The Taking of Hong Kong Susanna Hoe 2013-10-11 Relations between Britain and China have, for over 150 years, been inextricably bound up with the taking of Hong Kong Island on 26 January 1841. The man responsible, Britain's plenipotentiary Captain Charles Elliot, was recalled by his government in disgrace and has been vilified ever since by China. This book describes the taking of Hong Kong from Elliot's point of view for the first time - through the personal letters of himself and his wife Clara - and shows a man of intelligence, conscience and humanitarian instincts. The book gives new insights into Sino-British relations of the period. Because these are now being re-assessed both historically and for the future, revelations about Elliot's role, intentions and analysis are significant and could make an important difference to our understanding of the dynamics of these relations. On a different level, the book explores how Charles the private man, with his wife by his side, experienced events, rather than how Elliot the public figure reported them to the British government. The work is therefore of great historiographical interest.

**The Making of Hong Kong** Barrie Shelton 2013-03 This book investigates what the history of Hong Kong's

urban development has to teach other cities as they face environmental challenges, social and demographic change and the need for new models of dense urbanism. The authors describe how the high-rise intensity of Hong Kong came about; how the forest of towers are in fact vertical culs de sac; and how the city might become truly 'volumetric' with mixed activities through multiple levels and 3D movement networks incorporating 'town cubes' rather than town squares. **Scouting in Hong Kong, 1910-2010** Paul Kua 2011 Scouting in Hong Kong, 1910-2010 covers the "what, how, when, who, why and so what" of the Hong Kong Scout Movement from 1910 to 2010, using a large volume of primary sources. It deals with the development of the youth movement both as a subject of enquiry and as an analytical tool which may shed light upon the broader history of Hong Kong. The author combines professed aim of Scouting (citizenship), the key motives for supporting it (governance, war, secular education and religious conversion) and the most relevant differentiating identities (race, class, gender and age) to analyze the experience of young people involved in Hong Kong Scouting throughout the years, both colonial and post-colonial. The book is richly illustrated with interesting and instructive images and relied heavily on a doctoral dissertation by the author, though they are also significantly different in both structure and content. It is a critical study aimed at both general readers and readers with more specific interests, and should enrich their understanding of the histories of Scouting, youth, citizenship education, the colonies, the British Empire, decolonization, China and Hong Kong. By reconstructing the evolution of Scouting from a niche movement for a handful of British boys before the First World War to a fully indigenized and co-educational mass movement in the post-colonial Hong Kong society, it fills a gap in the historical studies of youth movements around the world. By analyzing how the movement and the (re)construction of its particular brand of citizenship training reflected the development of the community, it adds to our understanding of the political, cultural and social history of Hong Kong, often influenced by that of China. By demonstrating the uniqueness of its evolution in the colonial context, it provides useful comparative insights into the history of imperialism and colonial youth movements. By exploring the choices made by local Scouting since Hong Kong's retrocession of sovereignty to China, it compliments other studies on decolonization and post-colonial citizenship.

**Politics of Mega-Events in China's Hong Kong and Macao** Marcus P. Chu 2019-03-28 This book explores the connection between politics and mega-events in post-handover Hong Kong and Macao. It also offers an in-depth account of the two cities' keenness to integrate with China and engage in the international society and China's eagerness to build image, boost influence and gain respect on the global arena. This work will facilitate academics, think tanks, diplomats and government officials to further understand the politics and international relations of China, Hong Kong and Macao.

Hong Kong in China Gungwu Wang 1999 The dramatic handover of Hong Kong to the People's Republic of China on July 1, 1997, amid much tension and speculation, closes one significant colonial chapter in Asia. At the same time, it also sets the stage for new political and economic possibilities with China closely involved with a key financial center in Asia. Hong Kong in China comprises a collection of papers evaluating the situation in Hong Kong SAR over the last two years. The handing over of Hong Kong to China presents a challenge to the legal system which is intrinsically and delicately linked to the political vision of one country, two systems. While politicians and legalists seek to work out the model, the people of Hong Kong confront the dilemma of an identity crisis, on top of the contentious social problems presented by the immigration of Chinese mainlanders.

