The Song of Spring Hendrik Jonas 2019-03-19 In this charming book, children will delight in the sounds animals make as they come together to help a young bird find a friend. It's spring and everywhere birds are calling out to each other. But one bird has forgotten which sound to make. He tries "Woof," and meets a dog, who encourages him to try "Oink," with the expected result. Moo, Hee-Haw, Baa, Meow--each successive call adds another animal friend to the page. Will the young bird find another bird friend? As young readers are introduced to each type of animal and their sounds, Hendrik Jonas's clever illustrations grow increasingly crowded. The result is a beautiful celebration of friendship that will delight young children everywhere.

**The Position of the German Language in the World** Ulrich Ammon 2019 The Position of the German Language in the World focuses on the global position of German and the factors which work towards sustaining its use and utility for

international communication. From the perspective of the global language constellation, the detailed data analysis of this substantial research project depicts German as an example of a second-rank language. The book also provides a model for analysis and description of international languages other than English. It offers a framework for strengthening the position of languages such as Arabic, Chinese, French, Portuguese, Spanish and others and for countering exaggerated claims about the global monopoly position of English. This comprehensive handbook of the state of the German language in the world was originally published in 2015 by Walter de Gruyter in German and has been critically acclaimed. Suitable for scholars and researchers of the German language, the handbook shows in detail how intricately and thoroughly German and other second-rank languages are tied up with a great number of societies and how these statistics support or weaken the languages' functions and maintenance.

**Englisch lernen mit den Leselöwen-Abenteuergeschichten** Elisabeth Zöllner 2005 In 6 ganz unterschiedlichen Abenteuergeschichten (Besprechung der deutschen Ausgabe in BA 10/99) erleben Kinder alltagsnahe, spannende Situationen diesmal auf Englisch. Die Fortsetzung der Reihe "Englisch lernen mit den Leselöwen ..." (3 weitere Titel in dieser Nr.) setzt weiterhin auf das Rezept, erprobte Kinderlektüre ins Englische zu übersetzen. Ein "fire alarm" hält Stefan auf Trab, Tina und Laura werden im Zelt von "Shadows in the night" erschreckt oder Jana wünscht sich eine "moon rocket" zum Geburtstag. Weniger gebräuchliche Worte, im Text blau gedruckt, werden am Rand Verben in der konjugierten Form übersetzt. Der jedem Band beigegefügte, ausklappbare Themenwortschatz ist in diesem Fall aufgrund der Themenvielfalt etwas willkürlich und reicht von airbed (Luftmatratze) über aircraft factory (Flugzeugfabrik) bis zu genie (Flaschengeist), im Wörterbuch im Anhang finden sich die wichtigsten Vokabeln. Die einfache Syntax und die textbegleitenden Illustrationen von Wilfried Gebhard erleichtern das Textverständnis. Als Lektüre für fortgeschrittenere Englischlerner im Grundschulalter empfohlen.. Sechs spannende Abenteuergeschichten auf Englisch für Neugierige, die schon gute Grundkenntnisse haben.

**Anniversaries** Uwe Johnson 1975 A landmark of 20th century literature about New York in the late 1960s, now in English for the first time. As a novel, Uwe Johnson's masterpiece, *Anniversaries*, is at once daringly simple in conception and wonderfully complex and engaging in effect. Late in 1967, Johnson, already one of the most celebrated German novelists of his generation, set out to write a book that would take the form of an entry for every day of the year that lay ahead. The first section was dated August 20, and Johnson had of course no idea what the year would bring--that was part of the challenge--but he did have his main character--Gesine Cresspahl, a German emigre living on the Upper West Side of New York City and working as a translator for a bank who is the single mother of a ten-year-old daughter, Marie. The book would tell the story of a year in the life of this little family in relation to the unfolding story of the year, as winnowed from the pages of the New York Times, of which Gesine is a devoted if wary reader. These stories would in turn be overlaid by another-- Gesine is 34, born just as Hitler was coming to power, and she has decided to tell Marie the story of her grandparents' lives and of her own rural childhood in Nazi Germany. It is important that Marie know where and what she comes from. The days of the year are also anniversaries of years past. The world that was

