On the Bodily Education of Young Girls Frank Wedekind 2010 'Mine-Haha is a fairy tale that morphs into something far more grotesque-a psycho-sexual Expressionist fable. It's so perversely erotic and freaky and anti-society, and that's probably why it's never been translated into English until now. This new version by Philip Ward is long overdue and very welcome.' Refugee Tales Ali Smith 2016-05-31 Two unaccompanied children travel across the Mediterranean in an overcrowded boat that has been designed to only make it halfway across... A 63-year-old man is woken one morning by border officers 'acting on a tip-off' and, despite having paid taxes for 28 years, is suddenly cast into the detention system with no obvious means of escape... An orphan whose entire life has been spent in slavery – first on a Ghanaian farm, then as a victim of trafficking – writes to the Home Office for help, only to be rewarded with a jail sentence and indefinite detention... These are not fictions. Nor are they testimonies from some distant, brutal past, but the frighteningly common experiences of Europe's new underclass – its refugees. While those with 'citizenship' enjoy basic human rights (like the right not to be detained without charge for more than 14 days), people seeking asylum can be suspended for years in Kafka-esque uncertainty. Here, poets and novelists retell the stories of individuals who have direct experience of Britain's policy of indefinite immigration detention. Presenting their accounts anonymously, as modern day counterparts to the pilgrims' stories in Chaucer's Canterbury Tales, this book offers rare, intimate glimpses into otherwise untold suffering.

The Heaven of Animals David James Poissant 2014-03-11 Collects stories that explore the tenuous bonds of family as they are tested by the sometimes brutal power of love and where characters are chased by troubles of their own making.

Alien Terrestrial Arthropods of Europe Alain Roques 2010 This book provides the first comprehensive review of the fauna of alien terrestrial arthropods that have colonized the European continent and its associated islands. Directly ensuing from the DAISIE project, this is the result of the joint work of 89 authors from 27 different European countries. The book summarizes present knowledge of the arthropod invasion process, from temporal trends and biogeographic patterns, to pathways and vectors, invaded habitats, and ecological and economical impacts. A total of 1590 species alien to Europe, including crustaceans, myriapods, mites, spiders, and insects, are listed in two volumes and 21 separate chapters that detail the different taxonomic groups. For each species, all key information - feeding regime, date and country of first record in Europe, invaded countries, invaded habitats, plant or animal host - is supplied. More detailed factsheets are provided for the 80 species considered to be most representative of the different pathways of introduction and of the diversity of impacts on ecosystems, economic activities and human and animal health.

Using Italian J. J. Kinder 2004-07 This 2002 book is a guide to Italian usage for students who have already acquired the basics of the language and wish to extend their knowledge. Careful consideration is given throughout to questions of style, register, and politeness which are essential to achieving an appropriate level of formality or informality in writing and speech. It surveys the contemporary linguistic scene in Italy and gives ample space to the new varieties of Italian that are emerging in modern Italy. The influence of the dialects in shaping the development of Italian is also acknowledged. Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Italian language.

reading more novels by Sara Alexander.” –Holly Chamberlin, author of *Home for the Summer Set* against the beautiful backdrop of post-World War II Sardinia, Sara Alexander’s evocative novel is a sweeping story of star-crossed romance between an American lieutenant and a local girl. Sometimes a family’s deepest silences hide the most important secrets. For Mina, a London-based travel writer, the enigmatic silence surrounding her aunt Carmela has become a personal obsession. Carmela disappeared from her Italian hometown long ago and is mentioned only in fragments and whispers. Mina has resisted prying, respectful of her family’s Sardinian reserve. But now, with her mother battling cancer, it’s time to learn the truth. In 1952, Simius is a busy Sardinian town surrounded by fertile farms and orchards. Carmela Chirigoni, a farmer’s daughter and talented seamstress, is engaged to Franco, son of the area’s wealthiest family. Everyone agrees it’s a good match. But Carmela’s growing doubts about Franco’s possessiveness are magnified when she meets Captain Joe Kavanagh. Joe, an American officer stationed at a local army base, is charismatic, intelligent, and married. Hired as his interpreter, Carmela resolves to ignore her feelings, knowing that any future together must bring upheaval and heartache to both families. As Mina follows the threads of Carmela’s life to uncover her fate, she will discover a past still deeply alive in the present, revealing a story of hope, sacrifice, and extraordinary love. “Like Sardinia’s Emerald Coast, Sara Alexander’s *Under A Sardinian Sky* will dazzle you with its glittering descriptions of the Mediterranean island, its exquisite culinary treasures, and authentic, beautiful people. But it is the heroine Carmela’s courage and heartbreaking choices that will leave you the most enchanted and racing through the novel to learn her extraordinary fate.” –Rosanna Chiofalo, author of *Rosalia’s Bittersweet Pastry Shop*

