Academy for Health Superheroes Dr Agnes Electra Chlebinska and David W Evans 2017-04-18 Agnes is a young girl with a special gift - she is able to feel when others need help. Together with her friends, Agnes creates the Academy for Health Superheroes, where she teaches humans, animals, organs and food characters how to make the world a healthier and happier place. In the first book of the Academy for Health Superheroes series, The Heart, Jack and his father become good friends with the Junk Food Monster. But then Jack's father becomes very ill with some serious heart problems, which makes his family very sad. Luckily the Health Superheroes are here to help. Will they beat the Junk Food Monster in time to save Jack's father? Agnes and David's debut children's book uses fun characters and quirky illustrations to educate children of the importance of nutrition, exercise and positive psychology. It also contains recipes for nutritious meals and snacks for young readers to try at home. The book will appeal to readers aged 6 years and over, as well as parents and teachers wanting to encourage a healthy lifestyle in young children.

I Loved a Rogue Katharine Ashe 2015-02-24 In the third in Katharine Ashe's Prince Catchers series, the eldest of three very different sisters must fulfill a prophecy to discover their birthright. But if Eleanor is destined to marry a prince, why can't she resist the scoundrel who seduced her? She can pour tea, manage a household, and sew a modest gown. In short, Eleanor Caulfield is the perfect vicar's daughter. Yet there was a time when she'd risked everything for a black-eyed gypsy who left her brokenhearted. Now he stands before her—dark, virile, and ready to escort her on a journey to find the truth about her heritage. Leaving eleven years ago should have given Taliesin freedom. Instead he's returned to Eleanor, determined to have her all to himself, tempting her with kisses and promising her a passion she's so long denied herself. But if he was infatuated before, he's utterly unprepared for what will happen when Eleanor decides to abandon convention—and truly live . . .

Ways unto Heaven Abdoul Aziz Mbacke 2010-11 This book was written by Sheikh Ahmadou Bamba, the famous African Muslim leader of nonviolence and Sufi. "Ways unto Heaven" is devoted to the rules of Muslim Ethics and of Sufism which enables humankind to purify their hearts and their souls so as to lift them to the Lord. Through this book Sheikh Ahmadou Bamba demonstrates the universality of Muslim spirituality which leads to fraternity and peace beyond present bias of intolerance and violence against Islam.

Twelve Years a Slave Solomon Northup 2021-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Indian Cotton Textiles in West Africa Kazuo Kobayashi 2019-06-10 This book focuses on the significant role of West African consumers in the development of the global economy. It explores their demand for Indian cotton textiles and how their consumption shaped patterns of global trade, influencing economies and businesses from Western Europe to South Asia. In turn, the book examines how cotton textile production in southern India responded to this demand. Through this perspective of a south-south economic history, the study foregrounds African agency and considers the lasting impact on production and exports in South Asia. It also considers how European commercial and imperial expansion provided a complex web of networks, linking West African consumers and Indian weavers. Crucially, it demonstrates the emergence of the modern global economy.

Rituals, Runaways, and the Haitian Revolution Crystal Nicole Eddins 2021-10-28
The Haitian Revolution was perhaps the most successful slave rebellion in modern history; it created the first and only free and independent Black nation in the Americas. This book tells the story of how enslaved Africans forcibly brought to colonial Haiti through the trans-Atlantic slave trade used their cultural and religious heritages, social networks, and labor and militaristic skills to survive horrific conditions. They built webs of networks between African and 'creole' runaways, slaves, and a small number of free people of color through rituals and marronage - key aspects to building the racial solidarity that helped make the revolution successful. Analyzing underexplored archival sources and advertisements for fugitives from slavery, Crystal Eddins finds indications of collective consciousness and solidarity, unearthing patterns of resistance. Considering the importance of the Haitian Revolution and the growing scholarly interest in exploring it, Eddins fills an important gap in the existing literature.

