**Beton Rouge** Simone Buchholz 2018-12-21 On a warm September morning, an unconscious man is found in a cage at the entrance to the offices of one of the biggest German newspapers. Closer inspection shows he is a manager of the company, and that he's been tortured. Three days later, another manager appears in similar circumstances. Chastity Riley and her new colleague Ivo Stepanovic are tasked with uncovering the truth behind the attacks, an investigation that goes far beyond the revenge they first suspect, to the dubious past shared by both victims. Traveling to the south of Germany, they step into the elite world of boarding schools, where secrets are currency, and monsters are bred—monsters who will stop at nothing to protect themselves. A smart, dark, probing thriller, full of all the hard-boiled poetry and acerbic wit of the very best noir, *Beton Rouge* is both a classic whodunit and a scintillating expose of society, by one of the most exciting names in crime fiction.

TEXT + KRITIK 224 - Sven Regener Stefan Greif 2019-10-17 Als sein Romandebüt "Herr Lehmann" (2001) von der Kritik positiv besprochen wird, gehört Sven Regener (\*1961) schlagartig zu den literarischen Sensationen des Jahres. "Neue Vahr Süd" (2004) und "Der kleine Bruder" (2008) begründen schließlich Sven Regeners Ruf als Gegenwartsautor, der auf so amüsante wie tiefgründige Weise die deutsche Wiedervereinigung aufarbeitet und zugleich die These vom Ende der Popliteratur widerlegt. 2016 war Regener Brüder-Grimm-Professor an der Universität Kassel, ein Jahr später landete "Wiener Straße" auf der Longlist für den Deutschen Buchpreis. Über den Erfolg als Romancier hinaus prägt Sven Regener als Musiker, Sänger und Songtexter der Band "Element of Crime" sowie als Drehbuchautor und Hörbuch-Sprecher seit Jahrzehnten nachhaltig den Kulturbetrieb. Der Band erschließt all diese Facetten seines kunstübergreifenden Werks und ergänzt drei weitere Aspekte: die intermedialen Adaptionen seiner Texte, eine Nachzeichnung des Urheberrechtsstreits und Regeners bislang unveröffentlichte Poetik-Vorlesung zum Humor in der Literatur.

Berlin Blues Sven Regener 2012-06-30 It's 1989 and, whenever he isn't hanging out in the local bars, Herr Lehmann lives entirely free of responsibility in the bohemian Berlin district of Kreuzberg. Through years of judicious sidestepping and heroic indolence, this barman has successfully avoided the demands of parents, landlords, neighbours and women. But suddenly one unforeseen incident after another seems to threaten his idyllic and rather peaceable existence. He has an encounter with a decidedly unfriendly dog, his parents threaten to descend on Berlin from the provinces, and he meets a dangerously attractive woman who throws his emotional life into confusion. Berlin Blues is a richly entertaining evocation of life in the city and a classic of modern-day decadence.

**The Nothing** Hanif Kureishi 2017-05-02 One night, when I am old, sick, right out of semen, and don't need things to get any worse, I hear the noises growing louder. I am sure they are making love in Zenab's bedroom which is next to mine. Waldo, a fêted filmmaker, is confined by old age and ill health to his London apartment. Frail and frustrated, he is cared for by his lovely younger wife, Zee. But when he suspects that Zee is beginning an affair with Eddie, 'more than an acquaintance and less than a friend for over thirty years,' Waldo is pressed to action: determined to expose the couple, he sets himself first to prove his suspicions correct - and then to enact his revenge. Written with characteristic black humour and with an acute eye for detail, Kureishi's eagerly awaited novella will have his readers dazzled once again by a brilliant mind at work.

*Pigs* Wim Delvoye 1999 Perpetrator, prankster, artful butcher, tattoo artist -- Wim Delvoye wears many hats in this book documenting his art projects involving pigs. Delvoye, a Post-Pop Belgian artist, devotes one section of this book to photographs of his tattooed pigs, the other to his elaborate faux-marble floors made with slices of assorted cold cuts. Saving them from their slaughterhouse fate, he uses these pigs as examples of exemplary cleanliness, as living canvases on which he doesn't even paint himself -- he contracts professional tattoo artists to do so. Also included are his original tattoo drawings, his tattoo series made on pigskins, a selected biography and bibliography, photographs recording the tattooing process, and three essays that delve into Delvoye's provocative past and present work.

