The Writing Revolution Judith C. Hochman 2017-08-07 "HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Missions as the Theology of the Church Klaus Fiedler 2015-03-01 The Christian faith is comprehensive and diverse, so the question, what the centre is, can be asked. Different answers have been given, to which this book adds another. The venture of the Christian faith is missions, following Kenneth Scott Latourettes thesis that the Holy Spirit moves forward the history of the church by bringing in ever new revivals, which produce ever new organisations. Therefore missions are not the children of the churches, but of the revivals, and Africa was not evangelised by the European and American churches, but by the Europeans and

American mission societies.

Women And Revolution In Iran Guity Nashat 2021-12-13 Iranian women acquired greater legal, social, and economic opportunities during the past three decades than in any other period of history, yet they participated in large numbers in the 1979 revolution to overthrow Shah Mohammad Reza Pahlavi. Ironically, they may have lost more than any other group from the changes introduced and stand to lose even more from changes contemplated by leaders of the current regime. The role of women in the revolution, the reasons for their participation, and their subsequent fate are documented in this volume. The authors examine the status of women in pre-revolutionary society, the ways in which their lives were affected by Islamic principles, and the changes that occurred throughout the twentieth century as increasing numbers of women entered the labor force and public life. They then turn to recent political events, describing the participation of working-class, rural, and educated women and activists from both the right and left. Finally, they consider the implications of recent government politics aimed at limiting women's activities outside the home and encouraging a return to more traditional roles.

After-Mission, Beyond Evangelicalism Najib George Awad 2020-11-04 After-Mission touches on on three questions. The first question is about self-perception and identity-formation strategies, and the various views that we have on the Protestants' relation to their Arab Muslim Middle Eastern context. The second question, about the theological dimension, asks what kind of a theological discourse do the Protestants need to develop, and how do they need to re-form their own theological heritage, in such a manner that will allow them to heal the historical enmity and suspicion towards them from the Eastern Orthodox Christian community in the region? Finally, the third question touches on the Protestants' future in the Arab Muslim Middle East by viewing this inquiry from a broader perspective that is related to all the Middle Eastern Christian communities' presence and role in the Muslim-majority context. The question of identity formation, and the managing of difference without trapping it in the mud of 'otherizing and self-otherizing', will also be tackled, so that the theological dimension is integrated with the broader, multifaceted contextual one.