and the world of the 1960s--with the struggle for civil rights leading to riots in American cities and, abroad, the escalating destruction of the Vietnam War--are, in the end, one world. *Anniversaries* was published in four volumes over the more than ten years that it took Johnson to write it, and as the volumes came out it became clear that this was one the great twentieth-century novels. The book courts comparison to Joyce's *Ulysses*, the book of a day, and to Proust's *In Search of Lost Time*, the book of a lifetime, but it stands apart in its dense polyphonic interplay of voices and stories. *Anniversaries* is many books--the book of a mother and daughter, of a family and its generations, of the country and the city, and of two times and two countries that seem farther apart perhaps than they are. It is a novel of private life, a political novel, and a new kind of historical novel, reckoning not only with past history but with history in the making. Monumental and intimate, sweeping in vision and full of incident, richly detailed and endlessly absorbing, *Anniversaries*, now for the first time available in English in a brilliant new translation by Damion Searls, is nothing short of a revelation.

Unformed Landscape Peter Stamm 2010-02-23 Unformed Landscape begins in a small village on a fjord in the Finnmark, on the northeastern coast of Norway, where the borders between Norway, Sweden, Finland, and Russia lie covered in snow and darkness, where the real borders are between day and night, summer and winter, and between people. Here, a sensitive young woman like Kathrine finds few outlets for her desires. Half Norwegian, half Sami (an indigenous people), Kathrine works for the customs office inspecting the fishing boats arriving regularly in the harbor. She is in her late 20s, has a son from an early marriage, and has drifted into a second loveless marriage to a man whose cold and dominating conventionality forms a bold stroke through the unformed landscape of her life. After she makes a discovery about her husband that deeply wounds her, Kathrine cuts loose from her moorings and her confusion and sets off in search of herself. Her journey begins aboard a ship headed south, taking her below the Arctic Circle for the first time in her life. Kathrine makes her way to France and has the bittersweet experience of a love affair that flares and dies quickly, her starved senses rewarded by the shimmering beauty of Paris. Through a series of poignant encounters, Kathrine is led to the richer life she was meant to have and is brave enough to claim. Using simple words strung together in a melodic alphabet, Peter Stamm introduces us, through a series of intimate sketches, to the heart of an unforgettable woman. Her story speaks eloquently about solitude, the fragility of love, lost illusions, and self-discovery. From the Trade Paperback edition.

Jordaens Zita Pataki 2012-06-01 16 essays by a group of internationally acclaimed authors help contribute to a clearer perception of the complex facets of Jacob Jordaens' oeuvre—and moreover to distinguish it from the works of Rubens, van Dyck, and his contemporaries. The title "Genius of Grand Scale" refers to the spectrum from history to genre as well as to Jordaens' preference for large formats. The greatness of the artist Jacob Jordaens needs to be emphasized, since even though he outlived Rubens for four whole decades, he was never able to escape from under his shadow. By reference to iconographic and iconological studies, single works are identified and presented in a broad review and the long, in many aspects fragmentary reception of his artistic work also forms a large part of the interpretations presented here. Furthermore, technical examinations of paintings assist in defining more precisely how they were generated. This overdue volume presents essential reading for anyone interested in Jacob Jordaens.

**The New Hedgehog Book** Pat Morris 2006 The first 'Hedgehogs' book was published in 1983, and was a bestseller. However, much has happened in the last 20 years, which is included here: a worrying decline in hedgehog numbers, the North Ronaldsay saga and the Uist problem. The book also critically evaluates designer hedgehog homes.

**Analyzing meaning** Paul R. Kroeger This book provides an introduction to the study of meaning in human language, from a linguistic perspective. It covers a fairly broad range of topics, including lexical semantics, compositional semantics, and pragmatics. The chapters are organized into six units: (1) Foundational concepts; (2) Word meanings; (3) Implicature (including indirect speech acts); (4) Compositional semantics; (5) Modals, conditionals, and causation; (6) Tense & aspect. Most of the chapters include exercises which can be used for class discussion and/or homework assignments, and each chapter contains references for additional reading on the topics covered. As the title indicates, this book is truly an INTRODUCTION: it provides a solid foundation which will prepare students to take more advanced and specialized courses in semantics and/or pragmatics. It is also intended as a reference for fieldworkers doing primary research on under-documented languages, to help them write grammatical descriptions that deal carefully and clearly with semantic issues. The approach adopted here is largely descriptive and non-formal (or, in some places, semi-formal), although some basic logical notation is introduced. The book is written at level which should be appropriate for advanced undergraduate or beginning graduate students. It presupposes some previous coursework in linguistics, but does not presuppose any background in formal logic or set theory.
