Pathways to College Mathematics Robert F. Blitzer 2015-03-26 Bob Blitzer's distinctive and relatable voice motivates students of diverse backgrounds and majors, engaging them in the math through compelling, real-world applications. Pathways to College Mathematics provides a general survey of topics to prepare students for liberal arts math, quantitative reasoning, or introductory statistics. This course offers an alternate path through developmental math, giving students who are going on to a non-STEM college-level course a one-semester alternative to the traditional two-semester algebra course. With a prerequisite of basic math or prealgebra, it's intended to accelerate non-STEM students through their developmental sequence, but can also prepare students for intermediate algebra if they intend to follow a STEM pathway. For all readers interested in college algebra.

**Strategies for Success** Lynn Marecek 2014-05-30 Strategies for Success, Second Edition provides a series of study skills activities designed to foster student success in college mathematics. Lynn Marecek and MaryAnne Anthony-Smith encourage students to take an active approach in determining what they need to do to become successful math students. These proven, class-tested activities have been developed over many semesters from the authors' firsthand experience with their own students. This workbook contains 44 activities, in ready-to-use worksheet format. The activities can be used in several ways—individual work, group work, or large group discussion. They can be used in class or assigned as homework. An accompanying Instructor's Guide is available that contains instructions and implementation strategies for each activity to help instructors easily integrate Strategies for Success into their classes. Some of the topics covered include Notebook Preparation, Reading a Math Textbook, Successful Student Behavior, Time Management, Test Preparation Skills, Study Group Ideas, and much more. The Second Edition also includes several new activities that focus on specific study skills needed by students doing their homework exercises on a computer in online, hybrid, emporium, or redesign formats.
