Cyber Frauds, Scams and their Victims Mark Button 2017-07-14 Crime is undergoing a metamorphosis. The online technological revolution has created new opportunities for a wide variety of crimes which can be perpetrated on an industrial scale, and crimes traditionally committed in an offline environment are increasingly being transitioned to an online environment. This book takes a case study-based approach to exploring the types, perpetrators and victims of cyber frauds. Topics covered include: An in-depth breakdown of the most common types of cyber fraud and scams. The victim selection techniques and perpetration strategies of fraudsters. An exploration of the impact of fraud upon victims and best practice examples of support systems for victims. Current approaches for policing, punishing and preventing cyber frauds and scams. This book argues for a greater need to understand and respond to cyber fraud and scams in a more effective and victim-centred manner. It explores the victim-blaming discourse, before moving on to examine the structures of support in place to assist victims, noting some of the interesting initiatives from around the world and the emerging strategies to counter this problem. This book is essential reading for students and researchers engaged

in cyber crime, victimology and international fraud.

Mumbai - An International Financial Centre Ministry of Finance, 2007-04-04 Most financial services are now tradable across borders in an extremely competitive environment with buyers and sellers around the world having a choice of procuring services from competing international financial centres. The global international financial services (IFS) market in the 21st century is one in which competition is driven by rapid innovation in financial products, services, instruments, structures, and arrangements to accommodate and manage myriad requirements, risks and a ceaseless quest for cost reduction. Competitive advantage in IFS provision depends on seven key factors: - An extensive national, regional, global network of corporate and government client connections possessed by financial firms participating in an international finance centre - High level human capital specialized in finance, supported by a numerate labour force. - World-class telecommunications infrastructure - State-of-the-art IT systems - A well-developed, sophisticated open financial system - A system of financial regime governance that is amenable to operating on global 'best-practice' lines and standards - A 'hinterland advantage' in terms of either a national or regional economy (preferably both) whose growth is generating rapid growth in demand for IFS The Ministry of Finance, Government of India established a High Powered Expert Committee in 2006 to study the feasibility of India's entry into the global market for IFS and that of Mumbai becoming an IFC. The Committee's report analyses Mumbai's strengths and weaknesses in terms of the above seven key factors essential for the success of an IFC. The report strives to deliver a nuanced appreciation of the likely costs and benefits of the path to an IFC, based on an understanding of which policy-makers can make a reasoned choice.

Conservation of Tropical Plant Species M.N. Normah 2012-08-04 The book is designed to provide a review on the methods and current status of conservation of the tropical plant species. It will also provide the information on the richness of the tropical plant diversity, the need to conserve, and the potential utilization of the genetic resources. Future perspectives of conservation of tropical species will be discussed. Besides being useful to researchers and graduate students in the field, we hope to create a reference for a much wider audience who are interested in conservation of tropical plant diversity.

Chinese Investment in the United States U S -China Economic and Security Review 2017-04-29 China's economic activities are having a clear and direct impact on the lives of average Americans. This impact is evident in the rise of Chinese investment in advanced sectors of the U.S. economy, including semiconductors and biotech, even as the Chinese government continues to restrict the ability of U.S. companies to invest in the same sectors, raising serious concerns for U.S. economic interests and national security. As the Trump administration prepares to formulate policy towards China, it is important to separate fact from fiction in the discussion of the key drivers and impacts of China's economic activities in the United States. According to data from the Rhodium Group, Chinese investment flows to the United States have grown steadily in recent years, reaching nearly \$46 billion in 2016, a threefold increase from 2015. The speed of this investment flow growth coupled with a lack of reliable government data, both in China and the United States, has hindered efforts to accurately analyze trends in Chinese investment while also masking some of the risks and benefits these investments present to the United States. Even with limited official information, however, it is clear that Chinese investment is targeting sectors of strategic importance to the United States economy.

Tax Guide 2020 - For Individuals (For Use in Preparing 2020 Returns) Internal Revenue Service 2021-03-04 This publication covers the general rules for filing a federal income tax return. It supplements the information contained in your tax form instructions. It explains the tax law to make sure you pay only the tax you owe and no more. How this publication is arranged. Pub. 17 closely follows Form 1040, U.S. Individual Income Tax Return, and Form 1040-SR, U.S. Tax Return for Seniors, and their three Schedules 1 through 3. Pub. 17 is divided into four parts. Each part is further divided into chapters, most of which generally discuss one line of the form or one line of one of the three schedules. The introduction at the beginning of each part lists the schedule(s) discussed in that part. The table of contents inside the front cover, the introduction to each part, and the index in the back of the publication are useful tools to help you find the information you need.

Local Content Policies in the Oil and Gas Sector Silvana Tordo and Yahya Anouti 2013 A number of countries have recently discovered and are developing oil and gas reserves. Policy makers in such countries are anxious to obtain the greatest benefits for their economies from the extraction of these exhaustible resources by designing appropriate policies to achieve desired goals. One important theme of such policies is the so-called local content created by the sector—the extent to which the output of the extractive industry sector generates further benefits to the economy beyond the direct contribution of its value-added, through its links to other sectors. This paper provides a detailed description of the policy context, objectives, implementation tools, and metrics used in a select group of petroleum-producing countries, including Angola, Brazil, Indonesia, Kazakhstan, Malaysia, and Trinidad and Tobago. The information is further analyzed in the paper on Local Content in the Oil and Gas Sector, World Bank Studies, Washington D.C., 2013.