**French Banking and Entrepreneurialism in China and Hong Kong** Hubert Bonin 2019-06-07 Many books have addressed the economic and financial history of Hong Kong, and the imperialist conflicts in the key Chinese port-cities but very few books have explored French initiatives and performance in this area, beyond diplomacy, geopolitics or cultural issues. In this book, Hubert Bonin confronts arguments about "the great divergence", "the first globalisation", and forms of "economic patriotism". He gauges the competitive edge of French companies and banks, their struggle with British domination (HBSC, Chartered, shipping, trade houses/hongs) and their resistance against competitors from other countries (Japan, Germany, Netherlands, Belgium, USA, or Russia). The book delves into studies of management abroad, therefore mixing broad geo-economic issues with precise business history and deep banking history. The connections between French interests in China and Hong Kong and the colony of Indochina are established too. A second part of the book is dedicated to the case study of Hong Kong, as the British colony acted as a hub for Asian and European interests at the heart of connections with mainland China and some neighbouring territories (Indochina, etc.). This is essential reading for academics interested in banking and business history, the history of entrepreneurship, as well as, those involved in the contemporary history of China and Hong Kong, in the assessment of world-wide geo-economic competition between European powers in Asia (Great-Britain, and France), and in the first stages of economic "modernity", along European models, in emerging modern China.

Education and Society in Hong Kong and Macao M. Bray 2006-06-28 Hong Kong and Macao have much in common. The dominant populations in both territories are Cantonese-speaking Chinese; both are small in area; both are urban societies; both have been colonies of European powers; and both have undergone political transition to reunification with China. Yet in education, for reasons that are analysed in this book, they are very different. The patterns of similarities and differences in the two territories make a fascinating basis for comparative study. The overarching theme of the book, on continuity and change is particularly pertinent following the transition of the two societies of the postcolonial era. This thoroughly-revised and expanded second edition builds on the widely-acclaimed first edition. The work has been recognised as a significant contribution to the broad field of comparative education as well as to study of the specific societies which are its main focus.

Hong Kong's Housing Policy Betty Yung 2008-07-01 This book examines housing policy in Hong Kong using a new and unique interdisciplinary approach – combining the philosophical discussion on social justice with policy and housing studies. It considers both Western and Chinese concepts of social justice,

and investigates the role of social justice in a public policy such as housing. As a philosophical treatise on social administration, the book will be of interest to philosophy, public administration, and housing studies academics and students of all countries. Since Hong Kong represents a very special case with massive governmental intervention into the housing market, housing professionals and policy makers will find the analysis of Hong Kong's housing policy useful.

Made in Hong Kong Peter E. Hamilton 2021-01-05 Between 1949 and 1997, Hong Kong transformed from a struggling British colonial outpost into a global financial capital. *Made in Hong Kong* delivers a new narrative of this metamorphosis, revealing Hong Kong both as a critical engine in the expansion and remaking of postwar global capitalism and as the linchpin of Sino-U.S. trade since the 1970s. Peter E. Hamilton explores the role of an overlooked transnational Chinese elite who fled to Hong Kong amid war and revolution. Despite losing material possessions, these industrialists, bankers, academics, and other professionals retained crucial connections to the United States. They used these relationships to enmesh themselves and Hong Kong with the U.S. through commercial ties and higher education. By the 1960s, Hong Kong had become a manufacturing powerhouse supplying American consumers, and by the 1970s it was the world's largest sender of foreign students to American colleges and universities. Hong Kong's reorientation toward U.S. international leadership enabled its transplanted Chinese elites to benefit from expanding American influence in Asia and positioned them to act as shepherds to China's reengagement with global capitalism. After China's reforms accelerated under Deng Xiaoping, Hong Kong became a

crucial node for China's export-driven development, connecting Chinese labor with the U.S. market. Analyzing untapped archival sources from around the world, this book demonstrates why we cannot understand postwar globalization, China's economic rise, or today's Sino-U.S. trade relationship without centering Hong Kong.

*Lugard in Hong Kong* Bernard Mellor 1992-08-01 Sir Frederick Lugard ranks as one of Britain's most distinguished colonial administrators, although he remains a controversial figure. During his five years as Governor of Hong Kong -- a brief spell in the middle of a long and dramatic career in Africa -- Lugard found in educational reform the scope he needed to make a lasting impression and give play to his imperialist theories and instincts. The University of Hong Kong owes its existence to the initiative and tenacity of Lugard. His purpose in founding the University was to produce a new, highly educated middle class trained in Western technology and the English language: a vanguard of increased British influence in the east. This book paints a very human picture of Lugard as a working governor in the relative stability of Hong Kong against a backdrop of the Chinese empire being torn apart by revolution.

