Charting the World Richard Panchyk 2011-08 Maps have been a part of human culture since the days of scratching on cave walls, and this richly illustrated history chronicles the road from simple diagrams used to avoid danger to the complex, navigational charts used today. Displaying an array of historic atlases and a variety of cartography styles, this book allows young readers to test their map-reading skills while discovering the intricate beauty and the wealth of information held within. Geographical concepts are spotlighted through an assortment of guided activities--including finding the elevation of hills, plotting a course with a magnetic compass, creating three-dimensional land models using a contour map, and performing a plot survey. Drawing the conclusion that the study of geography and maps is crucial to understanding an ever-changing planet, this handbook discloses the ways in which technological advances in cartography can further discussions on climate change, warfare, environmental conservation, population growth, and other timely topics.

Modern Baking Donna Hay 2018-10 Donna Hay, Australia's bestselling, favourite and most trusted cook, brings you one of her most beautiful books yet: *Modern Baking*, with over 250 mouthwatering recipes for cakes, biscuits and all kinds of divinely delicious sweet treats. I find there's something truly enchanting about baking. From the way ingredients change as they're whisked and whipped, to the joy that a warm slice of cake can bring - it's always been my first love in the kitchen. Even though I'm a classics girl at heart, I'm forever adding on-trend twists to my sweet recipes and I want to share them with you. This book is what I like to think of as my modern baking bible. Inside are more than 250 recipes - my all-time favourite essentials, plus some super-smart shortcuts for when life gets crazy busy. I've also included plenty of better-for-you treats, made with wholesome raw ingredients, for a touch of balance. Be it chewy cookies, the fudgiest brownies, dreamy meringue or creamy iced desserts, let these modern sweets bring a little magic into your kitchen.

CANALS AND DAMS Donna Latham 2014-01-07 *Canals and Dams: Investigate Feats of Engineering* invites children ages 9 and up to explore the innovation and physical science behind the amazing waterways and barriers our world depends on. Trivia and fun facts illustrate engineering ingenuity and achievements from

ancient aqueducts to the Suez Canal and the Hoover Dam. Readers will discover that engineers and builders alike put their lives on the line to advance civilization, experiencing triumphs and tragedies in building big. Through dazzling success and heartbreaking failure, they developed increasingly sophisticated tools and building methods. Activities and projects encourage children to explore the engineering process and to try, try again through trial and error. They'll engage in hands-on explorations of buoyancy, Newton's third law of motion, and forces that push and pull structures. They'll create a paper-cup zip line, build an arch, and simulate a tsunami, while experimenting with gravity, hydroponics, and velocity. In *Canals and Dams: Investigate Feats of Engineering*, children will gain an appreciation for the important field of engineering as they develop their own building skills.
