Civilising Globalisation David Kinley 2009-08-13 Economic globalisation and universal human rights both have the aspiration and power to improve and enrich individuals and communities. However, their respective institutions, methods, practices and goals differ, leading to both detrimental clashes and beneficial synergies. In this book, David Kinley analyses how human rights intersect with the trade, aid and commercial dimensions of global economic relations, taking the view that, while the global economy is a vitally important civilising instrument, it itself requires civilising according to human rights standards. Combining meticulous research with highly informed views and experiences, he outlines the intellectual, policy and practical frameworks for ensuring that the global economy advances the ends of human rights, argues for better exploitation of the global economy's capacity to distribute as well as create wealth, and proposes mechanisms by which to minimise and manage the socially debilitating effects of its market failures and financial meltdowns.

The ABCs of Human Survival Arthur Clark 2010 The ABCs of Human Survival examines the effect of militant nationalism and the lawlessness of powerful states on the well-being of individuals, local communities, and global citizenship. Based on the analysis of world events, Dr. Arthur Clark presents militant nationalism as a pathological pattern of thinking that threatens our security, while emphasizing effective democracy and international law as indispensable frameworks for human protection. Within the contexts of history, sociology, philosophy, and spirituality, The ABCs of Human Survival calls into question the assumptions of consumer culture and offers, as an alternative, strategies to improve overall well-being through the important choices we make as individuals.

Military Interference With the Election in Delaware, November 4, 1862 Christopher Slavens 2020-11-27 Originally published by order of the Delaware General Assembly in 1863, Military Interference With the Election in Delaware, November 4, 1862 contains testimonies from

nearly one hundred and thirty citizens about Republicans' use of federal troops to disarm volunteer militia companies and harass, assault, arrest, imprison, and disenfranchise Democratic voters. There are also dissenting voices who maintain that Southern-sympathizing Democrats planned to suppress the Republican or Union vote, and had to be restrained by force. The joint committee appointed by the General Assembly to investigate the controversy concluded that Republican politicians orchestrated a military invasion of Delaware "to defeat the fair expression of the popular will at the polls by the potent influence of Federal bayonets." The first edition of the committee's report and journal was never reprinted, and is one of the rarest books about Delaware history. This new edition, transcribed and edited by Christopher Slavens, will enable readers to read the hundreds of pages of testimonies about the events of 1862 for themselves, and make up their own minds about what happened, and why.

Study in Pavilions and Safe Rooms Paul Foster Johnson 2011 Poetry. STUDY IN PAVILIONS AND SAFE ROOMS is an exploration of public and private space at their extremes. Borrowing titles from state-planned exhibition halls and panic rooms built for riding out the approaching apocalypse, these poems stage collisions of aesthetics, politics, and history in artificial environments. These poems are phenomenological investigations gone awry under the sway of unruly and contradictory forces. "Smart, elusive, like Debussy's Nuages, crossed with Ashbery's Three Poems—a stately Happening, where Stockhausen drops by to dish. Paul Foster Johnson uses syntax as a friend, a chaperone, a punching bag: it keeps him—and his happy reader—in a sequestered, cozy space of detente and narcosis. Reading these taut, architectural poems, I feel like I'm figure-skating on Bauhaus ice; thus Johnson gives us a sexually ambiguous, cerebral map of how to write a poem today"—Wayne Koestenbaum.

World War III James Strait 2014-02-24 It had been over seven decades since the world had been officially at war. But 2017 was that modern moment where the forces of good, would again need to ally themselves to combat the forces of evil. And so it was, the United States and her Allies would do battle with the nation of North Korea. But this time, there was a twist. While the battlefields on the Korean peninsula were filled with the sights and sounds of modern militaries going toe-to-toe, much of the war was taking place on America's streets.

Desert Climates Cath Senker 2017-04-06 The climate in a region affects all aspects of life. This book looks at desert climates. It explores the characteristics of the land and weather in regions with desert climates, and how plants, animals and people have adapted to life in deserts. The effects of climate change and other developments are also covered.

Making Universal Service Policy Barbara A. Cherry 1999-08 This book is the outgrowth of shared interests between the editors and the contributing authors to provide a multidisciplinary perspective in evaluating universal service policy and recommending policy changes to accommodate a more competitive telecommunications environment. The book is interdisciplinary in nature to reflect the extremely complex context in which universal service policy is formed. The chapter authors represent a broad cross-section of disciplinary training, professional positions, and relationships in the telecommunications industry. Academic disciplines represented include law, economics, anthropology, communication, and business. This book's purpose is to significantly enhance the development of effective telecommunications universal service policy among policymakers, industry members, and stakeholders in the United States. Universal service policy has been, and will continue to be, both enabled and constrained by the simultaneous interaction of social, political, technological, and economic forces in the environment in which it is formed. A more effective process for policy design is to seek agreement on how entitlements embedded in universal service policy should be modified as circumstances invariably change over time. Therefore, the volume reflects recent significant developments in U.S. universal service policy--the implementation of which continues to unfold.

The Most Beautiful Girl Tamara Saviano 2013 "The Most Beautiful Girl is a heartbreaking yet uplifting memoir of a daughter, her father, and the healing power of music. The story opens with a scene at Johnny Cash's funeral when author Tamara Saviano is struck with grief about unfinished business with her father. Her sorrow leads the author on a journey to rediscover her father and examine the lost relationship with a man she once loved. Through an unstable childhood, a turbulent young adulthood and finally on a path to freedom, Saviano lays bare the complexity of family ties both those that bind and those that break. She weaves a tale that proves music can provide a lasting connection long after human relationships have unraveled. Founded in a mid-century coming-of-age tale, *The Most Beautiful Girl* represents a true American remembrance of childhood anguish, lost identity and happy endings."-- From back cover.