Why Tax Systems Differ Cedric Sandford 2000 Analysis and comparison of taxation in different countries, looking at what tax systems have in common, how they differ and trying to explain both the similarities and the differences. The first part concerns tax structures. The second part looks at individual taxes or related groups of taxes. The third section deals with some aspects of policy-making and tax administration.

The Lost Gospel of Judas Iscariot Bart D. Ehrman 2008-10 The biblical scholar recounts the events surrounding the discovery and handling of the Gospel of Judas, and provides an overview of its content, in which Judas is portrayed as a faithful disciple.

The Gospel of Judas, Second Edition Rodolphe Kasser 2008-06-17 For 1,600 years its message lay hidden. When the bound papyrus pages of this lost gospel finally reached scholars who could unlock its

meaning, they were astounded. Here was a gospel that had not been seen since the early days of Christianity, and which few experts had even thought existed—a gospel told from the perspective of Judas Iscariot, history’s ultimate traitor. And far from being a villain, the Judas that emerges in its pages is a hero. In this radical reinterpretation, Jesus asks Judas to betray him. In contrast to the New Testament Gospels, Judas Iscariot is presented as a role model for all those who wish to be disciples of Jesus and is the one apostle who truly understands Jesus. Discovered by farmers in the 1970s in Middle Egypt, the codex containing the gospel was bought and sold by antiquities traders, secreted away, and carried across three continents, all the while suffering damage that reduced much of it to fragments. In 2001, it finally found its way into the hands of a team of experts who would painstakingly reassemble and restore it. The Gospel of Judas has been translated from its original Coptic to clear prose, and is accompanied by commentary that explains its fascinating history in the context of the early Church, offering a whole new way of understanding the message of Jesus Christ.

Global Corruption Report: Education Transparency International 2013-10-08 Corruption and poor governance are acknowledged as major impediments to realizing the right to education and to reaching the Millennium Development Goal of universal primary education by 2015. Corruption not only distorts access to education, but affects the quality of education and the reliability of research findings. From corruption in the procurement of school resources and nepotism in the hiring of teachers, to the buying and selling of academic titles and the skewing of research results, major corruption risks can be identified at every level of the education and research systems. Conversely, education serves as a means to strengthen personal integrity and is a critical tool to address corruption effectively. The Global Corruption Report (GCR) is Transparency International’s flagship publication, bringing the expertise of the anti-corruption movement to bear on a specific corruption issue or sector. The Global Corruption Report on education consists of more than 70 articles commissioned from experts in the fields of corruption and education, from universities, think-tanks, business, civil society and international organisations. The Global Corruption Report on education and academic research will provide essential analysis for understanding the corruption risks in the sector and highlight the significant work that has already been done in the field to improve governance and educational outcomes. This will be an opportunity to pull together cutting edge knowledge on lessons learnt, innovative tools and solutions that exist in order to fight corruption in the education sector.

Global Animation Theory Franziska Bruckner 2018-11-01 This book is open access and available on www.bloomsburycollections.com. It is funded by Knowledge Unlatched. Scanning historical and current trends in animation through different perspectives including art history, film, media and cultural studies is a prominent facet of today's theoretical and historical approaches in this rapidly evolving field. Global Animation Theory offers detailed and diverse insights into the methodologies of contemporary animation studies, as well as the topics relevant for today's study of animation. The contact between practical and theoretical approaches to animation at Animafest Scanner, is closely connected to host of this event, the World Festival of Animated Film Animafest Zagreb. It has given way to academic writing that is very open to practical aspects of animation, with several contributors being established not only as animation scholars, but also as artists. This anthology presents, alongside an introduction by the editors and a preface by well known animation scholar Giannalberto Bendazzi, 15 selected essays from the first three Animafest Scanner editions. They explore various significant aspects of animation studies, some of them still unknown to the English speaking communities.

School Construction Strategies for Universal Primary Education in Africa Serge Theunynck 2009 School Construction Strategies for Universal Primary Education in Africa' examines the scope of the infrastructure challenge in Sub-Saharan Africa and the constraints to scaling up at an affordable cost. It assesses the experiences of African countries with school planning, school facility designs, and construction techniques, procurement and implementation arrangements over the past thirty years. It reviews the roles of the various actors in the implementation process: central and deconcentrated administrations, local governments, agencies, social funds, NGOs, and local communities. Drawing upon extensive analysis of data from over 200 250 projects sponsored by the World Bank and other donor agencies, the book draws lessons on promising approaches to enable African countries to scale up the facilities required to achieve the EFA goals and MDGs of complete quality primary education for all children at the lowest marginal cost.

Corporate Bankruptcy Prediction Błażej Prusak 2020-06-16 Bankruptcy prediction is one of the most important research areas in corporate finance. Bankruptcies are an indispensable element of the functioning of the market economy, and at the same time generate significant losses for stakeholders. Hence, this book was established to collect the results of research on the latest trends in predicting the bankruptcy of enterprises. It suggests models developed for different countries using both traditional

and more advanced methods. Problems connected with predicting bankruptcy during periods of prosperity and recession, the selection of appropriate explanatory variables, as well as the dynamization of models are presented. The reliability of financial data and the validity of the audit are also referenced. Thus, I hope that this book will inspire you to undertake new research in the field of forecasting the risk of bankruptcy.
