The Unexpected Tale of Bastien Bonlivre Clare Povey 2021-09-02 The open door felt like an invitation, or a trap. Bastien wasn't sure which, but with no other choice, he stepped inside...and hoped he'd make it out again alive. Bastien Bonlivre is a boy with a big imagination, determined to finish the story his parents started, left to him in a red notebook. On the other side of Paris, bestselling author Olivier Odieux is struggling to complete his latest novel. Along with his villainous brothers, he is masterminding his greatest plot yet...one that will spread fear throughout the city and beyond. What connects these two stories is a dangerous secret, a hidden mystery and an unexpected race across Paris for the truth. Can Bastien and his friends Alice, Theo and Sami be brave

enough to stop Olivier stealing the ending they deserve? A classic adventure story about friendship, hope, bravery and the power of imagination.

Teaching K-12 Science and Engineering During a Crisis National Academies of Sciences, Engineering, and Medicine 2021-01-29 The COVID-19 pandemic is resulting in widespread and ongoing changes to how the K-12 education system functions, including disruptions to science teaching and learning environments. Students and teachers are all figuring out how to do schooling differently, and districts and states are working overtime to reimagine systems and processes. This is difficult and stressful work in the middle of the already stressful and sometimes traumatic backdrop of the global pandemic. In addition, students with disabilities, students of color, immigrants, English learners, and students from under-resourced communities have been disproportionately affected, both by the pandemic itself and by the resulting instructional shifts. *Teaching K-12 Science and Engineering During a Crisis* aims to describe what high quality science and engineering education can look like in a time of great uncertainty and to support practitioners as they work toward their goals. This book includes guidance for science and engineering practitioners - with an emphasis on the needs of district science supervisors, curriculum leads, and instructional coaches. *Teaching K-12 Science and Engineering During a Crisis* will help K-12 science and engineering teachers adapt learning experiences as needed to support students and their families dealing with ongoing changes to instructional and home environments and at the same time provide high quality in those experiences.

When She Woke Hillary Jordan 2012-09-18 Bellwether Prize winner Hillary Jordan's provocative new novel, *When She Woke*, tells the story of a stigmatized woman struggling to navigate an America of a not-too-distant future, where the line between church and state has been eradicated and convicted felons are no longer imprisoned and rehabilitated but chromed—their skin color is genetically altered to match the class of their crimes—and then released back into the population to survive as best they can. Hannah is a Red; her crime is murder. In seeking a path to safety in an alien and hostile world, Hannah unknowingly embarks on a path of self-discovery that forces her to question the values she once held true and the righteousness of a country that politicizes faith.

Ideologies in Action Alexandra Jaffe 2013-07-31 In Corsica, spelling contests, road signs, bilingual education bills and Corsican language newscasts leave language planners and ordinary speakers deeply divided over how to define what "counts" as Corsican and how it is connected with cultural identity. In *Ideologies in Action* Alexandra Jaffe explores the complex interrelationship between linguistic ideologies and practices on the French island of Corsica. This detailed exploration of the ideological and political underpinnings of three decades of language planning raises fundamental questions about what it means to "save" a minority language, and the way in which specific cultural, political and ideological contexts shape the "successes" and "failures" of linguistic engineering efforts. Jaffe's ethnography focuses both on the way dominant language ideologies are inscribed in the everyday experience of ordinary people, as well as how they shape the evolving strategies of language planners trying to revitalize the Corsican language. While Jaffe's analysis demonstrates the pervasive influence of dominant language ideologies on minority language speakers and language planners, she also draws on case studies from everyday discourse, educational practice and public and mediatized debates over language issues to develop an ethnographically-grounded perspective on levels of resistance. In the final part of the book she explores the emergence (and the limits) of "radical" genres of resistance found in forms of Corsican language activism and in examples of codeswitching and language mixing in bilingual radio practice. This book contributes to a growing literature on language ideology, and will be of interest to anthropologists, political scientists and linguists interested in the practical and theoretical dimensions of language contact, minority language literacy, bilingual education, and language shift.

