Focus: Music, Nationalism, and the Making of the New Europe Philip V. Bohlman 2010-09-13 Two decades after the fall of communism in Eastern Europe and one decade into the twenty-first century, European music remains one of the most powerful forces for shaping nationalism. Using intensive fieldwork throughout Europe -- from participation in alpine foot pilgrimages to studies of the grandest music spectacle anywhere in the world, the Eurovision Song Contest -- Philip V. Bohlman reveals the ways in which music and nationalism intersect in the shaping of the New Europe. *Focus: Music, Nationalism, and the Making of the New Europe* begins with the emergence of the European nation-state in the Middle Ages and extends across long periods during which Europe's nations used music to compete for land and language, and to expand the colonial reach of Europe to the entire world. Bohlman contrasts the "national" and the "nationalist" in music, examining the ways in which their impact on society can be positive and negative -- beneficial for European cultural policy and dangerous in times when many European borders are more fragile than ever. The New Europe of the twenty-first century is more varied, more complex, and more politically volatile than ever, and its music resonates fully with these transformations.

Dialogues between Media Paul Ferstl 2021-01-18 Comparative Literature is changing fast with methodologies, topics, and research interests emerging and reemerging. The fifth volume of ICLA 2016 proceedings, *Dialogues between Media*, focuses on the current interest in inter-arts studies, as well as papers on comics studies, further testimony to the fact that comics have truly arrived in mainstream academic discourse. "Adaptation" is a key term for the studies presented in this volume; various articles discuss the adaptation of literary source texts in different target media - cinematic versions, comics adaptations, TV series, theatre, and opera. Essays on the interplay of media beyond adaptation further show many of the strands that are woven into dialogues between media, and thus the expanding range of comparative literature.

Demonic History Kirk Wetters 2015-03-20 In this ambitious book, Kirk Wetters traces the genealogy of the demonic in German literature from its imbrications in Goethe to its varying legacies in the work of essential authors, both canonical and less well known, such as Gundolf, Spengler, Benjamin, Lukács, and Doderer. Wetters focuses especially on the philological and metaphorological resonances of the demonic from its core formations through its appropriations in the tumultuous twentieth century. Propelled by equal parts theoretical and historical acumen, Wetters explores the ways in which the question of the demonic has been employed to multiple theoretical, literary, and historico-political ends. He thereby produces an intellectual history that will be consequential both to scholars of German literature and to comparatists.

Divided Souls Elisheva Carlebach 2008-10-01 divThis pioneering book reevaluates the place of converts from Judaism in the narrative of Jewish history. Long considered beyond the pale of Jewish historiography, converts played a central role in shaping both noxious and positive images of Jews and Judaism for Christian readers. Focusing on German Jews who converted to Christianity in the sixteenth through mid-eighteenth centuries, Elisheva Carlebach explores an extensive and previously unexamined trove of their memoirs and other writings. These fascinating original sources illuminate the Jewish communities that the converts left, the Christian society they entered, and the unabating tensions between the two worlds in early modern German history. The book begins with the medieval images of converts from Judaism and traces the hurdles to social acceptance that they encountered in Germany through early modern times. Carlebach examines the converts' complicated search for community, a quest that was to characterize much of Jewish modernity, and she concludes with a consideration of the converts' painful legacies to the Jewish experience in German lands. "Carlebach's reading of autobiographical texts by converts from Judaism is careful, intelligent, and skeptical--a model of how to treat spiritual memoirs."--Todd M. Endelman, University of Michigan "This superb book highlights the ambiguous identities of these boundary crossers and their impact on both German and Jewish self-definitions."--Paula E. Hyman, Yale University Elisheva Carlebach is professor of history at Queens College and the Graduate Center, City University of New York. She is the author of *The Pursuit of Heresy: Rabbi Moses Hagiz and the Sabbatian Controversies*, winner of the National Jewish Book Award for Jewish History, and coeditor of *Jewish History and Jewish Memory*. /DIV
