The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Catch Maverick and Seven's story in *Concrete Rose*, Angie Thomas's powerful prequel to *The Hate U Give*.

The Spider and the Fly Tony DiTerlizzi 2012 "'Will you walk into my parlour,' said the Spider to the Fly..." is easily one of the most recognized and quoted first lines in all of English verse. But do you have any idea how the age-old tale of the Spider and the Fly ends? This enduring verse from Mary Howitt dates back to the nineteenth century, but its warning - to beware the wiles of flattery - remains today as relevant as ever. Now in its tenth year, celebrated artist Tony DiTerlizzi, drawing inspiration from his love of classic Hollywood horror movies of the 1920s and 1930s, shines a cinematic spotlight on Mary Howitt's warning, written to her own children about those who use sweet words to hide their not-so-sweet intentions. Featuring new jacket art and a commemorative poster this special 10th anniversary edition of the quintessential cautionary tale is a must have!

HATE Nadine Strossen 2018-04-02 HATE dispels misunderstandings plaguing our perennial debates about "hate speech vs. free speech," showing that the First Amendment approach promotes free speech and democracy, equality, and societal harmony. We hear too many incorrect assertions that "hate speech" -- which has no generally accepted definition -- is either absolutely unprotected or absolutely protected from censorship. Rather, U.S. law allows government to punish hateful or discriminatory speech in specific contexts when it directly causes imminent serious harm. Yet, government may not punish such speech solely because its message is disfavored, disturbing, or vaguely feared to possibly contribute to some future harm. When U.S. officials formerly wielded such broad censorship power, they suppressed dissident speech, including equal rights advocacy. Likewise, current politicians have attacked Black Lives Matter protests as "hate speech." "Hate speech" censorship proponents stress the potential harms such speech might further: discrimination, violence, and psychic injuries. However, there has been little analysis of whether censorship effectively counters the feared injuries. Citing evidence from many countries, this book shows that "hate speech" laws are at best ineffective and at worst counterproductive. Their inevitably vague terms invest enforcing officials with broad discretion, and predictably, regular targets are minority views and speakers. Therefore, prominent social justice advocates in the U.S. and beyond maintain that the best way to resist hate and promote equality is not censorship, but rather, vigorous "counterspeech" and activism.

So Good They Can't Ignore You Cal Newport 2012-09-18 In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that "follow your passion" is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

Math Exchanges Kassia Omohundro Wedekind 2011 Traditionally, small-group math instruction has been used as a format for reaching children who struggle to

understand. Math coach Kassia Omohundro Wedekind uses small-group instruction as the centerpiece of her math workshop approach, engaging all students in rigorous "math exchanges." The key characteristics of these mathematical conversations are that they are: 1) short, focused sessions that bring all mathematical minds together, 2) responsive to the needs of the specific group of mathematicians, and 3) designed for meaningful, guided reflection. As in reading and writing workshop, students in Kassia's math workshop are becoming self-directed and independent while participating in a classroom community of learners. Through the math exchanges, students focus on number sense and the big ideas of mathematics. Teachers guide the conversations with small groups of students, mediating talk and thinking as students share problem-solving strategies, discuss how math works, and move toward more effective and efficient approaches and greater mathematical understanding. Although grounded in theory and research, Math Exchanges is written for practicing teachers and answers such questions as the following: How can I use a math workshop approach and follow a certain textbook or set of standards? How should I form small groups? and How often should I meet with small groups? What should I focus on in small groups? How can I tell if my groups are making progress? What do small-group math exchanges look like, sound like, and feel like?

CALL for widening participation: short papers from EUROCALL 2020 Karen-Margrete Frederiksen 2020-12-14 Despite the Covid-19 pandemic, the EUROCALL society succeeded in holding the 28th EUROCALL conference, EUROCALL2020, on 20-21 August as an online, two-day gathering. The transition process required to make this happen was demanding and insightful for everyone involved, and, in many ways, a logical consequence of the core content and purpose of EUROCALL. Who would be better suited to transform an onsite conference into an online event than EUROCALL? CALL for widening participation was this year's theme. We welcomed contributions from both theoretical and practical perspectives in relation to the many forms and contexts of CALL. We particularly welcomed longitudinal studies or studies that revisited earlier studies. The academic committee accepted 300 abstracts for paper presentations, symposia, workshops, and posters under this theme; 57 short papers are published in this volume. We hope you will enjoy reading this volume, the first one to reflect a one hundred percent online EUROCALL conference/Online Gathering.

Reading, Thinking, and Writing About History Chauncey Monte-Sano 2014 Although the Common Core and C3 Framework highlight literacy and inquiry as central

goals for social studies, they do not offer guidelines, assessments, or curriculum resources. This practical guide presents six research-tested historical investigations along with all corresponding teaching materials and tools that have improved the historical thinking and argumentative writing of academically diverse students. Each investigation integrates reading, analysis, planning, composing, and reflection into a writing process that results in an argumentative history essay. Primary sources have been modified to allow struggling readers access to the material. Web links to original unmodified primary sources are also provided, along with other sources to extend investigations. The authors include sample student essays from each investigation to illustrate the progress of two different learners and explain how to support students' development. Each chapter includes these helpful sections: Historical Background, Literacy Practices Students Will Learn, How to Teach This Investigation, How Might Students Respond?, Student Writing and Teacher Feedback, Lesson Plans and Materials. Book Features: Integrates literacy and inquiry with core U.S. history topics. Emphasizes argumentative writing, a key requirement of the Common Core. Offers explicit guidance for instruction with classroom-ready materials. Provides primary sources for differentiated instruction. Explains a curriculum appropriate for students who struggle with reading, as well as more advanced readers. Models how to transition over time from more explicit instruction to teacher coaching and greater student independence. "The tools this book provides—from graphic organizers, to lesson plans, to the accompanying documents—demystify the writing process and offer a sequenced path toward attaining proficiency." —From the Foreword by Sam Wineburg, co-author of *Reading Like a Historian* "Assuming literate practice to be at the core of history learning and historical practice, the authors provide actual units of history instruction that can be immediately applied to classroom teaching. These units make visible how a cognitive apprenticeship approach enhances history and historical literacy learning and ensure a supported transition to teaching history in accordance with Common Core State Standards." —Elizabeth Moje, Arthur F. Thurnau Professor, School of Education, University of Michigan "The C3 Framework for Social Studies State Standards and the Common Core State Standards challenge students to investigate complex ideas, think critically, and apply knowledge in real world settings. This extraordinary book provides tried-and-true practical tools and step-by-step directions for social studies to meet these goals and prepare students for college, career, and civic life in the 21st century." —Michelle M. Herczog, president, National Council for the Social Studies

How to Read Like a Writer Mike Bunn When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

Rocks in His Head Carol Otis Hurst 2001-05-08 Some people collect stamps. Other people collect coins. Carol Otis Hurst's father collected rocks. Nobody ever thought his obsession would amount to anything. They said, "You've got rocks in your head" and "There's no money in rocks." But year after year he kept on collecting, trading, displaying, and labeling his rocks. The Depression forced the family to sell their gas station and their house, but his interest in rocks never wavered. And in the end the science museum he had visited so often realized that a person with rocks in his head was just what was needed. Anyone who has ever felt a little out of step with the world will identify with this

true story of a man who followed his heart and his passion.