Ho Chi Minh in Hong Kong Geoffrey C. Gunn 2021-07-29 It was the trial of a century in colonial Hong Kong when, in 1931-33, Ho Chi Minh - the future President of Vietnam - faced down deportation to French-controlled territory with a death sentence dangling over him. Thanks to his appeal to English common law, Ho Chi Minh won his reprieve. With extradition a major political issue in Hong Kong today, Geoffrey C. Gunn's examination of the legal case of Ho Chi Minh offers a timely insight into the rule of

law and the issue of extradition in the former British colony. Utilizing little known archival material, Gunn sheds new light on Ho Chi Minh, communist and anti-colonial networks and Franco–British relations.

**The Foundation of the Catholic Mission in Hong Kong, 1841–1894** Ha Keloan Louis 2018-06-02 The Catholic Church is one of the few institutions that have survived since the inception of the British colony. She has contributed much during its development. As early as 1841, she set up a mission in Hong Kong. She and her various religious orders and congregations engaged in charitable works for the poor and the elderly in the early days of Hong Kong, greatly relieving the burden on the newly established colonial government. Today, apart from religious services, the Catholic Church still plays an important role in providing Hong Kong with diversified and professional services in medical care, education and social welfare. Historical studies on the Catholic Church in Hong Kong of a comprehensive nature are rare in comparison with other religions. The reasons of this may include the complicated organizational structure of the Catholic Church and the multiple languages used in the archival documents, such as Latin, French, Italian and Portuguese. As a Catholic clergy, the author of this book, Fr Louis Ha, is knowledgeable about the internal operation of the Church. He is also familiar with many European languages which help him master the original records and guarantee the credible result of his research. The contents of this book are based on the large number of documents provided by the Hong Kong Diocesan Archives Office, by archives in the Vatican and in various religious orders in Europe. As an objective and impartial historian, Fr. Louis Ha honestly pointed out the power struggle in the Church, the confrontation with the government, the competition between Chinese and foreign clerics. In fact, a candid description of the Catholic Church in Hong Kong is shown in front of the readers. Definitely, it is a precious reference book for the study of the local society, religion, education, and charitable work in early Hong Kong.

**Captain Elliot and the Founding of Hong Kong** Jon Burse 2018-03-30 On 26 January 1841 the British took possession of the island of Hong Kong. The Convention of Chuanbi was immediately repudiated by both the British and Chinese governments and their respective negotiators recalled. For the British this was Captain Charles Elliot, whose actions in China became mired in controversy for years to come. Who was

Captain Elliot, and how did he find himself at the center of this debate? This book traces Elliot's career from his early life through his years in the Royal Navy before focusing on his role in the First Anglo-Chinese War and the founding of what became the Crown Colony of Hong Kong. Elliot has been demonized by China and for the most part poorly regarded by historians. This book shows him to have been a man ahead of his time whose views on slavery, armed conflict, the role of women and racial equality often placed him at variance with contemporary attitudes. Twenty years after the return of Hong Kong to China, his legacy is still with us.

Beyond martial arts and comedy, Hong Kong films are a celebration of the grand diversity and pageantry of moviemaking—covering action, comedy, horror, eroticism, mythology, historical drama, modern romances, and experimental films. Information on 1,100 films produced in British Hong Kong from 1977 to 1997 is included here.

*Biodiversity of the Gulf of Guinea Oceanic Islands* Luis M. P. Cerfaco 2022-10-17 This open access book presents a comprehensive synthesis of the biodiversity of the oceanic islands of the Gulf of Guinea, a biodiversity hotspot off the west coast of Central Africa. Written by experts, the book compiles data from a plethora of sources – archives, museums, bibliography, official reports and previously unpublished data – to provide readers with the most updated information about the biological richness of these islands and the conservation issues they face. The Gulf of Guinea Oceanic Islands (Príncipe, São Tomé and Annobón and surrounding islets) present extraordinary levels of endemism across different animal, fungi and plant groups. This very high endemism likely results from the long geological history of the islands and their proximity to the diversity-rich continent. Many researchers, students and conservationists from across the globe are interested in documenting biodiversity on the islands, understanding the evolutionary origins of this diversity, and mitigating the impacts of global change on this unique archipelago. This book aims to be a primer for a broad audience seeking baseline biodiversity information and to serve as a roadmap for future research efforts aiming to fill knowledge gaps in understanding and conserving the unparalleled biodiversity of the Gulf of Guinea islands.
