we do know: someone is hot on her tail. And there's a lot of money at stake in finding out where exactly she comes from - and what

exactly she is. Concurrent to Manon's story are letters to Charles Darwin from Professor Humphrey, a scientist who has recently died under mysterious circumstances. Is it true that natural selection left humans at the top of the pyramid of life after all? Or in the process of evolution, was there something elemental that humans lost, something that connected us to the rest of life on earth? Who and what else is out there? In order to stay alive, Manon must untangle the mystery of her origins, and perhaps the origins of humanity as well. From French writer Alice Brière-Haquet and translated by PEN-award winning translator Emma Ramadan comes PHALAINA - the middle grade historical sci fi thriller you won't be able to put down.

Discovering Craft Villages in Vietnam Sylvie Fanchette 2018-11-19 With their festivals and traditional industries, their commun halls, pagodas, temples, and vernacular buildings, the villages around Hà Nội possess a rich body of cultural, architectural and craft heritage. Less than one hour from the capital are over 500 specialist craft villages, producing an array of religious or artistic objects, as well as food products, industrial goods, textiles, basketware and much more. Despite the trials and tribulations Vietnam has endured, these traditions have remained alive; today they constitute the basis of material, social and spiritual culture among the village communities of the Red River delta. The artisans themselves, and their local institutions, see cultural tourism as a way of further improving the fortunes of the craft village communities and bringing their heritage to wider attention. Until recently, few guides or tourists had forayed into these settlements, some of which are lost in the maze of routes and tracks that criss-cross the rice paddies of the Hà Nội hinterland. The history and skills they harbour have been inaccessible to all but a few specialists. Few of the villages are signposted, yet between them they are home to three

quarters of the architectural, religious and craft heritage of the upper delta. This book, the fruit of several years' research by specialists working in northern Vietnam, comprises ten itineraries, blending potted histories, legends, descriptions of craft techniques, signposted walks and maps, designed to introduce travellers and lovers of Vietnamese culture to forty or so villages around Hà Nội. Many of us have seen their wares on sale in shops in and around the 36 streets of Hà Nội Old Quarter or in other cities in West. This book is about the true lives and enduring skills of the nameless artisans who made them.

Promise at Dawn Romain Gary 2017-10-31 A classic of modern French literature, the thrilling real-life story of the military hero, ambassador, ladies man, writer, and loving son I grew up longing for the day when I could tear down the veil of darkness and absurdity concealing the true face of the universe and discover at last a smile of kindness and wisdom; I grew up in the certitude that one day I should help my fellow men to wrest the world from our enemies and give back the earth to those who ennoble it with their courage and warm it with their love. *Promise at Dawn* begins as the story of a mother's sacrifice: alone and poor, she fights fiercely to give her son the very best. Romain Gary chronicles his childhood in Russia, Poland, and on the French Riviera; he recounts his adventurous life as a young man fighting for France in World War II. But above all he tells the story of the love for his mother that was his very life—their secret and private planet, their wonderland “born out of a mother's murmur into a child's ear, a promise whispered at dawn of future triumphs and greatness, of justice and love.”

**Memoirs of an Egotist** Stendhal 2021-03-22 This book contains the memoirs of Stendahl or in his own words the 'chatter about his private life' between 1821 and 1830. It was between these dates that he moved to Paris and here looks back on his life as an eccentric bachelor. 'As well as Beyle the clairvoyant self-investigator, the sardonic analyst of Parisian salon society and deliberate cultivator of wit, here emerges Beyle the despairing lover, the shakespearean enthusiast, whose romantic sentiment run always parallel with his eighteenth-century logic'. Marie-Henri Beyle - better-known by his pen name, Stendhal - was born in Grenoble, France in 1783. He turned to writing after the final defeat of Napoleon in 1815, notable works include *A Life of Rossini* (1824), *A Life of Napoleon* (1929) and *The Red and the Black*

published in 1830. A number of works were published posthumously, including *Lamuel* (1889), *Memoirs of an Egotist* (1892) and *Lucien Leuwen* (1894). Stendhal is now regarded as one of the earliest and foremost practitioners of literary realism.

**The Lost Book of Enki Zecharia Sitchin 2004-08-16** The companion volume to The Earth Chronicles series that reveals the identity of mankind's ancient gods • Explains why these "gods" from Nibiru, the Anunnaki, genetically engineered Homo sapiens, gave Earthlings civilization, and promised to return •

30,000 sold in hardcover Zecharia Sitchin's bestselling series The Earth Chronicles provided humanity's side of the story concerning our origins at the hands of the Anunnaki, "those who from heaven to earth came." In The Lost Book of Enki we now view this saga from the perspective of Lord Enki, an Anunnaki leader revered in antiquity as a god, who tells the story of these extraterrestrials' arrival on Earth from the planet Nibiru. In his previous works Sitchin compiled the complete story of the Anunnaki's impact on human civilization from fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a lost book that held the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the memoirs of Enki, the leader of these first "astronauts." What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds, challenging every assumption we hold about our past and our future.

**Memoirs from Beyond the Grave: 1768-1800** François-René de Chateaubriand 2018-02-20 Written over

the course of four decades, François-René de Chateaubriand's epic autobiography has drawn the admiration of Baudelaire, Flaubert, Proust, Barthes, and Sebald. Here, in the first books of his massive *Memoirs*, spanning the years 1768 to 1800, Chateaubriand looks back on the already bygone world of his youth. He recounts the history of his aristocratic family and the first rumblings of the French Revolution. He recalls playing games on the beaches of Saint-Malo, wandering in the woods near his father's castle in Combourg, hunting with King Louis XVI at Versailles, witnessing the first heads carried on pikes through the streets of Paris, meeting with George Washington in Philadelphia, and falling hopelessly in love with a young woman named Charlotte in the small Suffolk town of Bungay. The volume ends with Chateaubriand's return to France after seven years of exile in England. In this new edition (the first unabridged English translation of any portion of the *Memoirs* to be published in more than a century), Chateaubriand emerges as a writer of great wit and clarity, a self deprecating egotist whose meditations on the meaning of history, memory, and morality are leavened with a mixture of high whimsy and memorable gloom.