Obesity, Inflammation and Cancer Andrew J. Dannenberg 2013-05-21 In addition to its metabolic and endocrinologic effects, obesity and adipose tissue have now been shown to be associated with low grade inflammation resulting in cellular and humoral inflammatory factors of which the latter may act by endocrine, paracrine and autocrine mechanisms. These inflammatory mediators have increasingly been suggested as contributing to the obesity link to carcinogenesis and cancer promotion. This volume of *Energy Balance and Cancer* will focus on recent developments and cutting edge research pointing to inflammation and inflammatory factors as key mediators of this linkage. The volume first provides information on inflammation as an important link between obesity and insulin resistance, which is in itself linked to promotion of cancer through hyperinsulinemia. The volume then covers some of the most important mechanisms by which obesity leads to inflammation, including the novel inflammasome concept, alterations in chromatin structure, circulating inflammatory factors, unique cellular interactions between adipocytes and macrophages and the direct link of dietary fat to inflammation and cancer. Overall, this volume will provide important insight to help understand how inflammation may help modulate the linkage between obesity and cancer and serve as a platform for developing future research in this area.

Mossy Trotter Elizabeth Taylor 2015-04-02 'It's always a treat to read Elizabeth Taylor. Mossy Trotter is a real gem. A delightfully mischievous boy living in those long-ago halcyon days when children played out all day, roaming commons, scavenging on rubbish tips and stamping in newly-laid tar' JACQUELINE WILSON 'We - that is, Herbert and I - want you, Mossy, to be our page-boy,' Miss Silkin said, staring hard at Mossy again, as if she were trying to imagine him dressed up, and with his hair combed. Mossy went very red, and nearly choked on a piece of cake, and Selwyn laughed, and went on laughing, as if he had just heard the funniest joke of all his life. They both knew what being a page-boy meant. One of the boys at school - one of the very youngest ones - had had to be one, wearing velvet trousers and a frilled blouse.' When Mossy moves to the country, life is full of delights - trees to climb, woods to explore and, best of all, the marvellous dump to rummage through. But every now and then his happiness is disturbed - chiefly by his mother's meddling friend, Miss Silkin. And a dreaded event casts a shadow over even the sunniest of days - being a page-boy at her wedding. In her only children's book, Elizabeth Taylor perfectly captures the temptations, confusion and terrors of a mischievous boy, and just how illogical, frustrating and inconsistent adults are!

Selected Diaries Virginia Woolf 2008 Virginia Woolf turned to her diary as to an intimate friend, to whom she could freely and spontaneously confide her thoughts on public events or the joys and trials of domestic life. Between 1st January 1915 and her death in 1941 she regularly recorded her thoughts with unflinching grace, courage, honesty and wit. The result is one of the greatest diaries in the English language.

Adipocytokines, Energy Balance, and Cancer Ofer Reizes 2018-06-27

Adipocytokines provide the circuitry by which adipose tissue communicates among its component cells which include adipocytes, stromal cells, immune cells and vascular elements, with adipose tissue depots in other locations throughout the body and with other tissues in order to regulate physiologic processes of energy intake, utilization, and distribution. Since disturbances, both qualitative and quantitative, in adipocytokine function contribute significantly to many of the comorbidities associated with obesity, including diabetes, cardiovascular disease and cancer, this volume, which discusses most of the major adipocytokines independently and collectively and their roles in normal and pathologic processes, should be useful to all individuals seeking a deeper understanding of these processes. Moreover, it provides a valuable complement to the series on Energy Balance and Cancer, in which each volume is focused on a specific aspect of this process, which now constitutes an expanding problem as the obesity pandemic continues and more of the population reaches the age where cancer is most prevalent. This volume should provide a

valuable resource to all clinicians and scientists engaged in caring for susceptible patients and in exploring the relation between energy balance and cancer as well as an important platform to providing the background for research development.

One More Ride on the Merry-Go-Round Tiziano Terzani 2016-07-10 When he is diagnosed with cancer, in the silence of the hospital room broken only by the swish of cars outside, Italian writer Tiziano Terzani realizes that his whole life has been one long ride on a merry-go-round where he has always journeyed without a ticket. Now, for the first time, the ticket collector has come to demand his dues. At first, Terzani turns to Western medicine for a cure, but a question soon begins to haunt him: is cancer, as the doctors say, an enemy that needs to be destroyed, or is it a friend one can talk to? Travelling had always been a way of life for him, so he decides to make another trip, in search of a solution - to India. This final ride turns out to be very different though. And more difficult. Because every step, every choice - often between reason and faith, between science and magic - is inextricably linked to his own survival. As he crisscrosses the country from an ashram in Coimbatore to a hut in Almora, the external journey in search of a cure transforms into an inner journey and a return to the divine roots of man. Then, one day, as he looks at the sun rising over the mountains, he stumbles upon the one truth that has eluded him: death is as desirable and eternal as life itself. A bestseller in Europe, this is a book about modern medicine and alternative cures, and the quest to understand the true meaning of mortality.

Asylums Erving Goffman 2017-09-08 A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue - the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and

comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.
