Hollywood Heat Steve Rowland 2015-08-12 HOT INSIDER STORIES FROM HOLLYWOOD'S GOLDEN 1950s, TOLD IN TRUE PULP FICTION STYLE. "Elvis Presley and George Klein, one of Elvis's inner circle, pulled up in long black Cadillac limousine style. Elvis was at the wheel. I jumped in the backseat and we took off-three for the road." "The flag was dropped and James Dean, starting from 18th on the grid, shot through the pack balls out, like a man possessed. After a few laps he made it up to fourth place before a blown piston ended his day. Jimmy was turbulent with the situation." "The groove rocked in once more with a churning precision. Like sensual thunder, it shook the room with sexual vibrations. There on the

bandstand, like a benevolent Buddha, dressed in Levis and an open neck shirt, was Marlon Brando. He was as cool as a night breeze over Alaska. With his hands in motion he caressed the congas, playing as if willing his adoring flock to follow him into the loving arms of immortality."

Banking in China V. Cousin 2011-05-25 Chinese banks have been making headlines recently, but what lies beneath? Banking in China appears different. What explains the current arrangement? What can we expect from such a banking industry in the future? This book answers these two questions in a fully revised second edition and contributes to a new understanding of Chinese banks.

China's Banking and Financial Markets Li Yang 2012-11-27 "This is a very timely book. With the recapitalization and reform of China's banking sector now well under way, the banks are on the brink of a new era of growth and expansion. This work is the definitive reference on the banking sector in China, and is an essential tool for anyone seeking to understand the dynamics of financial intermediation on the Mainland. It sets out the facts, free of the judgment calls that so often cloud the true picture of the health of China's banking system." --Dr. David K.P. Li, Chairman and Chief Executive, The Bank of East Asia, Limited "As China continues its impressive pace of economic growth, the rest of the world is constantly reassessing the opportunities and challenges it presents. This book is the first official report on the status of China's financial services industry and financial markets. For the first time, the international community gets access to the same information that the Chinese government uses in making key policies. Such unique insights make this book an essential read for business leaders, investors, policy makers, scholars, and anyone who is interested in understanding China's profound impact on businesses and consumers globally." --Maurice R. Greenberg, Chairman & CEO, C.V. Starr & Co. "This is the first book that introduces all aspects of the Chinese banking and financial markets to international audiences. From its developmental history to its contemporary challenges, China's banking and finance markets are presented, explored and analyzed with great detail and in great depth. Both the richness of the data and the scholarly strength of the methodology are a milestone. China's increasing participation in global financial markets make this book a must read for all financial professionals worldwide." --Lefei Liu, Chief Investment Officer, ChinaLife Insurance

Hygiasticon Leonardus Lessius 2018-04-17 The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Medical theory and practice of the 1700s developed rapidly, as is evidenced by the extensive collection, which includes descriptions of diseases, their conditions, and treatments. Books on science and technology, agriculture, military technology, natural philosophy, even cookbooks, are all contained here. ++++ The below data was compiled from various identification fields in the bibliographic record of this title.
