Encyclopédie catholique 1843

**Common European Framework of Reference for Languages: Learning, Teaching, assessment** Council of Europe 2020-05-05 The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ► an explanation of the key aspects of the CEFR for teaching and learning; ► a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ► a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ► promote and support the learning and teaching of modern languages; ► enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ► protect linguistic and cultural diversity in Europe; and ► promote the right to quality education for all.

*Grande Grammaire Historique du Français (GGHF)* Christiane Marchello-Nizia 2020-11-09  
The existing major works on the history of the French language were published more than

fifty years ago and are characterized by a largely a-theoretical approach. More than a hundred years after Ferdinand Brunot began to publish his monumental work, the ambition of the Grande Grammaire Historique du Français (GGHF) is to present the evolution of the French language in its totality, building on the contributions achieved by descriptive and theoretical research in recent decades. It also offers several innovative aspects. The GGHF is a grammar organized by themes rather than by periods, and it reflects all major areas currently under debate in linguistics (phonetics / phonology, morphology, syntax, semantics, etc.). In addition, it is based on a balanced corpus of several million words that has been designed especially for the GGHF (with a selection of representative texts for each century). The consideration of this corpus and the quantification of facts enable the authors to establish a close relationship between variation and change: we believe that the interaction of these two aspects is the cornerstone for the interpretation of the evolution of French and of language in general. In addition to the description of the evolution of French, the analysis of language change thus also aims to contribute to the study of the evolution of language as such.
