[The Oxford Handbook of Buddhist Ethics](#) Daniel Cozort 2018 A comprehensive overview of the study of Buddhist ethics in the twenty-first century.

Action Dharma Christopher S. Queen 2003 These essays chart the emergence of a new chapter in an ancient faith - the rise of social service and political activism in Buddhist Asia and the West. Engaged Buddhists have sought new ways to comfort society's oppressed communities.

[Buddhism in the Modern World](#) Steven Heine 2003-09-11 The history of Buddhism has been characterized by an ongoing tension between attempts to preserve traditional ideals and modes of practice and the need to adapt to changing cultural conditions. Many developments in Buddhist history, such as the infusion of esoteric rituals, the rise of devotionism and lay movements, and the assimilation of warrior practices, reflect the impact of widespread social changes on traditional religious structures. At the same time, Buddhism has been able to maintain its doctrinal purity to a remarkable degree. This volume explores how traditional Buddhist communities have responded to the challenges of modernity, such as science and technology, colonialism, and globalization. Editors Steven Heine and Charles S. Prebish have commissioned ten essays by leading scholars, each examining a particular traditional Buddhist school in its cultural context. The essays consider how the encounter with modernity has impacted the disciplinary, textual, ritual, devotional, practical, and socio-political traditions of Buddhist thought throughout Asia. Taken together, these essays reveal the diversity and vitality of contemporary Buddhism and offer a wide-ranging look at the way Buddhism interacts with the modern world.

Introducing Tibetan Buddhism Geoffrey Samuel 2012 "Introducing Tibetan Buddhism is the ideal starting point for students wishing to undertake a comprehensive study of Tibetan religion. This lively introduction covers the whole spectrum of Tibetan religious history, from early figures and the development of the old and new schools of Buddhism to the spread and influence of Tibetan Buddhism throughout the world. Geoffrey Samuel covers the key schools and traditions, as well as Bon, and bodies of textual material, including the writings of major lamas. He explores aspects such as the path to liberation through Sutra and Tantra teachings, philosophy, ethics, ritual, and issues of gender and national identity. Illustrated throughout, the book includes a chronology, glossary, pronunciation guide,

summaries, discussion questions and recommendations for further reading to aid students' understanding and revision"--

Luminous Passage Charles S. Prebish 1999-06-07 "Since the 1960s Buddhism in America has been viewed through the lens of idealism, generally associated with the spiritual quest of baby boomers. This portrayal has been accurate only to a degree. Charles Prebish's *Luminous Passage* is the first account in a new generation of commentary to demonstrate the complexity and variety of this tradition as it establishes roots in this country. This book will surely stand as one of the most comprehensive assessments of Buddhism in the United States at the turn of the millennium."—Richard Seager, Hamilton College

The Buddha's Wizards Thomas Nathan Patton 2018-10-16 Wizards with magical powers to heal the sick, possess the bodies of their followers, and defend their tradition against outside threats are far from the typical picture of Buddhism. Yet belief in wizard-saints who protect their devotees and intervene in the world is widespread among Burmese Buddhists. *The Buddha's Wizards* is a historically informed ethnographic study that explores the supernatural landscape of Buddhism in Myanmar to explain the persistence of wizardry as a form of lived religion in the modern era. Thomas Nathan Patton explains the world of wizards, spells, and supernatural powers in terms of both the broader social, political, and religious context and the intimate roles that wizards play in people's everyday lives. He draws on affect theory, material and visual culture, long-term participant observation, and the testimonies of the devout to show how devotees perceive the protective power of wizard-saints. Patton considers beliefs and practices associated with wizards to be forms of defending Buddhist traditions from colonial and state power and culturally sanctioned responses to restrictive gender roles. The book also offers a new lens on the political struggles and social transformations that have taken place in Myanmar in recent years. Featuring close attention to the voices of individual wizard devotees and the wizards themselves, *The Buddha's Wizards* provides a striking new look at a little-known aspect of Buddhist belief that helps expand our ways of thinking about the daily experience of lived religious practices.

Mindful America Jeff Wilson 2014 Jeff Wilson explores the diverse ways in which the Buddhist-derived practice of mindfulness meditation has been applied in American culture.

