Critical CALL - Proceedings of the 2015 EUROCALL Conference, Padova, Italy Francesca Helm
2015-12-02 The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term 'critical' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become 'naturalized' and are not called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.

In Praise of Slow Carl Honore 2009-06-12 In the tradition of such trailblazing books as *No Logo* and *The Tipping Point*, *In Praise of Slow* heralds a growing international movement of people dedicated to slowing down the pace of our contemporary times and enjoying a richer, fuller life as a result. These days, almost everyone complains about the hectic pace of their lives. We live in a world where speed rules and everyone is under pressure to go faster. But when speed is king, anyone or anything that gets in our way, that slows us down, becomes an enemy. Thanks to speed, we are living in the age of rage. Carl Honore has discovered a movement that is quickly working its way into the mainstream. Groups of people are developing a recipe for living better in a fast-paced, modern environment by striving for a new balance between fast and slow. In an entertaining and hands-on investigation of this new movement, Honore takes us from a Tantric sex workshop in a trendy neighbourhood in London, England to Bra, Italy, the home of the Slow Food, Slow Cities and Slow Sex movements. He examines how we can continue to live productive lives by embracing the tenets of the slow movement. A challenging take on the cult of speed, as well as a corrective look at how we can approach our lives with new understanding, *In Praise of Slow* uncovers a movement whose time has come.

Why We Love Serial Killers Scott Bonn 2014-10-28 A chilling investigation into the deviant mind, “so powerful and provocative, you cannot put it down” (Rita Cosby, New York Times–bestselling author). We know the names: Ted Bundy, Ed Gein, Jeffrey Dahmer, John Wayne Gacy, among them—serial killers transformed by the media into ghoulish celebrities. And their iconic fictional counterparts—from Norman Bates to Hannibal Lecter to Dexter—reveal just how eager we are to watch a psychopath in action. But why? Are we curious about the root of their terrifying compulsions? Or is it something more? *Why We Love Serial Killers* “attempts to solve some of these mysteries . . . What made serial killers this way? Why did they kill, and why did they do it so gruesomely? How are they different from us? (Please let them be different from us)” (The Atlantic). In exploring our appetite for the macabre, criminology professor Dr. Scott Bonn also provides a unique view into the world of serial killers, having corresponded with two of the most notorious examples: David Berkowitz, a.k.a. Son of Sam, and the BTK Killer, Dennis Rader. In addition, Bonn examines the criminal profiling techniques used to identify serial predators, the charisma of the sociopath, the rise in “murderabilia” collecting, and how and why these killers often become pop-culture icons, escalating both our fears and our fascination. The result is “powerful and a must-read . . . Insightful, compelling, and an excellent source of myth-busting information for laymen and professionals alike” (Burl Barer, Edgar Award-winning author of *The Saint*).

Sixteen-year-old Emilia Moretti's goal for the summer is simple: forget her brother's best friend—Nick Grawsky—ever existed. This summer, Emilia won't stay awake at night thinking about him. She'll need flawless ballet movements to have a shot at next year's showcase, and she's finally ready to search for her birth parents. But when Nick decides to stay in the city, Emilia's resolve disappears in a pirouette. Maybe it's the spin they needed to be together. As long as she doesn't get stuck believing in happily ever after... Nick is tired of pretending to be the happy, let's-have-fun guy. His father wants him to change his career from professional dancer to...lawyer. He needs to put all of his focus on dancing to prove to

Daddy Dearest he's good enough to make it big. And he may have a case of the bluest balls in history courtesy of Emilia. She's off-limits: The bro code with Roberto even forbids the dirty thoughts he has about her. Besides, he's not boyfriend material. He only has time for flings, for girls who don't expect much, for girls he doesn't want to kiss goodnight. He knows he should resist her, but he's not sure he wants to... At least for this summer. It's going to be a summer like no other.

Awakening Children's Minds Laura E. Berk 2004-05-06 Parents and teachers today face a swirl of conflicting theories about child rearing and educational practice. Indeed, current guides are contradictory, oversimplified, and at odds with current scientific knowledge. Now, in *Awakening Children's Minds*, Laura Berk cuts through the confusion of competing theories, offering a new way of thinking about the roles of parents and teachers and how they can make a difference in children's lives. This is the first book to bring to a general audience, in lucid prose richly laced with examples, truly state-of-the-art thinking about child rearing and early education. Berk's central message is that parents and teachers contribute profoundly to the development of competent, caring, well-adjusted children. In particular, she argues that adult-child communication in shared activities is the wellspring of psychological development. These dialogues enhance language skills, reasoning ability, problem-solving strategies, the capacity to bring action under the control of thought, and the child's cultural and moral values. Berk explains how children weave the voices of more expert cultural members into dialogues with themselves. When puzzling, difficult, or stressful circumstances arise, children call on this private speech to guide and control their thinking and behavior. In addition to providing clear roles for parents and teachers, Berk also offers concrete suggestions for creating and evaluating quality educational environments--at home, in child care, in preschool, and in primary school--and addresses the unique challenges of helping children with special needs. Parents, Berk writes, need a consistent way of thinking about their role in children's lives, one that can guide them in making effective child-rearing decisions. *Awakening Children's Minds* gives us the basic guidance we need to raise caring, thoughtful, intelligent children.