Muslim Cool Su'ad Abdul Khabeer 2016-12-06 Interviews with young, black Muslims in Chicago explore the complexity of those with identities formed at the crossroads of Islam and hip hop This groundbreaking study of race, religion and popular culture in the 21st century United States focuses on a new concept, "Muslim Cool." Muslim Cool is a way of being an American Muslim—displayed in ideas, dress, social activism in the 'hood, and in complex relationships to state power. Constructed through hip hop and the performance of Blackness, Muslim Cool is a way of engaging with the Black American experience by both Black and non-Black young Muslims that challenges racist norms in the U.S. as well as dominant ethnic and religious structures within American Muslim communities. Drawing on over two years of ethnographic research, Su'ad Abdul Khabeer illuminates the ways in which young and multiethnic U.S. Muslims draw on Blackness to construct their identities as Muslims. This is a form of critical Muslim self-making that builds on interconnections and intersections, rather than divisions between "Black" and "Muslim." Thus, by countering the notion that Blackness and the Muslim experience are fundamentally different, Muslim Cool poses a critical challenge to dominant ideas that Muslims are "foreign" to the United States and puts Blackness at the center of the study of American Islam. Yet Muslim Cool also demonstrates that connections to Blackness made through hip hop are critical and contested—critical because they push back against the pervasive phenomenon of anti-Blackness and contested because questions of race, class, gender, and nationality continue to complicate self-making in the United States.

A Shi'ite Anthology William C. Chittick 1981-01-01 Created by the Prophet Muhammad and his twelve Imams, the Hadith is an ancient and profoundly influential body of religious texts in Shi'ite Muslim literature, second in importance only to the Holy Koran itself. Texts on the practical aspects of life and pure metaphysics are included in this first English translations of excerpts from the Hadith. Especially selected for the Western reader by the renowned Islamic scholar Tabataba'i, the passages from the Hadith shed light on the culture, history, law, and theology of the Shi'ite community and provide direct translations of some of the most famous of Islamic prayers.

Southern Edwardseans Obbie Tyler Todd 2022-01-17 The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

Ancient Board Games Irving Finkel 1999 Here are four board games -- the Royal Game of Ur; Mehen, the Game of the Snake; Hounds and Jackals; and the Egyptian Game of Senet -- which were popular in the days of the pharaohs in ancient Egypt and in nearby countries from about 5,000 years ago, chosen and recreated by Dr. Irving Finkel of the British Museum. Everything you need to play them is here: the playing boards recreated in sumptuous colors, playing pieces, and full instructions including variations and other possibilities you may like to try.

Nanostructures Hitoshi Nejo 2007-01-10 The main theme of this book is the exploration the underlying physical laws that permit the fabrication of nanometer-scale structures. As researchers attempt to fabricate nanometer-scale structures which do not exist per se, they must still employ the natural laws to fabricate them through processes such as self-assembly. This book will find service both as a reference work for researchers and as a comprehensive didactical text for graduate students.

Red Panda Angela R. Glatston 2010-11-25 Red Panda: Biology and Conservation of the First Panda provides a broad-based overview of the biology of the red panda, *Ailurus fulgens*. A carnivore that feeds almost entirely on vegetable material and is colored chestnut red, chocolate brown and cream rather than the expected black and white. This book gathers all the information that is available on the red panda both from the field and captivity as well as from cultural aspects, and attempts to answer that most fundamental of questions, "What is a red panda?" Scientists have long focused on the red panda's

controversial taxonomy. Is it in fact an Old World procyonid, a very strange bear or simply a panda? All of these hypotheses are addressed in an attempt to classify a unique species and provide an in-depth look at the scientific and conservation-based issues urgently facing the red panda today. Red Panda not only presents an overview of the current state of our knowledge about this intriguing species but it is also intended to bring the red panda out of obscurity and into the spotlight of public attention. Wide-ranging account of the red panda (*Ailurus fulgens*) covers all the information that is available on this species both in and ex situ. Discusses the status of the species in the wild, examines how human activities impact on their habitat, and develops projections to translate this in terms of overall panda numbers. Reports on status in the wild, looks at conservation issues and considers the future of this unique species. Includes contributions from long-standing red panda experts as well as those specializing in fields involving cutting-edge red panda research.

