Ecocriticism Benjamin Bühler 2016-05-10 Ecocriticism bezeichnet aktuelle kultur- und literaturwissenschaftliche Ansätze, die die Beziehungen zwischen dem Menschen und seiner Umwelt sowie ihre Transformationen in der Literatur- und Kulturgeschichte untersuchen. Der Band stellt ausführlich die Geschichte des Ecocriticism sowie unterschiedliche theoretische Herangehensweisen vor. Der Autor bietet den Abriss einer ökologischen Literaturgeschichte vom 18. Jahrhundert bis zu den Dystopien der Gegenwart mit Interpretationen zentraler Werke. Der Schlussteil sucht die poetologischen Dimensionen des Themas auf und ergründet Narrative (wie Zurück zur Natur), Räume (wie Wildnis und Naturpark), Störungen (wie Verschmutzungen und Klimawandel) und nicht-menschliche Akteure (wie Tiere und Maschinen).

About the Size of the Universe Jón Kalman Stefánsson 2018 A modern saga spanning the whole of the 20th century, by one of Iceland's most celebrated writers. At the beginning of this story there is death, and yet it is a celebration of life - the passion between a man and a woman, forbidden love, violence, sorrow, betrayal. Happiness and misfortune are passed down from one generation to the next. The sorrow over what was and what might have been weighs heavily on the characters and at the end of this chain, for now, stands Ari, on his way to his dying father, with a score still to be settled. The raw beauty of life is written into the dramatic Icelandic landscape, and into a society that has undergone great transformation within a century. In language both archaic and lyrical, and yet entirely contemporary and full of humour, Jón Kalman Stefánsson proves himself one of the finest European writers of his generation. A companion volume to *Fish Have No Feet* (longlisted for the Man Booker International Prize 2017). Translated from the Icelandic by Philip Roughton

Readings in the Anthropocene Sabine Wilke 2017-09-21 Readings in the Anthropocene brings together scholars from German Studies and beyond to interpret the German tradition of the last two hundred years from a perspective that is mindful of the challenge posed by the concept of the Anthropocene. This new age of man, unofficially pronounced in 2000, holds that humans are becoming a geological force in shaping the Earth's future. Among the biggest challenges facing our future are climate change, accelerated species loss, and a radical transformation of land use. What are the historical, philosophical, cultural, literary, and artistic responses to this new concept? The essays in this volume bring German culture to bear on what it means to live in the Anthropocene from a historical, ethical, and aesthetic perspective.

Brownshirt Princess Lionel Gossman 2009 "Princess Marie Adelheid of Lippe-Biesterfeld was a rebellious young writer who became a fervent Nazi. Heinrich Vogeler was a well-regarded artist who was to join the German Communist Party. Ludwig Roselius was a successful businessman who had made a fortune from

his invention of decaffeinated coffee. What was it about the revolutionary climate following World War I that induced three such different personalities to collaborate in the production of a slim volume of poetry -- entitled *Gott in mir* -- about the indwelling of the divine within the human? Lionel Gossman's study situates this poem in the ideological context that made the collaboration possible. The study also outlines the subsequent life of the Princess who, until her death in 1993, continued to support and celebrate the ideals and heroes of National Socialism"--Publisher's description.

Political Romanticism Carl Schmitt 2017-07-12 A pioneer in legal and political theory, Schmitt traces the prehistory of political romanticism by examining its relationship to revolutionary and reactionary tendencies in modern European history. Both the partisans of the French Revolution and its most embittered enemies were numbered among the romantics. During the movement for German national unity at the beginning of the nineteenth century, both revolutionaries and reactionaries counted themselves as romantics. According to Schmitt, the use of the concept to designate opposed political positions results from the character of political romanticism: its unpredictable quality and lack of commitment to any substantive political position. The romantic person acts in such a way that his imagination can be affected. He acts insofar as he is moved. Thus an action is not a performance or something one does, but rather an affect or a mood, something one feels. The product of an action is not a result that can be evaluated according to moral standards, but rather an emotional experience that can be judged only in aesthetic and emotive terms. These observations lead Schmitt to a profound reflection on the shortcomings of liberal politics. Apart from the liberal rule of law and its institution of an autonomous private sphere, the romantic inner sanctum of purely personal experience could not exist. Without the security of the private realm, the romantic imagination would be subject to unpredictable incursions. Only in a bourgeois world can the individual become both absolutely sovereign and thoroughly privatized: a master builder in the cathedral of his personality. An adequate political order cannot be maintained on such a tolerant individualism, concludes Schmitt.

