Unpleasant, annoying, and delusional, the Susan is somebody who is literally awful in every way, is liked by no one, but has no clue, no matter how many open clues you give her. **The Dark Fantastic** Ebony Elizabeth Thomas 2020-09-22 Reveals the diversity crisis in children's and young adult media as not only a lack of representation, but a lack of imagination. Stories provide portals into other worlds, both real and imagined. The promise of escape draws people from all backgrounds to speculative fiction, but when people of color seek passageways into the fantastic, the doors are often barred. This problem lies not only with children's publishing, but also with the television and film executives tasked with adapting these stories into a visual world. When characters of color do appear, they are often marginalized or subjected to violence, reinforcing for audiences that not all lives matter. *The Dark Fantastic* is an engaging and provocative exploration of race in popular youth and young adult speculative fiction. Grounded in her experiences as YA novelist, fanfiction writer, and scholar of education, Thomas considers four black girl protagonists from some of the most popular stories of the early 21st century: Bonnie Bennett from the CW's *The Vampire Diaries*, Rue from Suzanne Collins's *The Hunger Games*, Gwen from the BBC's *Merlin*, and Angelina Johnson from J.K. Rowling's *Harry Potter*. Analyzing their narratives and audience reactions to them reveals how these characters mirror the violence against black and brown people in our own world. In response, Thomas uncovers and builds upon a tradition of fantasy and radical imagination in Black feminism and Afrofuturism to reveal new possibilities. Through fanfiction and other modes of counter-storytelling, young people of color have reinvisioned fantastic worlds that reflect their own experiences, their own lives. As Thomas powerfully asserts, "we dark girls deserve more, because we are more."

No One Ever Asked Katie Ganshert 2018-04-03 Challenging perceptions of discrimination and prejudice, this emotionally resonant drama for readers of Lisa Wingate and Jodi Picoult explores three different women navigating challenges in a changing school district—and in their lives. WINNER OF THE CHRISTY AWARD® When an impoverished school district loses its accreditation and the affluent community of Crystal Ridge has no choice but to open their school doors, the lives of three very different women converge: Camille Gray—the wife

of an executive, mother of three, long-standing PTA chairwoman and champion fundraiser--faced with a shocking discovery that threatens to tear her picture-perfect world apart at the seams. Jen Covington, the career nurse whose long, painful journey to motherhood finally resulted in adoption but she is struggling with a happily-ever-after so much harder than she anticipated. Twenty-two-year-old Anaya Jones--the first woman in her family to graduate college and a brand new teacher at Crystal Ridge's top elementary school, unprepared for the powder-keg situation she's stepped into. Tensions rise within and without, culminating in an unforeseen event that impacts them all. This story explores the implicit biases impacting American society, and asks the ultimate question: What does it mean to be human? Why are we so quick to put labels on each other and categorize people as "this" or "that", when such complexity exists in each person?

*Small Screen, Big Feels* Melissa Ames 2020-12-02 While television has always played a role in recording and curating history, shaping cultural memory, and influencing public sentiment, the changing nature of the medium in the post-network era finds viewers experiencing and participating in this process in new ways. They skim through commercials, live tweet press conferences and award shows, and tune into reality shows to escape reality. This new era, defined by the heightened anxiety and fear ushered in by 9/11, has been documented by our media consumption, production, and reaction. In *Small Screen, Big Feels*, Melissa Ames asserts that TV has been instrumental in cultivating a shared memory of emotionally charged events unfolding in the United States since September 11, 2001. She analyzes specific shows and genres to illustrate the ways in which cultural fears are embedded into our entertainment in series such as *The Walking Dead* and *Lost* or critiqued through programs like *The Daily Show*. In the final section of the book, Ames provides three audience studies that showcase how viewers consume and circulate emotions in the post-network era: analyses of live tweets from Shonda Rhimes's drama, *How to Get Away with Murder* (2010-2020), ABC's reality franchises, *The Bachelor* (2002-present) and *The Bachelorette* (2003-present), and political coverage of the 2016 Presidential Debates. Though film has been closely studied through the lens of affect theory, little research has been done to apply the same methods to television. Engaging an impressively wide range of texts, genres, media, and formats, Ames offers a trenchant analysis of how televisual programming in the United States responded to and reinforced a cultural climate grounded in fear and anxiety.

*Homo Ecophagus* Warren M. Hern 2022-09-30 *Homo Ecophagus* by Warren M. Hern is a wide-ranging look at the major problems for the survival of not just the human species, but all other species on Earth due to human activities over the past

tens of thousands of years. The title of the book indicates Hern's new name for the human species: "The man who devours the ecosystem." Over the course of its evolution, Hern observes, humans have evolved cultures and adaptations that have now become malignant and that the human species, at the global level, has all the major characteristics of a malignant neoplasm — converting all plant, animal, organic, and inorganic material into human biomass or its adaptive adjuncts and support systems. Hern contends that this process is incompatible with continued survival of the human species and most other species on the planet, offering a diagnosis and prognosis of the current environmental impasse.

A holistic approach to health includes nutrition, as it sets up the foundation for your pet's health. **Encyclopedia of Television Miniseries, 1936–2020** Vincent Terrace 2021-10-11 In 1936, as television networks CBS, DuMont, and NBC experimented with new ways to provide entertainment, NBC deviated from the traditional method of single experimental programs to broadcast the first multi-part program, *Love Nest*, over a three-episode arc. This would come to be known as a miniseries. Although the term was not coined until 1954, several other such miniseries were broadcast, including *Jack and the Beanstalk* and *Women in Wartime*. In the mid-1960s the concept was developed into a genre that still exists. While the major broadcast networks pioneered the idea, it quickly became popular with cable and streaming services. *The Netflix Vision of Horror* Sotiris Petridis 2021-06-21 Since the emergence of on-demand streaming platforms, television as a storytelling medium has drastically changed. The lines between TV and cinema are blurred. Traditionally, television relied on narrative forms and genres that were highly formulaic, striving to tease the viewer onward with a series of cliffhangers while still maintaining viewer comprehension. Now, on platforms such as Netflix, the lack of commercial breaks and the practice of "binge-watching"

have led to a new type of television flow that urges viewers to see and consume a series as a whole and not as a fragmented narrative. This book examines the structuring methods of 13 Netflix original horror series, including Chilling Adventures of Sabrina, Stranger Things, Hemlock Grove, The Haunting of Hill House, and Santa Clarita Diet. Although these shows use television as the medium of storytelling, they are structured according to the classical rules of film.

If that's true, then the moment he sat next to me, we were bound together forever. He just had to figure it out before it's too late...
