Travels Through History - France Julian Worker 2019-07-16 The south-eastern part of France has an abundance of historical interest. From the Roman theatres of Arles and Orange to the Cathar castles in the foothills of The Pyrenees there is much to see and remember. There are mysteries too. Why would the Roman Catholic Church create a crusade against the Cathar 'heretics' when these people were following such a devout life? How did the Romans build the Pont du Gard so quickly as part of a 40-mile water channel to provide water to Nimes? What did Bérenger Saunière discover in Rennes-le-Chateau that made him so wealthy? Added to the history and the mystery are a host of natural wonders, beautiful scenery, and familiar names appearing in unfamiliar places.

Josephine Baker Jose-Luis Bocquet 2017-04-11 Paris, 1925. Over the course of a single evening, the Mississippi-born dancer Josephine Baker (1906-1975) becomes the darling of the Roaring Twenties. Some audience members in the Théâtre des Champs-Élysées are scandalized by the African American's performance in La Revue Nègre, but the city's discerning cultural figures--among them Picasso and Cocteau--are enchanted by her exotic, bold, and uninhibited style. When her adopted country grants her citizenship in 1939, Baker sees her fame as a means of helping the French Resistance. She takes advantage of her globe-trotting lifestyle to pass on messages and gather information. A decade later, installed in a palatial 15th century château, she adopts 12 children from different ethnic backgrounds. Josephine Baker paints a glorious portrait of a spirited, principled, and thoroughly modern woman.

The Procrastination Equation Piers Steel 2010-12-28 DON'T WAIT TO READ THIS BOOK: The world's leading expert on procrastination uses his groundbreaking research to offer understanding on a matter that bedevils us all. Writing with humour, humanity and solid scientific information reminiscent of Stumbling on Happiness and Freakonomics, Piers Steel explains why we knowingly and willingly put off a course of action despite recognizing we'll be worse off for it. For those who surf the Web instead of finishing overdue assignments, who always say diets start tomorrow, who stay up late watching TV to put off going to sleep, The Procrastination Equation explains why we do what we do — or in this case don't — and why in Western societies we're in the midst of an escalating procrastination epidemic. Dr. Piers Steel takes on the myths and misunderstandings behind procrastination and motivation — showing us how procrastination affects our lives, health, careers and happiness and what we can do about it. With accessible prose and the benefits of new scientific research, he provides insight into why we procrastinate even though the result is that we are less happy, healthy, even wealthy. Who procrastinates and why? How many ways, big and small, do we procrastinate? How can we stop doing it? The reasons are part cultural, part psychological, part biological. And, with a million new ways to distract ourselves in the digitized world — all of which feed on our built-in impulsiveness — more of us are potentially damaging ourselves by putting things off. But Steel not only analyzes the factors that weigh us down but the things that motivate us — including understanding the value

of procrastination.

Ego Is the Enemy Ryan Holiday 2016-06-14 The instant Wall Street Journal, USA Today, and international bestseller "While the history books are filled with tales of obsessive visionary geniuses who remade the world in their image with sheer, almost irrational force, I've found that history is also made by individuals who fought their egos at every turn, who eschewed the spotlight, and who put their higher goals above their desire for recognition." —from the prologue Many of us insist the main impediment to a full, successful life is the outside world. In fact, the most common enemy lies within: our ego. Early in our careers, it impedes learning and the cultivation of talent. With success, it can blind us to our faults and sow future problems. In failure, it magnifies each blow and makes recovery more difficult. At every stage, ego holds us back. Ego Is the Enemy draws on a vast array of stories and examples, from literature to philosophy to history. We meet fascinating figures such as George Marshall, Jackie Robinson, Katharine Graham, Bill Belichick, and Eleanor Roosevelt, who all reached the highest levels of power and success by conquering their own egos. Their

strategies and tactics can be ours as well. In an era that glorifies social media, reality TV, and other forms of shameless self-promotion, the battle against ego must be fought on many fronts. Armed with the lessons in this book, as Holiday writes, "you will be less invested in the story you tell about your own specialness, and as a result, you will be liberated to accomplish the world-changing work you've set out to achieve."