A Life in Jazz Danny Barker 2016-07-27 As a musician who grew up in New Orleans, and later worked in New York with the major swing orchestras of Lucky Millinder and Cab Calloway, Barker is uniquely placed to give an authoritative but personal view of jazz history. In this book he discusses his life in music, from the children's 'spasm' bands of the seventh ward of New Orleans, through the experience of brass bands and jazz funerals involving his grandfather, Isidore Barbarin, to his early days on the road with the blues singer Little Brother Montgomery. Later he goes on to discuss New York, and the jazz scene he found there in 1930. His work with Jelly Roll Morton, as well as the lesser-known bands of Fess Williams and Albert Nicholas, is covered before a full account of his years with Millinder, Benny Carter and Calloway, including a description of Dizzy Gillespie's impact on jazz, is given. The final chapters discuss Barker's career from the late 1940s. Starting with the New York dixieland scene at Ryan's and Condon's he talks of his work with Wilbur de Paris, James P. Johnson and This is Jazz, before discussing his return to New Orleans and New Orleans Jazz Museum. A collection of Barker's photographs,

Collecting in the South Sea Bronwen Douglas 2018-12-03 This book is a study of 'collecting' undertaken by Joseph Antoine Bruni d'Entrecasteaux and his shipmates in Tasmania, the western Pacific Islands, and Indonesia. In 1791-1794 Bruni d'Entrecasteaux led a French naval expedition in search of the lost vessels of La Pérouse which had last been seen by Europeans at Botany Bay in March 1788. After Bruni d'Entrecasteaux died near the end of the voyage and the expedition collapsed in political disarray in Java, its collections and records were subsequently scattered or lost. The book's core is a richly illustrated examination, analysis, and catalog of a large array of ethnographic objects collected during the voyage, later dispersed, and recently identified in museums in France, Norway, the Netherlands, Switzerland, and the United States. The focus on artifacts is informed by a broad conception of collecting as grounded in encounters or exchanges with Indigenous protagonists and also as materialized in other genres--written accounts, vocabularies, and visual representations (drawings, engravings, and maps). Historically, the book

outlines the antecedents, occurrences, and aftermath of the voyage, including its location within the classic era of European scientific voyaging (1766-1840) and within contemporary colonial networks. Particular chapters trace the ambiguous histories of the extant collections. Ethnographically, contributors are alert to local settings, relationships, practices, and values; to Indigenous uses and significance of objects; to the reciprocal, dialogic nature of collecting; to local agency or innovation in exchanges; and to present implications of objects and their histories, especially for modern scholars and artists, both Indigenous and non-Indigenous.

Novel on Yellow Paper Stevie Smith 1980 Stevie's alter ego Pompey is young, in love and working as a secretary for the magnificent Sir Phoebus Ullwater. In between making coffee and typing letters for Sir Phoebus, Pompey scribbles down - on yellow office paper - her quirky thoughts. Her flights of imagination take in Euripedes, sex education, Nazi Germany and the Catholic Church, shattering conventions in their wake.

I Will Survive Gloria Gaynor 2014-03-11 I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

Organic Spintronics Zeev Vally Vardeny 2010-04-09 Present worldwide funding in organic electronics is poised to stimulate major research and development efforts in organic materials research for lighting, photovoltaic, and other optoelectronic applications. The field of organic spintronics, in particular, has flourished in the area of organic magneto-transport. Reflecting the main avenues of substantial advances in this arena, Organic Spintronics is an up-to-date summary of the experimental and theoretical aspects of the field. With contributions by a panel of international experts on the cutting edge of research, this volume explores: Spin injection and manipulation in organic spin valves The magnetic field effect in organic light-emitting diodes (OLEDs) The spin transport effect in relation to spin manipulation Organic magnets as spin

injection electrodes in organic spintronics devices The coherent control of spins in organic devices using the technique of electronically detected magnetic resonance The possibility of using organic spin valves as sensors Balancing practical experimentation with analytical constructs, the book covers both the theoretical aspects of spin injection, transport, and detection in organic spin valves as well as the underlying mechanism of the magnetoresistance and magneto-electroluminescence in OLEDs. The first book of its kind on this specialized area, this volume is destined to provide researchers and students with the impetus to develop new channels of inquiry in an area that has almost limitless potential.

