America is a beautiful tribute to 71 lighthouses in the United States and Canada. The selection covers the full range of lighthouse architectural styles and represents all regions of the continent. The book opens with a brief but fascinating history of lighthouses, which traces their use from the Romans to the "golden age" of the nineteenth and twentieth centuries when lighthouses became a strategic and commercial asset to seafarers. Readers will discover the fascinating details that give lighthouses their spirit, such as Portland Head Lighthouse, the favorite haunt of poet Henry Wadsworth, providing inspiration for his poem "The Lighthouse"; how early rocket launches damaged the original Cape Canaveral Lighthouse; that a friendly ghost named Rue is said to wander the grounds of Oregon's Heceta Head Lighthouse; and how the Race Rocks Lighthouse in British Columbia guided vessels into port during the Fraser gold rush. Chapters focus on construction method and present each sentinel over a two- to six-page spread with a narrative description: Conical & Cylindrical Construction, such as the Fire Island Light off Long Island and the Three Sisters of Nauset in Massachusetts Square Construction, such as the Holland Harbor Light in Michigan and the Presque Isle Light on Lake Erie Hexagonal and Octagonal Construction, such as the Alcatraz Island Light in San Francisco Bay and the famous Peggy's Point Light in Peggy's Cove, Nova Scotia Skeletal Construction, such as the Sanibel Island Light on Florida's Gulf Coast and the Rawley Point Light in Wisconsin. Striking color photographs show the lighthouse exteriors and interiors, and a facts box details location, tower height, focal plan, daymark, light characteristics, year established and current use. Thoughtful essays describe the architecture of the essential spiral staircase, lost lighthouses, how the lights work, the light-keepers, haunted lighthouses, the future of lighthouses and the most recognized and unusual of lighthouses, the Statue of Liberty. For the traveler, there is a list of North American Lights and useful resources. Lighthouse aficionados are many in number and all will enjoy this stunning book.

Lighthouse Ghosts Norma Elizabeth 1999 The mystic nature of a lighthouse almost requires embodiment beyond its structure. And what could be more romantic and chilling than a haunting? This book will satisfy your craving for the supernatural with thirteen thrilling tales of the lonely souls who continue to watch over America's shores -- even after death!

The Ride, the Rose, and the Resurrection David Charles Stieler 2013-02 The day in 2006 when the tastefully customized 1990 Harley-Davidson motorcycle arrived in the driveway was one of Carole Stieler's happiest moments. For Carole and her husband, author David Charles Stieler, experiencing life from the seat of a motorcycle offered a perspective that no other form of transportation could provide. This couple from rural Michigan had no way of knowing that the motorcycle's arrival would mark the beginning of the final journey of life as they knew it. In *The Ride, the Rose, and the Resurrection*, David narrates their story of how a horrific hit-and-run motorcycle crash tore life out from under

this middle-class American family. He tells of both his and Carole's psychological, spiritual, and physical battles to survive their near-death experience, and he communicates the harsh realities of the financial and insurance issues related to such an accident. This memoir not only offers a true account of the battle between life and death but also shares stories of compassion and suspicion, companionship and abandonment, and religion and faith, in which forgiveness becomes the key to resurrection.

Detroit's Birwood Wall: Hatred & Healing in the West Eight Mile Community

Gerald Van Dusen 2019-06-03 In 1941, a real estate developer in northwest Detroit faced a dilemma. He needed federal financing for white clients purchasing lots in a new subdivision abutting a community of mostly African Americans. When the banks deemed the development too risky because of potential racial tension, the developer proposed a novel solution. He built a six-foot-tall, one-foot-thick concrete barrier extending from Eight Mile Road south for three city blocks--the infamous Birwood Wall. It changed life in West Eight Mile forever. Gathering personal interviews, family histories, land records and other archival sources, author Gerald Van Dusen tells the story of this isolated black enclave that persevered through all manner of racial barriers and transformed a symbol of discrimination into an expression of hope and perseverance.

Wisconsin Lighthouses Ken Wardius 2013-10-17 "Lighthouses are a reflection of the human spirit and a mirror to our past."—from the Introduction No symbol is more synonymous with Wisconsin's rich maritime traditions than the lighthouse. These historic beacons conjure myriad notions of a bygone era: romance, loneliness, and dependability; dedicated keepers manning the lights; eerie tales of haunted structures and ghosts of past keepers; mariners of yesteryear anxiously hoping to make safe haven around rocky shorelines. If these sentinels could talk, imagine the tales they would tell of ferocious Great Lakes storms taking their toll on vessels and people alike. In this fully updated edition of *Wisconsin Lighthouses*, Ken and Barb Wardius tell those tales, taking readers on an intimate tour of lighthouses on Lake Superior, Lake Michigan, and Lake Winnebago. Both delightful storytellers and accomplished photographers, the couple complement their engaging text with more than 100 stunning color photographs, along with dozens of archival photos, maps, documents, and artifacts. Detailed "how to get there" directions, up-to-the-minute status reports on each light, and sidebars on everything from lighthouse vocabulary to the often lonely lives of lightkeepers make this the definitive book on Wisconsin's lighthouses.

