**Atlantic Spain and Portugal Henry Buchanan 2015-05-31**

*Atlantic Spain and Portugal* Henry Buchanan 2019-05-04 Atlantic Spain and Portugal is the classic guide to this varied coast which includes the rias of Galicia, the estuaries of the Douro and Tejo with Lisbon, the Algarve and then the coast of Andalucia down to Gibraltar. It's the essential companion for yachts making passage to the Mediterranean or onwards to the Canaries before an Atlantic crossing and also a comprehensive cruising companion for anyone visiting the delightful cruising grounds of Galicia and beyond. There are new photos and most of the plans incorporate changes accumulated over the four years since the last edition was published. The fact that this guide is now in its eighth edition shows how popular it has become with cruising folk... all right up to Imray's normal standards and it would make no

sense to cruise the area without this book by the navigator's hand. Yachting Monthly

**The Influence of Sea Power Upon History, 1660-1783** Alfred Thayer Mahan 1918 Today, war is more complicated than it has ever been. When considering military strategy, a commander must be aware of several theaters of war. There's ground strength, air power, naval combat and even cyber warfare. In the late 19th century, however, the true military might of a nation rested primarily on the strength of its navy. In 1890, United States Navy Captain Alfred Thayer Mahan published a book titled "The Influence of Sea Power Upon History." The monumental text addressed the importance of both military and commercial fleets in the success of a nation in war and peacetime. Mahan begins with a discussion of the elements he considers to be the key to a nation's success on the seas. He theorizes that a ground force could not

sustain the pressure of a naval blockade. Mahan then applies his principles to wars of the past. He analyzes the use of a navy in various engagements and considers the resulting influence on the outcome of the wars. The book was readily accepted by commanders and tacticians all over the world and his principles and theories were utilized throughout the 20th century. His arguments, along with technological advances, were influential in the strengthening of the United States Navy. Presently, Mahan's work is considered the most important work on naval strategy in history.

**Arguing about Empire** Martin Thomas 2017-03-23 *Arguing about Empire* is the first book to apply a comparative approach to Anglo-French imperial rhetoric - its racial underpinnings, its ethical presumptions, and the world-views it enshrined. Were French and British imperial actions justified in ways fundamentally different from concurrent diplomatic interventions beyond the confines of empire? If so, then when and why did this begin to change? Using an innovative case-study approach, *Arguing about Empire* examines a series of crises which involved both the French and British Empires and considers how they were discussed in the public sphere. Based on extensive archival research, and written in a lively style, the volume assesses the extent to which Europe's two pre-eminent imperial powers developed comparable cultures of imperial rhetoric alongside shared practices of colonial repression.

*The Cruising Almanac 2023* Cruising Association 2022-09-07 *The Cruising Almanac* remains the perfect onboard companion for cruising sailors. This 2023 edition is introduced by Mike Golding, OBE, who reminds us that "The Cruising Almanac provides that 'hard copy' information which today's electronic navigators so frequently lack." Compiled annually by a team of Cruising Association editors and Imray, the Almanac encompasses Northwest Europe from the Shetlands to Gibraltar and from the Baltic to the west coast of Ireland. This 2023 edition includes some changes to the presentation of essential information to make it more readily accessible. The Netherlands section has been revised so that the format conforms to the other regions. A new chapter for Northwest Spain has been created to allow more extensive overall coverage of the Spanish and Portuguese Atlantic coasts. Updating of the Almanac continues throughout the year, with corrections published monthly on the Cruising Association website

**Bordering on Britishness** Andrew Canessa 2018-12-17 This volume explores how Gibraltar Britishness was constructed over the course of the twentieth century. Today most Gibraltarians are fiercely proud of their Britishness, sometimes even describing themselves as ‘more British than the British’ and Gibraltar’s Chief Minister in 2018 announced in a radio interview that “We see the world through British eyes.” Yet well beyond the mid-twentieth century the inhabitants of the Rock were overwhelmingly Spanish speaking, had a high rate of intermarriage with Spaniards, and had strong class links and shared interests with their neighbours across the border. At the same time, Gibraltarians had a very clear secondary status with respect to UK British people. By the beginning of the twenty-first century, however, Gibraltarians speak more English than Spanish (with increasing English monolingualism), have full British citizenship and are no longer discriminated against based on their ethnicity; they see themselves as profoundly different culturally to Spanish people across the border. *Bordering on Britishness* explores and interrogates these changes and examines in depth the evolving relationship Gibraltarians have with Britishness. It also reflects on the profound changes Gibraltar is likely to experience because of Brexit when its border with Spain becomes an external EU border and the relative political strengths of Spain and the UK shift accordingly. If Gibraltar Britishness has evolved in the past it is certain to evolve in the future and this volume raises the question of how this might change if the UK’s political and economic strength – especially with respect to Gibraltar – begins to wane.

**American Airpower Comes Of Age—General Henry H. “Hap” Arnold’s World War II Diaries Vol. II [Illustrated Edition]** Gen. Henry H. “Hap.” Arnold 2015-11-06 Includes the Aerial Warfare In Europe During World War II illustrations pack with over 180 maps, plans, and photos. Gen Henry H. “Hap.” Arnold, US Army Air Forces (AAF) Chief of Staff during World War II, maintained diaries for his several journeys to various meetings and conferences throughout the conflict. Volume 1 introduces Hap Arnold, the setting for five of his journeys, the diaries he kept, and evaluations of those journeys and their consequences. General Arnold’s travels brought him into strategy meetings and personal conversations with virtually all leaders of Allied forces as well as many AAF troops around the world. He recorded his impressions, feelings, and expectations in his diaries. Maj Gen John W. Huston, USAF, retired, has captured the essence of Henry H. Hap Arnold—the man, the officer, the AAF chief, and his mission. Volume 2 encompasses General Arnold’s final seven journeys and the diaries he kept therein.

*The London Gazette* Great Britain 1880

A Patriot's History of the United States Larry Schweikart 2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America’s past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America’s patriots and the achievements of “dead white men.” As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. *A Patriot’s History of the United States* corrects those doctrinaire biases. In this groundbreaking book, America’s discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America’s true and proud history.

**When Scotland Was Jewish** Elizabeth Caldwell Hirschman 2015-05-07 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.