Lake Trasimene 217 BC Nic Fields 2017-01-26 Following Hannibal's crushing victory at the battle of the Trebbia, the reeling Roman Republic sent a new army under the over-confident consul Caius Flaminius to destroy the Carthaginian invaders - unbeknownst to him they were ready and waiting. The destruction of the Roman force at Lake Trasimene firmly established Hannibal as one of the Ancient World's greatest commanders thanks to his use of innovative tactics, including the first recorded use of a turning movement. The Romans would not send another major army to confront him until the battle of Cannae in 216 BC. This new study, based on recent archaeological work on the battlefield itself, tells the full story of one of Hannibal's greatest victories with the help of maps, full-colour illustrations, and detailed sections on the make-up of the armies and their commanders.

Estimating Market Value and Establishing Market Rent at Small Airports Aviation Management Consulting Group, Inc 2020 "Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.

Art Kane. Harlem 1958. Ediz. Illustrata Art Kane 2018 "ART KANE. HARLEM 1958 marks the 60th anniversary of one of the most celebrated images in American history. Now commonly known as A Great Day in Harlem, the famous shot of 57 jazz musicians gathered outside a brownstone in New York is one of the most imitated images in popular culture, by one of the world's greatest photographers. ART KANE. HARLEM 1958 is a visual history of an iconic image including, for the first time, virtually every single frame from the historic shoot. With original text by Art Kane, forewords by Quincy Jones, the legendary Benny Golson, who appears in the photo, and an introduction by Kane's son, musician and photographer Jonathan Kane, the 168-page hardback volume is the story behind the shot."--Publisher's web site.

Disaster Resilience and Sustainability Sangam Shrestha 2021-06-24 Disasters undermine societal well-being, causing loss of lives and damage to social and economic infrastructures. Disaster resilience is central to achieving the 2030 Sustainable Development Goals, especially in regions where extreme inequality

combines with the increasing frequency and intensity of natural disasters. Disaster risk reduction and resilience requires participation of wide array of stakeholders ranging from academicians to policy makers to disaster managers. Disaster Resilient Cities: Adaptation for Sustainable Development offers evidence-based, problem-solving techniques from social, natural, engineering and other disciplinary perspectives. It connects data, research, conceptual work with practical cases on disaster risk management, capturing the multi-sectoral aspects of disaster resilience, adaptation strategy and sustainability. The book links disaster risk management with sustainable development under a common umbrella, showing that effective disaster resilience strategies and practices lead to achieving broader sustainable development goals. Provides foundational knowledge on integrated disaster risk reduction and management to show how resilience and its associated concept such as adaptive and transformative strategies can foster sustainable development Brings together disaster risk reduction and resilience scientists, policy-makers and practitioners from different disciplines Case studies on disaster risk management from natural science, social science, engineering and other relevant disciplinary perspectives

Africans in Exile Nathan Riley Carpenter 2018-09-10 "This rich volume will interest scholars and students of Africa, the African diaspora, world history, legal history, and international affairs." -Lorelle Semley, author of To Be Free and French: Citizenship in France's Atlantic Empire The enforced removal of individuals has long been a political tool used by African states to create generations of asylum seekers, refugees, and fugitives. Historians often present such political exile as a potentially transformative experience for resilient individuals, but this reading singles the exile out as having an exceptional experience. This collection seeks to broaden that understanding within the global political landscape by considering the complexity of the experience of exile and the lasting effects it has had on African peoples. The works collected in this volume seek to recover the diversity of exile experiences across the continent. This corpus of testimonials and documents is presented as an "archive" that provides evidence of a larger, shared experience of persecution and violence. This consideration reads exiles from African colonies and nations as active participants within, rather than simply as victims of, the larger global diaspora. In this way, exile is understood as a way of asserting political dissidence and anti-imperial strategies. Broken into three distinct parts, the volume considers legal issues, geography as a strategy of anticolonial resistance, and memory and performative understandings of exile. The experiences of political exile are presented as fundamental to an understanding of colonial and postcolonial oppression and the history of state power in Africa.