How Buddhism Began Richard F. Gombrich 2006-03-07 Written by one of the world's top scholars in the field of Pali Buddhism, this new and updated edition of *How Buddhism Began*, discusses various important doctrines and themes in early Buddhism. It takes 'early Buddhism' to be that reflected in the Pali canon, and to some extent assumes that these doctrines reflect the teachings of the Buddha himself. Two themes predominate. Firstly, the author argues that we cannot understand the Buddha unless we understand that he was debating with other religious teachers, notably Brahmins. The other main theme concerns metaphor, allegory and literalism. This accessible, well-written book is mandatory reading for all serious students of Buddhism.

Teaching Buddhism in the West Victor Sōgen Hori 2002 This book provides a series of thematically arranged articles written by contemporary scholars of Buddhism throughout North America.

Buddhism Charles S. Prebish 2010-11-01

Westward Dharma Charles S. Prebish 2002-12-04 "Like seeds on the wind, Buddhist teachings

continue to reach new lands. This outstanding book brings to light, in rich detail, the current flowering of Buddhism in the West. Long a world religion, Buddhism is now a global one."—Kenneth Kraft, author of *The Wheel of Engaged Buddhism* "Westward Dharma deserves a place on the growing bookshelf of contemporary Buddhist studies. Prebish and Baumann broaden our horizons from North America to the wider Western world, exploring key aspects of Buddhism's most recent geographical and cultural expansion."—Paul David Numrich, coauthor of *Buddhists, Hindus, and Sikhs in America*.

Religion and Human Rights John Witte, Jr. 2011-12-08 This volume examines the relationship between religion and human rights in seven major religious traditions, as well as key legal concepts, contemporary issues, and relationships among religion, state, and society in the areas of human rights and religious freedom.

The A to Z of Buddhism Charles S. Prebish 2005-03-01 With a history spanning more than two-and-a-half millennia, and a geographic scatter that now encompasses the entire planet, Buddhism is one of humankind's most interesting religions, and often perceived to be one of its most mysterious. *The A to Z of Buddhism* provides a marvellous framework for an appreciative understanding of the religion including: 1) The historical evolution of Buddhism; 2) Religious institutions, doctrines, and missionary movements; 3) Important Buddhist scriptures in the Indian, Chinese, and Tibetan traditions; 4) The sacred and historic Buddhist sites; 5) The festivals, rites, and rituals that configure Buddhist religious practice; 6) The manifestation of Buddhism in biography, art, and mythology.

The Life of Buddhism Richard Carp 2000-12-02 Bringing together 15 essays by international Buddhist scholars, this book offers a distinctive portrayal of the life of Buddhism. The contributors focus on a range of religious practices across the Buddhist world, from New York to Tibet.

Early Buddhist Metaphysics Noa Ronkin 2005-02-28 *Early Buddhist Metaphysics* provides a philosophical account of the major doctrinal shift in the history of early Theravada tradition in India: the transition from the earliest stratum of Buddhist thought to the systematic and allegedly scholastic philosophy of the Pali Abhidhamma movement. Entwining comparative philosophy and Buddhology, the author probes the Abhidhamma's metaphysical transition in terms of the Aristotelian tradition and vis-à-vis modern philosophy, exploits Western philosophical literature from Plato to contemporary texts in the fields of philosophy of mind and cultural criticism.

Buddhism in America Richard Hughes Seager 2012 "This well-informed book provides a comprehensive survey of a variety of Buddhist traditions in the contemporary U.S. . . . [its] strength, apart from being a mine of information, is Seager's insistence on taking a historically informed and comparative perspective." - *Religious Studies Review*.

Encyclopedia of Buddhism Damien Keown 2013-12-16 Reflects the current state of scholarship in Buddhist Studies, its entries being written by specialists in many areas, presenting an accurate overview of Buddhist history, thought and practices, most entries having cross-referencing to others and bibliographical references. Contain around 1000 pages and 500,000 words, totalling around 1200 entries.

