Intermediate Accounting Kin Lo 2016-01-01 Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future. Trust Me, I'm a (Junior) Doctor Max Pemberton 2011-09-01 'Very funny and frank' Independent 'Reads like Scrubs: The Blog ... funny and awful in equal measure' Observer * * * * * The bestselling real life story of a hapless junior doctor, based on his columns written anonymously for the Telegraph. IF YOU'RE GOING to be ill, it's best to avoid the first Wednesday in August. This is the day when junior doctors graduate to their first placements and begin to face having to put into practice what they have spent the last six years learning. Starting on the evening before he begins work as a doctor, this book charts Max Pemberton's touching and funny journey through his first year in the NHS. Progressing from youthful idealism to frank bewilderment, Max realises how little his job is about 'saving people' and how much of his time is taken up by signing forms and trying to figure out all the important things no one has explained yet -- for example, the crucial question of how to tell whether someone is dead or not. Along the way, Max and his fellow fledgling doctors grapple with the complicated questions of life, love, mental health and how on earth to make time to do your laundry. All Creatures Great and Small meets Bridget Jones's Diary, this is a humorous and accessible peek into a world which you'd normally need a medical degree to witness. If you enjoy Trust Me, I'm a (Junior) Doctor, don't miss the follow-up titles Where Does It Hurt? and The Doctor Will See You Now.

Why They Do It Eugene Soltes 2016-10-11 "Rarely does a week go by without a well-known executive being indicted for engaging in a white-collar crime. Perplexed as to what drives successful, wealthy people to risk it all, Harvard Business School professor Eugene Soltes took a remarkable journey deep into the minds of these white-collar criminals, spending seven years in the company of the men behind the largest corporate crimes in history—from the financial fraudsters of Enron, to the embezzlers at Tyco, to the Ponzi schemers Bernie Madoff and Allen Stanford. Drawing on intimate details from personal visits, letters, and phone calls with these former executives, as well as psychological, sociological, and historical research, *Why They Do It* is a breakthrough look at the dark side of the business world. Soltes refutes popular but simplistic explanations of why seemingly successful executives engage in crime. White-collar criminals, he shows, are not merely driven by excessive greed or hubris, nor do they usually carefully calculate the costs and benefits before breaking the law and see it's worth the risk. Instead, he shows that most of these executives make decisions the way we all do—on the basis of their intuitions and gut feelings. The trouble is, these gut feelings are often poorly suited for the modern business world. Based on extensive interaction with nearly fifty former executives—many of whom have never spoken about their crimes—Soltes provides insights into why some saw the immediate effects of misconduct as positive, why executives often don't feel the emotions (angst, guilt, shame) most people would expect, and how acceptable norms in the business community can differ from those of the broader society" --

The Basics of Understanding Financial Statements Mariusz Skonieczny 2012-06-01 The purpose of this book is to help readers understand the basics of understanding financial statements. Material covered includes a step-by-step instruction on how to read and understand the balance sheet, the income statement, and the cash flow statement. It also covers information about how these three statements are interconnected with one another.

An Introduction to Corporate Governance and the SEC K. Fred Skousen 2005 Recent traumatic events in the financial markets, such as the fall of Enron, World Com, and Arthur Andersen, have led to an increased emphasis on corporate governance and on the regulatory bodies overseeing the capital markets and the financial professions. However, educational materials that appropriately highlight the importance of the SEC, as well as the new laws that apply to corporate reporting, ethics, and guidelines for corporate governance, are scarce. Few titles exist that can serve as either a supplement or as a primary text that focus on the SEC as the body for overseeing financial reporting and corporate responsibilities. *An Introduction to Corporate Governance and the SEC*

by Skousen, Glover, and Prawitt fills that role. Use this book as either a supplement or as a primary text to help your students understand the fundamentals of corporate governance and the critical role the SEC plays in the corporate governance process, overseeing the financial reporting of public companies.

Bağımsız Denetim Kadir Dabboğoğlu, Gökberk Can 2018-08-10 6102 sayılı Türk Ticaret Kanunu ile sermaye şirketlerinin gündemine giren denetim, her yıl kapsamı biraz daha genişleterek gerek nitelik gerekse nicelik olarak daha üst düzeyde kitleleri ilgilendirir hale gelmektedir. Ülkemizde hayata geçen denetim düzenleme ve uygulamalarının çok yeni olması nedeniyle ülkemizde bağımsız denetçi insan kaynağı ağırlıklı olarak muhasebe uygulayıcılarından geçişlerle karşılanmıştır. Bu nedenle, muhasebe standartlarının yayınlanması ile birlikte mesleğin icrasında yapısal bir değişikliğe uğrayan uygulayıcılar için denetim

ile birlikte kendilerini güncelleme, geliştirme ve bir nevi evrimleşme süreci de başlamış bulunmaktadır. Uygulayıcı için artık muhasebe sadece mali raporlamadan, denetçi için de sadece vergi denetiminden ibaret değildir. Kitap bu tespitlerin ışığı altında muhasebe-denetim pratisyenlerine ve akademisyenlerine uygulamada bir kaynak olması amacıyla yazılmıştır.