**Horizon Zero Dawn #2** Anne Toole 2020-09-02 A thousand years after a global cataclysm, Earth has been remade into a lush, thriving ecosystem, but with a new dominant species: the machines. These massive, animal-like robots fill the land, oceans, and skies, serving as the guardians and enforcers of the revived natural order. New generations of humans live on in pre-industrial tribes, without knowledge of the doomed civilization that preceded them, that of the "Old Ones" – us. A hero known to all tribes, Aloy has defended them against deadly machines, infamous cults, vengeful insurgents and dangers from the ancient past. She achieved her greatest triumph defeating the rogue A.I. HADES, who sought to end all life on Earth. With Hades vanquished Aloy disappeared, her purpose and destination shrouded in mystery. Talanah was born to a family of noble hunters in Meridian, capital to the most powerful of Horizon's tribes: the Carja. With Aloy's help, Talanah was able to earn the title of Sunhawk, much to the chagrin of elitist Lodge members. In return she helped Aloy defeat HADES' forces at Meridian. With her family's legacy restored, Talanah reformed the Lodge, opening its ranks to all tribes. Despite achieving her life's goal, however, restlessness began to gnaw at her heart. Dealing with Meridian's bureaucrats and the troublesome remnants of the old Hunters Lodge elites failed to give her comfort, so she set out into the wilds, hoping to quell her restlessness with a contract to hunt a fearsome new machine – a Clawstrider. But the hunt proved more than she'd bargained for. Now, after recovering from an injury thanks to the aid of a mysterious hunter named Amadis, Talanah must end the threat of this hunter-killer machine. But that's not her only problem. Kyran, a rogue Lodge member whom she denied the contract to, seeks its reward, unaware of the hunter-killer's presence. Talanah is one of the few who understands the extent of the danger posed by this new strain of machine, thanks to a run-in with a good friend...

*The Persecution of the Catholic Church in the Third Reich* Anonymous 2003 "Here are the writings and speeches of the Pope and the German hierarchy, the official decrees and instructions of the government, and the speeches and teachings of the [Nazi] Party. The cumulative weight of this testimony is sufficient to establish the German persecution as the worst, because it is the most efficient, of modern times." -- The Commonwealth (1941) "Complete and devastating . . . The facts are authentic and incontrovertible. The documents are likewise authentic and thoroughly substantiated. . . . To anyone who thinks there is no persecution of the Catholic Church in Germany, we recommend this volume." --America (1941) Originally published in 1941, this volume exists as a potent archive of the Catholic Church's early, vigorous resistance to the German National Socialist Party's brutal policies against religion. Included here is everything from brief speeches given even to small groups as early as 1933, expressing the church's grave concern over increasing governmental anti-Christian and anti-Catholic policies, to internal church documents. The book also includes Pope Pius XI's encyclical denouncing Nazism, the full text of the concordat between the Third Reich and Holy See, and sixteen editorial "cartoons" capturing the virulence and vulgarity of the Nazi anti-Catholic campaign. *The Persecution of the Catholic Church in the Third Reich* is an important documentation of this often-overlooked resistance movement.

*Self-Reference in the Media* Winfried Nöth 2007-01-01 This book investigates how the media have become self-referential or self-reflexive instead of mediating between the real or fictional worlds about which their messages pretend to be and between the audience that they wish to inform, counsel, or entertain. The concept of self-reference is viewed very broadly. Self-reflexivity, metatexts, metapictures, metamusic, metacommunication, as well as intertextual, and intermedial references are all conceived of as forms of self-reference, although to different degrees and levels. The contributions focus on the semiotic foundations of reference and self-reference, discuss the transdisciplinary context of self-reference in postmodern culture, and examine original studies from the worlds of print advertising, photography, film, television, computer games, media art, web art, and music. A wide range of different media products and topics are discussed including self-promotion on TV, the TV show Big Brother, the TV format "historytainment," media nostalgia, the documentation of documentation in documentary films,

Marilyn Monroe in photographs, humor and paradox in animated films, metacommunication in computer games, metapictures, metafiction, metamusic, body art, and net art.

Nick Cave Reinhard Kleist 2017-09-19 Musician, novelist, poet, actor: Nick Cave (b. 1957) is a Renaissance man. His wide-ranging artistic output--always uncompromising, hypnotic, and intense--is defined by an extraordinary gift for storytelling. In *Nick Cave: Mercy on Me*, Reinhard Kleist employs a cast of characters drawn from Cave's music and writing to tell the story of a formidable artist and influencer. Kleist paints an expressive and enthralling portrait of Cave's childhood in Australia; his early years fronting *The Birthday Party*; the sublime highs of his success with *The Bad Seeds*; and the crippling lows of his battle with heroin. Capturing everything from Cave's frenzied performances in Berlin to the tender moments he spent with love and muse Anita Lane, Kleist's graphic biography, like Cave's songs, is by turns electrifying, sentimental, morbid, and comic--but always engrossing.

