Alone Cyn Balog 2017-11-07 This must-read for lovers of Stephen King's *The Shining* will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

The Challenge of Politics Neal Riemer 2015-12-17 *The Challenge of Politics* introduces students to the fundamental questions of political science. With a distinctive normative approach that portrays politics as a potentially humanizing enterprise, authors Neal Riemer, Douglas W. Simon and Joseph Romance equip readers to recognize major forms of government, evaluate research findings, and understand how policy issues directly affect people's lives. This comprehensive text balances classic and contemporary political theory with current events and empirical study. The Fifth Edition is fully revised to reflect recent national and international developments, including a new chapter on American Politics and Government.

Nancy Caroline's Emergency Care in the Streets American Academy of Orthopaedic Surgeons (AAOS), 2010-02-05 Think back to a time when paramedics didn't exist. When "drivers" simply brought injured patients to the hospital. When the EMS industry was in its infancy. A time before Nancy Caroline. Dr. Caroline's work transformed EMS and the entire paramedic field. She created the first national standard curriculum for paramedic training in the United States. She also wrote the first paramedic textbook: *Emergency Care in the Streets*. The impact that Dr. Caroline had on EMS and health care spanned across the U.S. and abroad. From establishing EMS systems to training

paramedics, to providing better nourishment and health care for orphans, her work had a profound impact on humanity. Throughout her life, Dr. Caroline brought a sense of excitement, joy, and humor to her work. The American Academy of Orthopaedic Surgeons is proud to continue Dr. Caroline's legacy. Her sense of excitement and humor live on in this text, which is dedicated to her. The Sixth Edition honors Dr. Caroline's work with a clear, fun, understandable writing style for which she was known. Welcome back a familiar training companion to your classroom! Say hello to Sidney Sinus, AV Abe, and a cast of memorable characters and amusing anecdotes. Make learning for your students more fun!

3D Fire Fighting Paul Grimwood 2005-01-01 Proposes changes in the way firefighters gain entry, advance hose-lines and approach compartment (room and space) fires within the confinement of a burning building. Discusses issues such as tactical venting of structures and alternative means of alleviating worsening conditions. Encourages a risk-based approach to interior size-up where the concept of personal risk versus gain must be seriously considered. Cf. P. 47.

Brannigan's Building Construction for the Fire Service Francis Brannigan 2010-02-22 Brannigan's Building Construction for the Fire Service, Fourth Edition is a must read for fire fighters, prospective fire fighters, and fire science students. This edition continues the Brannigan tradition of using plain language to describe technical information about different building types and their unique hazards. This text ensures that critical fire fighting information is easy-to-understand and gives valuable experience to fire fighters before stepping onto the fireground. The first edition of Building Construction for the Fire Service was published in 1971. Frank Brannigan was compelled to write the most comprehensive building construction text for the fire service so that he could save fire fighters' lives. His passion for detail and extensive practical experience helped him to develop the most popular text on the market. His motto of: "Know your buildings," informs every aspect of this new edition of the text. Listen to a Podcast with Brannigan's Building Construction for the Fire Service, Fourth Edition co-author Glenn Corbett to learn more about this training program! Glenn discusses his relationship with the late Frank Brannigan, the dangers of heavy construction timber, occupancy specific hazards, and other areas of emphasis within the Fourth Edition. Fire and Emergency Services Company Officer IFSTA 2014-11-14 This new IFSTA manual details the training required of Company Officers according to NFPA® 1021, Standard for Fire Officer Professional Qualifications, 2014 Edition. The manual is divided into two sections to make a clear distinction between the information needed for Fire Officer Level I and Fire Officer Level II. Both print and eBook formats are available. There is no shortage of issues that a company officer might face in the everyday operation of a fire company or unit. This manual addresses the wide range of topics and issues encountered by a company officer, from leadership and supervision to health and safety issues. Great attention was given to focus on the job performance requirements of NFPA® 1021. The fifth edition of Fire and Emergency Services Company Officer builds on the previous edition of the manual while

presenting the material in a more concise manner to make it easier for students to read and instructors to teach. By merging related topics, the number of chapters was reduced from 32 in the fourth edition to 17 in the new manual while preserving the material related to the NFPA® standard. The number of appendices was reduced from 20 to 4 by removing information that can be found in other media. Along with reducing the volume of material from the fourth edition, the fifth edition of Fire and Emergency Services Company Officer offers several new features. The manual features a new look with IFSTA's single-column format and upgraded and updated curriculum components. Learning activities are included to help instructors present the material to their students. Case Histories open each chapter to illustrate important lessons learned in the real world. Photographs, illustrations, and tables are included throughout the manual to illustrate key points and improve the overall instructional value of the material.

Restavec Jean-Robert Cadet 2009-09-15 This inspiring memoir recounts a man's harrowing journey from unpaid child labor in Haiti to a successful life in the United States. African slaves in Haiti emancipated themselves from French rule in 1804 and created the first independent black republic in the Western Hemisphere. But they reinstated slavery for the most vulnerable members of Haitian society—the children of the poor—by using them as unpaid servants to the wealthy. These children were—and still are—restavecs, a French term whose literal meaning of "staying with" disguises the unremitting labor, abuse, and denial of education that characterizes the children's lives. In this memoir, Jean-Robert Cadet recounts the harrowing story of his youth as a restavec, as well as his inspiring climb to middle-class American life. He vividly describes what it was like to be an unwanted illegitimate child "staying with" a well-to-do family whose physical and emotional abuse was sanctioned by Haitian society. He also details his subsequent life in the United States, where, despite American racism, he put himself through college and found success in the Army, in business, and finally in teaching.