Original Buddhist Sources Carl Olson 2005 Bringing together essential materials on the origins and development of Buddhist traditions from India, Sri Lanka, Tibet, China, and Japan, this anthology provides the broadest selection of primary source Buddhist literature available to date. The volume is

divided into two major parts: Theravada and Mahayana forms of Buddhism. The first section presents selections that explore major themes in Buddhist thought such as causality, Four Noble Truths, the doctrine of non-self, nibbana, meditation, and ethics, as well as literature about monastic life and regulations, women, and hagiography. The second part includes selections from so-called wisdom literature and texts that represent the three major schools of Mahayana Buddhism: Pure Land, Madhyamika, and Yogacara. Selections also include sources from some of the major Chinese Buddhist schools such as Hua-yen, T'ien T'ai, Pure Land, and Ch'an. Readings by thinkers such as Tantric Buddhist reformer Tsong Khapa, Pure Land leaders Honen, Shinran, and Nichiren, as well as Zen Buddhists Dogen and Hakuin provide a perspective on regional and national traditions. In addition to the general introduction, each major section is introduced by an essay that places the selections within the context of Buddhist history. This comprehensive reader stands on its own as an indispensable anthology of original textual sources for courses in Buddhism, while also serving as a companion volume to the text *The Different Paths of Buddhism: A Narrative-Historical Introduction*.

If You Meet the Buddha on the Road Michael Jerryson 2018-03-27 It is said that the famous ninth century Chinese Buddhist monk Linji Yixuan told his disciples, "If you meet the Buddha on the road, kill him." The deliberately confounding statement is meant to shock people out of complacent ways of thinking. But beyond the purposeful jolt from complacency there is another intention. This axiom suggests that, for liberation, one should seek the Buddha nature that resides within, rather than a mere Buddha exterior. The metaphor of killing the Buddha dislodges a person from the illusion that enlightenment lies outside the body. The proclamation also highlights the power of violence, even on a symbolic level. Violence abounds in Buddhist thoughts, doctrine, and actions, however unacknowledged or misunderstood. *If You Meet the Buddha on the Road* addresses an important absence in the study of religion and violence: the religious treatment of violence. In order to pursue an understanding of the relationship between Buddhism and violence, it is important to first consider how Buddhist scriptures and followers understand violence. Drawing on Buddhist treatments of violence, Michael Jerryson explores the ways in which Buddhists invoke, support, or justify war, conflict, state violence, and gender discrimination. In addition, the book examines the ways in which Buddhists address violence as military chaplains, cope with violence in a conflict zone, and serve as witnesses of blasphemy to Buddhist doctrine and Buddha images.

Contemporary Buddhist Ethics Damien Keown 2013-01-11 This innovative volume brings together the views of leading scholars on a range of controversial subjects including human rights, animal rights, ecology, abortion, euthanasia, and contemporary business practice.

The Buddhist World John Powers 2015-10-05 *The Buddhist World* joins a series of books on the world's great religions and cultures, offering a lively and up-to-date survey of Buddhist studies for students and scholars alike. It explores regional varieties of Buddhism and core topics including buddha-nature, ritual, and pilgrimage. In addition to historical and geo-political views of Buddhism, the volume features thematic chapters on philosophical concepts such as ethics, as well as social constructs and categories such as community and family. The book also addresses lived Buddhism in its many forms, examining the ways in which modernity is reshaping traditional structures, ancient doctrines, and cosmological beliefs.

Mahayana Buddhism Paul Williams 2008-07-11 Originating in India, Mahayana Buddhism spread across Asia, becoming the prevalent form of Buddhism in Tibet and East Asia. Over the last twenty-five years Western interest in Mahayana has increased considerably, reflected both in the quantity of scholarly material produced and in the attraction of Westerners towards Tibetan Buddhism and Zen.

Paul Williams' Mahayana Buddhism is widely regarded as the standard introduction to the field, used internationally for teaching and research and has been translated into several European and Asian languages. This new edition has been fully revised throughout in the light of the wealth of new studies and focuses on the religion's diversity and richness. It includes much more material on China and Japan, with appropriate reference to Nepal, and for students who wish to carry their study further there is a much-expanded bibliography and extensive footnotes and cross-referencing. Everyone studying this important tradition will find Williams' book the ideal companion to their studies.