**Great Principles of Computing** Peter J. Denning 2015-01-23 A new framework for understanding computing: a coherent set of principles spanning technologies, domains, algorithms, architectures, and designs. Computing is usually viewed as a technology field that advances at the breakneck speed of Moore's Law. If we turn away even for a moment, we might miss a game-changing technological breakthrough or an earthshaking theoretical development. This book takes a different perspective, presenting computing as a science governed by fundamental principles that span all technologies. Computer science is a science of information processes. We need a new language to describe the

science, and in this book Peter Denning and Craig Martell offer the great principles framework as just such a language. This is a book about the whole of computing—its algorithms, architectures, and designs. Denning and Martell divide the great principles of computing into six categories: communication, computation, coordination, recollection, evaluation, and design. They begin with an introduction to computing, its history, its many interactions with other fields, its domains of practice, and the structure of the great principles framework. They go on to examine the great principles in different areas: information, machines, programming, computation, memory, parallelism, queueing, and design. Finally, they apply the great principles to networking, the Internet in particular. Great Principles of Computing will be essential reading for professionals in science and engineering fields with a “computational” branch, for practitioners in computing who want overviews of less familiar areas of computer science, and for non-computer science majors who want an accessible entry way to the field.

**The Wild Horses of Sable Island** Roberto Dutesco 2014 Sable Island, a small island off the coast of eastern Canada, is the site of some 500 wild horses, 500 shipwrecks, and 500 years of known history. Never settled, the island, also known as the "Graveyard of the Atlantic," has seen temporary occupation by shipwrecked sailors, transported convicts, pirates, and wreckers. The wild horses, named for the island they inhabit, abandoned there long ago or cast ashore from wrecks, are now the only terrestrial mammals on Sable Island. Roberto Dutesco's twenty years' documentation of Sable Island comes to you as a stunning volume of photographs, an unprecedented collection of extraordinary moments in a place uninhabited by humans, where the wild horses run free, unaware and unafraid of man. Dutesco portrays the wild beauty of these horses as well as the barren and unspoiled quality of the island, creating an immersive photographic memoir that captures the soul and spirit. The Romanian-born Canadian photographer's aim is to document and record this enchanted place for posterity, for our children's children, as an important place in Earth's history, and more so in our current moment, when unique wild places are vanishing. It is Dutesco's life project, celebrating the beauty he encountered in a place forgotten by time, desire, and conquest--Sable Island.

*Neuroenology* Gordon M. Shepherd 2016-11-22 In his new book, Gordon M. Shepherd expands on the startling discovery that the brain creates the taste of wine. This approach to understanding wine's sensory experience draws on findings in neuroscience, biomechanics, human physiology, and traditional enology. Shepherd shows, just as he did in *Neurogastronomy: How the Brain Creates Flavor and Why It Matters*, that creating the taste of wine engages more of the brain than does any other human behavior. He clearly illustrates the scientific underpinnings of this process, along the way enhancing our enjoyment

of wine. Neuroenology is the first book on wine tasting by a neuroscientist. It begins with the movements of wine through the mouth and then consults recent research to explain the function of retronasal smell and its extraordinary power in creating wine taste. Shepherd comprehensively explains how the specific sensory pathways in the cerebral cortex create the memory of wine and how language is used to identify and imprint wine characteristics. Intended for a broad audience of readers—from amateur wine drinkers to sommeliers, from casual foodies to seasoned chefs—Neuroenology shows how the emotion of pleasure is the final judge of the wine experience. It includes practical tips for a scientifically informed wine tasting and closes with a delightful account of Shepherd's experience tasting classic Bordeaux vintages with French winemaker Jean-Claude Berrouet of the Chateau Petrus and Dominus Estate.

**American Realities** Joakim Eskildsen 2016-03-01 In 2010, more Americans lived below the poverty line than at any time since 1959, when the U.S. Census Bureau began collecting this data. In 2011, Kira Pollack, Director of Photography at TIME, commissioned photographer Joakim Eskildsen to capture the growing crisis, affecting nearly 46.2 million Americans. Based on census data, the places with the highest poverty rates were chosen when Eskildsen, together with journalist Natasha del Toro, traveled to New York, California, Louisiana, South Dakota and Georgia over seven months to document the lives of the people behind the statistics. The people Joakim Eskildsen has portrayed--people who struggle to make ends meet, who have lost their jobs or homes and often live in unhealthy conditions--usually remain invisible in the American society to which the myth of the American Dream is still very strong. Many of the people held there was no such dream anymore--merely the American Reality.
