Last Chance Mustang Mitchell Bornstein 2015-06-23 Last Chance Mustang is the story of Samson, a formerly free-roaming, still wild-at-heart American mustang that was plucked from his mountainous Nevada home and thrown into the domestic horse world where he was brutalized and victimized. After years of abuse, Samson had evolved into a hateful and hated, maladjusted beast until the day he found his way to a rural Illinois farm, an ill-equipped owner, and one last chance. Mitch Bornstein's task was to tame the violent beast whose best defense had become offense. He had twenty years of experience fixing unfixable horses,

but Samson would be his greatest challenge. Through the pair's many struggles and countless battles, Samson would teach Mitch about the true power of hope, friendship, redemption and the inspiring mettle of the forever wild and free American mustang. Last Chance Mustang explains Samson's violent and antisocial behavior while addressing the remedial techniques employed to remedy these issues. The art of working with damaged horses is demystified. Though his story is sad, the reader is asked to respect Samson—not pity him. He has good and bad days, and he has a dark side. Like all of us, Samson is far from perfect. And his saga will move the reader to both tears and laughter. Part history lesson, part training manual, and part animal narrative, Samson's is a story that all readers will be able to relate to: a story of survival, of trust, and ultimately, finding love.

with the astonishing fact that the P-51 Mustang was built in less than 120 days. This first version was hardly a world-beater, and it took the addition of a Rolls-Royce-designed Merlin to make the Mustang a legend. These nimble and versatile fighters were able to escort Allied heavy bombers all the way to Berlin and back. In the Pacific, their long-range ability was pushed to its limit, with pilots flying 1,500-mile, eight-or-more-hour missions over water to attack Tokyo. On the home front, Graff profiles the impact manufacturing Mustangs had on workers in Los Angeles and Dallas. The United States wasn't finished with the P-51 Mustang after World War II. It was used in the Korean War and, afterwards, as a symbol and icon of American ingenuity. Graff explores the post-World War II history of this iconic plane, making this a book that every single World War II, history, and aviation enthusiast will want to buy.

mountainous scrublands of Nevada. Until he was a year old, no human hand touched him, though he knew something of the danger people represented to the herd. But one fateful day, the herd was chased by a huge black creature in the sky, and the yearling was separated from his mother. In blind panic he ran, but he could not outdistance the terrifying, whirling thing above him, or the humans on horseback that surrounded him. Before long, JB Andrew would come to the attention of many. He was big, leggy, and awkward, but he had a long, graceful stride and was chosen for an inmate prison program where he would be trained and made ready for adoption. JB, short for Jail Bird, had a special quality that forced people to take notice. Before his retirement years later, he would win hearts and trophies in the elite competitive dressage ring by becoming the first and only wild mustang to attain success in the sport. He paved the way for people to dream, believe, and succeed and in doing so, JB became one of the greatest ambassadors for wild mustangs the breed has ever known. Third in the True Horse Stories series, JB Andrew: Mustang Magic is as warm as it is inspiring.

Wild Horse Annie Tracey Fern 2019-02-19 Wild Horse Annie was the nickname of Velma Bronn Johnston (1912–77), loved mustangs all her life. When she saw mustangs being rounded up and killed to make room for ranchers' livestock, she knew she had to speak up. In 1950, she began writing letters to local newspapers and politicians, defending the horses' right to roam free. Many people told Annie to hush up, but they couldn't stop her. She soon became a voice for mustangs throughout the state of Nevada, speaking on their behalf at town halls and meetings. But Annie was only one person, and she wanted to do more. So she got children to speak up, too, by having them write letters to Washington, D.C., officials to ask them to save the mustangs. Finally, with the help of her young "pencil brigade," Annie persuaded Congress to pass nationwide laws protecting wild horses and burros on public land nationwide. Readers will find inspiration in this portrait of an early animal-rights advocate, who spoke up for what she believed in, and empowered a generation of children to be a voice for the voiceless.
