will not only enable trombonists to acquaint them with the basic functions of reading the alto, tenor and bass clefs, but will also afford the opportunity to practice: Legato slurring, mixed meters, odd meters, sequential exercises, scale and arpeggio patterns, F attachment exercises. The realization of a true legato style is one of the trombonist's most cherished dreams; to further the student's progress in developing such a legato technique, the editor has cast many of the exercises formerly set in a straight forte tonguing style into an expressive legato setting. Thus, while the student is mastering the problems of changing clefs he/she may also be applying the soft tongue (dah) legato approach to the musical examples contained herein.