Buddhist Teaching in India Johannes Bronkhorst 2013-02-08 The earliest records we have today of what the Buddha said were written down several centuries after his death, and the body of teachings attributed to him continued to evolve in India for centuries afterward across a shifting cultural and political landscape. As one tradition within a diverse religious milieu that included even the Greek kingdoms of northwestern India, Buddhism had many opportunities to both influence and be influenced by competing schools of thought. Even within Buddhism, a proliferation of interpretive traditions produced a dynamic intellectual climate. Johannes Bronkhorst here tracks the development of Buddhist teachings both within the larger Indian context and among Buddhism's many schools, shedding light on the sources and trajectory of such ideas as dharma theory, emptiness, the bodhisattva ideal, buddha nature, formal logic, and idealism. In these pages, we discover the roots of the doctrinal debates that have animated the Buddhist tradition up until the present day.

Buddhism, the Internet, and Digital Media Gregory Price Grieve 2014-09-19 Buddhism, the Internet and Digital Media: The Pixel in the Lotus explores Buddhist practice and teachings in an increasingly networked and digital era. Contributors consider the ways Buddhism plays a role and is present in digital media through a variety of methods including concrete case studies, ethnographic research, and content analysis, as well as interviews with practitioners and cyber-communities. In addition to considering Buddhism in the context of technologies such as virtual worlds, social media, and mobile devices, authors ask how the Internet affects identity, authority and community, and what effect this might have on the development, proliferation, and perception of Buddhism in an online environment. Together, these essays make the case that studying contemporary online Buddhist practice can provide valuable insights into the shifting role religion plays in our constantly changing, mediated, hurried, and uncertain culture.

The Faces of Buddhism in America Charles S. Prebish 1998-12-22 The editors bring some of the leading voices in Buddhist studies to examine the debates surrounding contemporary Buddhism's many faces. Race, feminism, homosexuality, psychology, environmentalism, and notions of authority are some of the issues confronting the religion today. 9 photos.

Introducing Buddhism Charles S. Prebish 2009-12-01 Explaining the key teachings and historical development of Buddhism, this student-friendly introduction contains chapters on Engaged Buddhism, Buddhist and War, Buddhism in the Western World and Meditation.

The Nature of Buddhist Ethics Damien Keown 2016-07-27 In this book the author considers data from both early and later schools of Buddhism in an attempt to provide an overall characterization of the structure of Buddhist ethics. The importance of ethics in the Buddha's teachings is widely acknowledged, but the pursuit of ethical ideals has up to now been widely held to be secondary to the attainment of knowledge. Drawing on the Aristotelian tradition of ethics the author argues against this intellectualization of Buddhism and in favour of a new understanding of the tradition in terms of which ethics plays an absolutely central role. In the course of this reassessment many basic concepts such as

karma, nirvana, and the Eightfold Path, are reviewed and presented in a fresh light. The book will be of interest to readers with a background in either Buddhist studies or comparative religious ethics.

Altered States D. E. Osto 2016-04-26 In the 1960s, Americans combined psychedelics with Buddhist meditation to achieve direct experience through altered states of consciousness. As some practitioners became more committed to Buddhism, they abandoned the use of psychedelics in favor of stricter mental discipline, but others carried on with the experiment, advancing a fascinating alchemy called psychedelic Buddhism. Many think exploration with psychedelics in Buddhism faded with the revolutionary spirit of the sixties, but the underground practice has evolved into a brand of religiosity as eclectic and challenging as the era that created it. *Altered States* combines interviews with well-known figures in American Buddhism and psychedelic spirituality—including Lama Surya Das, Erik Davis, Geoffrey Shugen Arnold Sensei, Rick Strassman, and Charles Tart—and personal stories of everyday practitioners to define a distinctly American religious phenomenon. The nuanced perspective that emerges, grounded in a detailed history of psychedelic religious experience, adds critical depth to debates over the controlled use of psychedelics and drug-induced mysticism. The book also opens new paths of inquiry into such issues as re-enchantment, the limits of rationality, the biochemical and psychosocial basis of altered states of consciousness, and the nature of subjectivity.

An Introduction to Buddhist Ethics Peter Harvey 2000-06-22 A systematic introduction to Buddhist ethics aimed at anyone interested in Buddhism.