Almost Like Spring Alex Capus 2014-04-01 With brilliantly vivid irony, a mosaic of voices tells the true story of Switzerland's most notorious bank robbers: Kurt Sandweg and Waldemar Velte. As 1933 draws to a close, the pair arrive in Basel from Wuppertal, Germany. Rebels on the run, they are searching for an escape from the confines of a callously regimented society left impoverished by the Depression and the onset of Nazi power. However, their desperation leads them to a realm outside reality, on a destructive path of vengeance for the world's abhorrent lack of justice. Resolute on their doomed mission, neither expected to fall in love. Seen through the benign eyes of Dorly Schupp, the agonising humanity of their relationships are sharply juxtaposed against the reckless cruelty of their crimes. Yet in a world equally heartless and unremitting, who should shoulder the blame? Capus relates the portrait of these chillingly charismatic figures in a curious blend of documentary and narrative where precision of detail collides with an economy of emotion, and leaves the desolation of their situation stark and blindingly poignant. Suspended between the tragic and comic, Capus's novel mimics the absurd idiosyncrasies of life where often nothing but interpretation is left to determine the sacred from the profane.

A Book of German Lyrics Friedrich Bruns 2016-06-06 In compiling this Anthology my aim has been not so much to acquaint the student with individual great poems as with the poets themselves. With this end in view I have made the selections as full and as varied as possible and included in the Notes short introductory sketches of the poets. Since the book is intended for the work of fourth and fifth semester German in College (or third and fourth year High School), pedagogic considerations imposed certain limitations not only as to individual poems but also as to poets. Thus I felt that I must exclude Novalis,

Holderlin, Brentano, Annette von Droste, Nietzsche and Dehmel. My standard of difficulty—aside from matters purely linguistic—was: Could a similar poem in English be read and appreciated by the same class of students? Moreover I tried out in a class of fourth semester German all poems that seemed to offer special difficulties and have made use of the experience thus acquired. (...)."

Looking for Alaska tells the story of Miles Halter, a 16-year-old with a nondescript life who is seeking a "Great Perhaps." German Ecocriticism in the Anthropocene Caroline Schaumann 2017-04-18 This book offers essays on both canonical and non-canonical German-language texts and films, advancing ecocritical models for German Studies, and introducing environmental issues in German literature and film to a broader audience. This volume contextualizes the broad-ranging topics and authors in terms of the Anthropocene, beginning with Goethe and the Romantics and extending into twenty-first-century literature and film. Addressing the growing need for environmental awareness in an international humanities curriculum, this book complements ecocritical analyses emerging from North American and British studies with a specifically German Studies perspective, opening the door to a transnational understanding of how the environment plays an integral role in cultural, political, and economic issues.

So little, in fact, that scientists and philosophers have, for centuries, been obsessed with what has become known as the “eel question”: Where do eels come from? What are they? Are they fish or some other kind of creature altogether? Even today, in an age of advanced science, no one has ever seen eels mating or giving birth, and we still don't understand what drives them, after living for decades in freshwater, to swim great distances back to the

ocean at the end of their lives. They remain a mystery. Drawing on a breadth of research about eels in literature, history, and modern marine biology, as well as his own experience fishing for eels with his father, Patrik Svensson crafts a mesmerizing portrait of an unusual, utterly misunderstood, and completely captivating animal. In *The Book of Eels*, we meet renowned historical thinkers, from Aristotle to Sigmund Freud to Rachel Carson, for whom the eel was a singular obsession. And we meet the scientists who spearheaded the search for the eel's point of origin, including Danish marine biologist Johannes Schmidt, who led research efforts in the early twentieth century, catching thousands upon thousands of eels, in the hopes of proving their birthing grounds in the Sargasso Sea. Blending memoir and nature writing at its best, Svensson's journey to understand the eel becomes an exploration of the human condition that delves into overarching issues about our roots and destiny, both as humans and as animals, and, ultimately, how to handle the biggest question of all: death. The result is a gripping and slippery narrative that will surprise and enchant.

Bridges to Scandinavia Andrea Meregalli 2020-01-15 This volume is the final output of a project started in 2013 on the occasion of the fortieth anniversary of the Scandinavian Section of the University of Milan. A group of scholars working on different European and non-European cultural and literary traditions come together here to discuss the relationships between their areas of study and the Nordic countries. The range of the contributions expands over time and space, from the Middle Ages to the present day, from Poland in the east to the United States in the west, across various European countries. Through various kinds of expertise and different perspectives, this intercultural discourse deals with diverse themes, including the perception of Nordic culture(s) by foreign writers as well as the image of other cultures in Scandinavian works. In particular, the literary and cultural interchange of models and ideas between the North and other areas is investigated in a number of essays devoted to numerous authors, including, among others, Klaus Bödl, Carmen de Burgos, Carlo Emilio Gadda, Gerhart Hauptmann, Henrik Ibsen, Stieg Larsson, Carl von Linné, Rainer Maria Rilke, J.D. Salinger, Henryk Sienkiewicz, Mme de Staël, August Strindberg, and Tomas Tranströmer.