Introduction to Radar Using Python and MATLAB Lee Andrew (Andy) Harrison 2019-10-31 This comprehensive resource provides readers with the tools necessary to perform analysis of various waveforms for use in radar systems. It provides information about how to produce synthetic aperture (SAR) images by giving a tomographic formulation and implementation for SAR imaging. Tracking filter fundamentals, and each parameter associated with the filter and how each affects tracking performance are also presented. Various radar cross section measurement techniques are covered, along with waveform selection analysis through the study of the ambiguity function for each particular waveform from simple linear frequency modulation (LFM) waveforms to more complicated coded waveforms. The text includes the Python tool suite, which allows the reader to analyze and predict radar performance for various scenarios and applications. Also provided are MATLAB® scripts corresponding to the Python tools. The software includes a user-friendly graphical user interface (GUI) that provides visualizations of the concepts being covered. Users have full access to both the Python and MATLAB source code to modify for their application. With examples using the tool suite are given at the end of each chapter, this text gives readers a clear understanding of how important target scattering is in areas of target detection, target tracking, pulse integration, and target discrimination.

Windows Into the Soul Gary T. Marx 2016-05-31 In *Windows into the Soul*, Gary T. Marx sums up a lifetime of work on issues of surveillance and social control by disentangling and parsing the empirical richness of watching and being watched. Ultimately, Marx argues, recognizing complexity and asking the right questions is essential to bringing light and accountability to the darker, more iniquitous corners of our emerging surveillance society.

Discovering Dinosaurs Valerie Wilding 2003 Gideon Mantell - the hard-working doctor of humble birth who devotes his life to unearthing fossils around his home town of Lewes. His most famous find is a skeleton which he names Iguanodon. Facing bankruptcy and the debtors prison, he is forced to sell his 25-year-old fossil

collection. After an accident leaves him in severe pain, he dies of opium overdose, not credited in his lifetime for his achievements. Richard Owen - an anatomist with ambition. Climbs to the top of the scientific establishment by claiming the work of Mantell and others as his own. Names 'dinosaurs' in a fossil report based on Mantell's findings and is asked to provide models for the Crystal Palace, which are still there. Links his findings to the Biblical story of evolution and is eventually discredited following the publication of Darwin's Origin of the Species.

Truccare le carte Charlie Cochet 2022-02-11 Jacopo “Jack” Constantino, ex sergente comunicazioni nelle Forze Speciali, ora dirige il dipartimento di sicurezza informatica per la Four Kings Security e lavora con il suo team di esperti per garantire ai clienti i migliori sistemi di sicurezza sul mercato. Ma Jack trova la sua vita abbastanza monotona, nonostante le avventure con i suoi commilitoni, e vorrebbe qualcosa di più emozionante. Ma a volte i desideri si avverano... fin troppo. Due anni fa, Fitz Harlow ha rubato il cuore di Jack e se n'è andato. Ma ora è tornato. Superata la fine di una relazione disastrosa, Fitz ha rimesso insieme la sua vita. Dopo un sacco di terapia e di gelato, ha abbandonato il mondo della moda ed è tornato a St. Augustine per aprire un salone di parrucchiere alla moda, Ricci Capricci. Ora finalmente ha la vita tranquilla e pacifica che sogna da così tanto tempo. Manca solo una cosa, o per meglio dire, una persona, eppure Fitz è incerto. Con Jack non otterrà solo un partner, ma anche una famiglia di ex Berretti Verdi attiraguai e un pastore belga Malinois con la testa durissima. Fitz e Jack scoprono che il loro legame si è fatto più forte con il passare del tempo anche grazie a degli amici ficcanaso, ma mentre cercano di ripartire da dove si erano lasciati, qualcuno ha da ridire sulla loro relazione. Il pericolo trama nell'ombra: uno stalker deciso a tenerli lontani, a qualunque costo. Riusciranno i due a vincere una lotta impari contro un nemico sconosciuto, o Jack perderà Fitz per sempre?