Buddhism-the EBook Charles S. Prebish 2010

Buddhist Ethics: A Very Short Introduction Damien Keown 2005-06-23 The latter half of the twentieth century witnessed a growing interest in Buddhism, and it continues to capture the imagination of many in the West who see it as either an alternative or a supplement to their own religious beliefs. Numerous introductory books have appeared in recent years to cater for this growing interest, but almost none devotes attention to the specifically ethical dimension of the tradition. For complex cultural and historical reasons, ethics has not received as much attention in traditional Buddhist thought as it has in the West, and publications on the subject are few and far between. Here, Damien Keown, author of *Buddhism: A Very Short Introduction*, illustrates how Buddhism might approach a range of fascinating moral issues ranging from abortion and suicide to cloning. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Introducing Buddhism Charles S. Prebish 2006 The key teachings of Buddhism are explained clearly in this text, and the historical development and spread of the religion is traced from its beginnings.

Buddhism: A Very Short Introduction Damien Keown 1996-10-03 This Very Short Introduction introduces the reader to the teachings of the Buddha and to the integration of Buddhism into daily life. What are the distinctive features of Buddhism? Who was the Buddha, and what are his teachings? How has Buddhist thought developed over the centuries, and how can contemporary dilemmas be faced from a Buddhist perspective? Words such as 'karma' and 'nirvana' have entered our vocabulary, but what do they mean? Damien Keown's book provides a lively, informative response to these frequently asked questions about Buddhism.

The Foundations of Buddhism Rupert Gethin 1998-07-16 In this introduction to the foundations of Buddhism, Rupert Gethin concentrates on the ideas and practices which constitute the common heritage of the different traditions of Buddhism (Thervada, Tibetan and Eastern) which exist in the world today.

Introducing Buddhism Charles S. Prebish 2006 The key teachings of Buddhism are explained clearly in this text, and the historical development and spread of the religion is traced from its beginnings.

The Wealthy Buddhist Rod Burylo 2018-11-08 "The Wealthy Buddhist" discusses the relationship between business, wealth, and morality from a Buddhist perspective: namely, how financial success is more likely to result from a livelihood that seeks to increase happiness and reduce suffering. The book provides practical strategies on how to accomplish your goals without compromising your values.

Race and Religion in American Buddhism Joseph Cheah 2011-10-28 While academic and popular studies of Buddhism have often neglected race as a factor of analysis, the issues concerning race and racialization have remained not far below the surface of the wider discussion among ethnic Buddhists, converts, and sympathizers regarding representations of American Buddhism and adaptations of Buddhist practices to the American context. In *Race and Religion in American Buddhism*, Joseph Cheah provides a much-needed contribution to the field of religious studies by addressing the under-theorization of race in the study of American Buddhism. Through the lens of racial formation, Cheah demonstrates how adaptations of Buddhist practices by immigrants, converts and sympathizers have taken place within an environment already permeated with the logic and ideology of whiteness and white supremacy. In other words, race and religion (Buddhism) are so intimately bounded together in the United States that the ideology of white supremacy informs the differing ways in which convert Buddhists and sympathizers and Burmese ethnic Buddhists have adapted Buddhist religious practices to an American context. Cheah offers a complex view of how the Burmese American community must negotiate not only the religious and racial terrains of the United States but also the transnational reach of the Burmese junta. *Race and Religion in American Buddhism* marks an important contribution to the study of American Buddhism as well as to the larger fields of U.S. religions and Asian American studies.

Buddhism Charles S. Prebish 2003

Destroying Mara Forever John Powers 2010-02-16 A thought-provoking collection of essays on Buddhist ethics by some of the leading thinkers in the field. The reader is provided with engaging explorations of central issues in Buddhist ethics, insightful analyses of the ways Buddhist ethical principles are being applied today in both Asian and Western countries, and groundbreaking proposals about how Buddhist perspectives might inform debates on some of the core ethical issues of the modern world, including consumerism, globalization, environmental problems, war, ethnic conflict, and inter-religious tensions. The leading figure in identifying the field of Buddhist ethics and articulating some of its core issues is Professor Damien Keown of the University of London. This book brings together a group of eminent scholars who have all been influenced by Keown's work and who are also friends and close colleagues. The result is a wonderful volume for those who are struggling with practical issues of ethical concern. This will be a valuable resource in the study of ethics for years to come.

American Buddhism Charles S. Prebish 1979