Locally Laid Lucie B. Amundsen 2017-02-28 How a Midwestern family with no agriculture experience went from a few backyard chickens to a full-fledged farm—and discovered why local chicks are better. When Lucie Amundsen had a rare night out with her husband, she never imagined what he'd tell her over dinner—that his dream was to quit his office job (with benefits!) and start a commercial-scale pasture-raised egg farm. His entire agricultural experience consisted of raising five backyard hens, none of whom had yet laid a single egg. To create this pastured poultry ranch, the couple scrambles to acquire nearly two thousand chickens—all named Lola. These hens, purchased commercially, arrive bereft of basic chicken-y instincts, such as the evening urge to roost. The newbie farmers also deal with their own shortcomings, making for a failed inspection and intense struggles to keep livestock alive (much less laying) during a brutal winter. But with a heavy dose of humor, they learn to negotiate the highly stressed no-man's-land known as Middle Agriculture. Amundsen sees firsthand how these midsized farms, situated between small-scale operations and mammoth factory farms, are vital to rebuilding America's local food system. With an unexpected passion for this dubious enterprise, Amundsen shares a messy, wry, and entirely educational story of the unforeseen payoffs (and frequent pitfalls) of one couple's ag adventure—and many, many hours spent wrangling chickens.

A Child of the Sea and Life Among the Mormons Elizabeth Whitney Williams 1905
This is the vivid memoir of a mid-nineteenth-century girlhood spent mostly on the islands of Lake Michigan and the onshore communities of Manistique, Charlevoix, Traverse City, and Little Traverse (now Harbor Springs), written by a woman who grew up to be a lighthouse keeper on Beaver Island and in Little Traverse. Williams was brought up Catholic by a French-speaking mother and an English-speaking father who was a ship's carpenter for entrepreneurs engaged in the mercantile trade to and from these rapidly developing settlements. Williams depicts cordial, even intimate, relationships between her family and the Indians who lived nearby, and describes the courtship and arranged marriage of an Ottawa chief's daughter who lived with her family for an extended period. The major portion of the book, however, is devoted to her eye-witness recollections of James Jesse Strang's short-lived dissident Mormon monarchy on Beaver Island, amplified by stories she heard from disillusioned followers. Strang was expelled from the Church of Jesus Christ of Latter-Day Saints after disputing Brigham Young's right to succeed Joseph Smith. Eventually he and his own loyal followers settled on Beaver Island and attracted a stream of new converts; at their demographic peak, the "Strangites" numbered 5,000 strong. Strang saw himself as a prophet and believed the rules he tried to establish were in accord with divine revelations. Williams describes the mounting tensions between Strang's followers and the "gentile" residents who fled the island as Strang's influence grew; incidents connected with Strang's assassination by two former followers; and the ensuing exodus of most Strangites from Beaver Island. She later moved back there with her family, as did many of the earlier inhabitants.

ingredients of industrial America across docks into ever larger ships using increasingly complicated tools and technology. The shipping industry was an expensive challenge, as it required huge investments of capital, caused bitter labor disputes, and needed direct government intervention to literally remake the lakes to accommodate the ships. It also demanded one of the most integrated international systems of regulation and navigation in the world to sail a ship from Duluth to upstate New York. *Sailing into History* describes the fascinating history of a century of achievements and setbacks, unimagined change mixed with surprising stability.

The Leader in Me Stephen R. Covey 2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

mariners. Even after two separate stone towers were built on the shoreline, sailors continued to request a light at the end of the mile-long shoal. When a new lighthouse was finally approved in 1873, experts deemed its novel design too fragile for the location--it was built anyway. Long overdue and of an inappropriate design, the iconic Thomas Point Shoal Lighthouse was lit in November 1875 and continues to serve mariners. Thomas Point is the last Chesapeake Bay screwpile-style lighthouse in its original location and one of only twelve American lighthouses designated as a National Historic Landmark. The Tilted World Tom Franklin 2013-10-01 Set against the backdrop of the historic flooding of the Mississippi River, *The Tilted World* is an extraordinary tale of murder and moonshine, sandbagging and saboteurs, and a man and a woman who find unexpected love, from Tom Franklin, the acclaimed author of the New York Times bestseller *Crooked Letter*, *Crooked Letter*, and award-winning poet Beth Ann Fennelly. The year is 1927. As rains swell the Mississippi, the mighty river threatens to burst its banks and engulf everything in its path, including federal revenue agent Ted Ingersoll and his partner, Ham Johnson. Arriving in the tiny hamlet of Hobnob, Mississippi, to investigate the disappearance of two fellow agents who'd been on the trail of a local bootlegger, they are astonished to find a baby boy abandoned in the middle of a crime scene. Ingersoll, an orphan raised by nuns, is determined to find the infant a home, and his search leads him to Dixie Clay Holliver. A strong woman married too young to a philandering charmer, Dixie Clay has lost a child to illness and is powerless to resist this second chance at motherhood. From the moment they meet, Ingersoll and Dixie Clay are drawn to each other. He has no idea that she's the best bootlegger in the county and may be connected to the agents' disappearance. And while he seems kind and gentle, Dixie Clay knows full well that he is an enemy who can never be trusted. When Ingersoll learns that a saboteur might be among them, planning a catastrophe along the river that would wreak havoc in Hobnob, he knows that he and Dixie Clay will face challenges and choices that they will be fortunate to survive. Written with extraordinary insight and tenderness, *The Tilted World* is that rarest of creations, a story of seemingly ordinary people who find hope and deliverance where they least expect it—in each other.
