Compendium Instar Indicis in Hippocratis Coi Opera Omnia Pietro Matteo Pini 1597

The Trotula Monica H. Green 2001-03-19 The Trotula was the most influential compendium on women's medicine in medieval Europe. Scholarly debate has long focused on the traditional attribution of the work to the mysterious Trotula, said to have been the first female professor of medicine in eleventh- or twelfth-century Salerno, just south of Naples, then the leading center of medical learning in Europe. Yet as Monica H. Green reveals in her introduction to this first edition of the Latin text since the sixteenth century, and the first English translation of the book ever based upon a medieval form of the text, the Trotula is not a single treatise but an ensemble of three independent works, each by a different author. To varying degrees, these three works reflect the synthesis of indigenous practices of southern Italians with the new theories, practices, and medicinal substances coming out of the Arabic world. Arguing that these texts can be understood only within the intellectual and social context that produced them, Green analyzes them against the background of historical gynecological literature as well as current knowledge about women's lives in twelfth-century southern Italy. She examines the history and composition of the three works and introduces the reader to the medical culture of medieval Salerno from which they emerged. Among her findings is that the second of the three texts, "On the Treatments for Women," does derive from the work of a Salernitan woman healer named Trota. However, the other two texts—"On the Conditions of Women" and "On Women's Cosmetics"—are probably of male authorship, a fact indicating

the complex gender relations surrounding the production and use of knowledge about the female body. Through an exhaustive study of the extant manuscripts of the Trotula, Green presents a critical edition of the so-called standardized Trotula ensemble, a composite form of the texts that was produced in the mid-thirteenth century and circulated widely in learned circles. The facing-page complete English translation makes the work accessible to a broad audience of readers interested in medieval history, women's studies, and premodern systems of medical thought and practice.

Allegretto con spirito Ida Tonini 2019-09-19T00:00:00+02:00 Bere è un'esperienza gradevole ma molto seria, da vivere con la massima diligenza. Questo libro presenta una breve storia del gin, lo spirito eletto per i cocktail gin&tonic e martini, alla scoperta tramite le incursioni più disparate nella storia, nei viaggi, nelle letture e nel cinema delle sue innumerevoli proprietà. Miscele perfette e sempre perfetibili, terapeutiche per il corpo e per l'anima, capaci di creare atmosfere per confessare segreti, firmare trattati di pace, conquistare o lasciarsi con stile, divertirsi insieme o meditare in silenzio. E se non si è in grado di cogliere la differenza tra il saper bere e lubrificarsi meglio lasciar perdere e accontentarsi di uno spritz all'aperol.

La flora del territorio di Canna Antonio Maffei 2022-06-08 Canna, grazioso borgo dell'alto Jonio cosentino, adagiato su una collina e circondato da olivi secolari, "trùf" in dialetto cannese. Il suo territorio, ricco di vegetazione spontanea dove predomina la macchia mediterranea, custodisce rarità botaniche, quali l'olivo bianco, orchidee selvatiche e il "finucchiù" i cui preziosi semi regalano sapori e profumi a specialità locali come "taràll" e "cullùr". 400 pagine, 451 immagini e 274 specie classificate che offrono una panoramica molto rappresentativa della flora di questo territorio, importante patrimonio di biodiversità. La trattazione è arricchita da curiosità, cenni storici e approfondimenti.

The Babylonian Astronomical Compendium MUL.APIN Hermann Hunger 2018-07-11 MUL.APIN, written sometime before the 8th century BC, was the most widely copied astronomical text in ancient Mesopotamia: a compendium including information such as star lists, descriptions of planetary phases, mathematical schemes for the length of day and night, a discussion of the luni-solar calendar and rules for intercalation, and a short collection of celestial omens. This book contains an introductory essay, followed by a new edition of the text and a facing-page transliteration and English translation. Finally, the book contains a new and detailed commentary on the text. This is a fascinating study, and an important resource for anyone interested in the history of astronomy.

Gin Davide Terziotti 2017-07-06 With everything from the top brands to the best recipes, this is the gin lover's perfect guide! Gin is the main ingredient in some of today's trendiest cocktails. This volume is entirely dedicated to the popular liquor--its history, its production, its various flavorings. Davide Terziotti, an expert in the field, provides profiles of 30 main brands, outlining their characteristics, aromas, and main botanicals. For each, he provides an ideal recipe, and the final section offers a selection of classic and innovative cocktails, with instructions on their preparation. Throughout, Fabio Petroni's splendid still lifes illustrate the masterly text.

Compendium of the World's Languages: Ladakhi to Zuni Sir George Campbell, BSc 2000 Many languages, particularly those which have achieved literary status, have been studied in great detail, and specialized descriptions of these are plentiful. What has not been so readily available, however, is a general survey covering a wide spectrum of the world's languages on a comparative basis. It is this kind of comparative cross-section of languages, ranging from the familiar and well-documented to the relatively obscure, that the Compendium of the World's Languages presents.
