Empty Hearts Juli Zeh 2019-08-20 A prescient political and psychological thriller ripped from tomorrow's headlines, by one of Germany's most celebrated contemporary novelists A few short years from now, the world is an even more uncertain place than it is today, and politics everywhere is marching rightward: Trump is gone, but Brexit is complete, as is Frexit. There's a global financial crisis, armed conflict, and mass migration, and an ultrapopulist movement governs in Germany. With their democracy facing the wrecking ball, most well-off Germans turn inward, focusing on their own lives. Britta, a wife, mother, and successful businesswoman, ignores the daily news and concentrates on her family and her work running a clinic specializing in suicide prevention. But her legitimate business is connected to a secret and far more lucrative operation known as The Bridge, an outfit that supplies terrorist organizations looking to employ suicide bombers. Using a complex candidate-identifying algorithm designed by Babak, a brilliant programmer and Britta's only employee, The Bridge has effectively cornered the market, and terrorism never takes place without Britta's services—which is why news of a thwarted suicide attack in Leipzig comes as a shock. Then The Bridge's database is stolen, driving Britta, Babak, and their latest recruit into hiding. On their heels is a new terrorist organization called the Empty Hearts, a group unlike any Britta and Babak have encountered before. Part suspenseful thriller, part wickedly effective social satire, Empty Hearts is a novel for our times, examining urgent questions of morality, politics, and culture and presenting a startling vision of a future where empathy is a thing of the past.

Extraordinary Rendition Ru Freeman 2016-04-02 Sixty-five writers contribute to a groundbreaking anthology on Palestine. This collection brings together the work of sixty-five prominent writers to examine America's culpability in the denial of human rights and dignity to Palestinians in Israel/Palestine and beyond. It includes pieces by writers such as Chana Bloch, Marilyn Hacker, Jane Hirshfield, Colum McCann, Claire Messud, Roger Reeves, George Saunders and Alice Walker. In writing that is always clear, and often startlingly beautiful, they cover a range of issues including the erasure and reconstruction of histories, the examination of identity, the rights, privileges, and responsibilities of speaking out as artists, the conditions of occupation, and the potential for activism. The anthology makes a significant contribution toward an understanding of the ways people of conscience in general, and writers in particular, can take on one of the most pressing political questions of our time.

the renowned My Struggle series, *The Morning Star* is an astonishing, ambitious, and rich novel about what we don't understand, and our attempts to make sense of our world nonetheless. One long night in August, Arne and Tove are staying with their children in their summer house in southern Norway. Their friend Egil has his own place nearby. Kathrine, a priest, is flying home from a Bible seminar, questioning her marriage. Journalist Jostein is out drinking for the night, while his wife, Turid, a nurse at a psychiatric care unit, is on a night shift when one of her patients escapes. Above them all, a huge star suddenly appears blazing in the sky. It brings with it a mysterious sense of foreboding. Strange things start to happen as nine lives come together under the star. Hundreds of crabs amass on the road as Arne drives at night; Jostein receives a call about a death metal band found brutally murdered in a Satanic ritual; Kathrine conducts a funeral service for a man she met at the airport – but is he actually dead? *The Morning Star* is about life in all its mundanity and drama, the strangeness that permeates our world, and the darkness in us all. Karl Ove Knausgaard's astonishing new novel, his first after the My Struggle cycle, goes to the utmost limits of freedom and chaos, to what happens when forces beyond our comprehension are unleashed and the realms of the living and the dead collide.

The Hotel Tito Ivana Bodrožić 2017-11-07 The most powerful autobiographical novel written about the Yugoslav wars. A timely and deeply accessible book that speaks to what it is like to be displaced by war. *Hotel Tito* is an award-winning autobiographical novel of the Serbo-Croatian War. Author Ivana Bodrožić was born in the Croatian town of Vukovar, just across the Danube from Serbia. In the fall of 1991, Vukovar was besieged by the Yugoslav People's Army for eighty-seven days. When the army broke the siege, people came up out of the basements where they'd been sheltering from bombardment; women and children were allowed out of the besieged city, but the army bused 400 men from the hospital to a farm on the outskirts where soldiers and Serbian paramilitaries massacred them. Bodrožić's father was among those taken and murdered. In *Hotel Tito*, after fleeing the war zone their town has become, the mother and two children are housed along with other displaced persons at a former communist school in the village of Kumrovec (the birthplace of Josip Tito). For years they share a single room just large enough for their three beds, waiting to hear whether the narrator's father survived and when they'll be granted an apartment of their own. In the meantime life goes on for the teenage protagonist, first loves bloom and burn quickly, new friendships are acquired and lost, new truths emerge, and new emotions. But she never loses her shy, insightful voice, nor her self-deprecating sense of humor. *Hotel Tito* is a sensitive and forthright coming of age novel in a time of atrocity and loss.

Can Government Do Anything Right? Alasdair Roberts 2018-03-02 Across the Western world, people are angry about the inability of government to perform basic functions competently. With widespread evidence of policy failures at home and ill-conceived wars and interventions abroad, it is hardly surprising that politicians are distrusted and government is derided as a sprawling, wasteful mess. But what exactly is government supposed to do, and is the track record of Western governments really so awful? In this compelling book, leading scholar of public policy and management, Alasdair Roberts, explores what government does well and what it does badly. Political leaders, he explains, have always been obliged to wrestle with shifting circumstances and contending priorities, making the job of governing extraordinarily difficult. The performance of western democracies in recent decades is, admittedly, far from perfect but - as Roberts ably shows - it is also much better than you might think.

Europa28 Asja Bakić 2020-03-12 In collaboration with Hay Festival and Wom@rts. Introduced by Laura Bates, founder of the Everyday Sexism Project. 'To be European,' writes Leïla Slimani, 'is to believe that we are, at once, diverse and united, that the Other is different but equal.' Despite these high ideals, however, there is a growing sense that Europe needs to be fixed, or at the least seriously rethought. The clamour of rising nationalism – alongside widespread feelings of disenfranchisement – needs to be addressed if the dreams of social cohesion, European integration, perhaps even democracy are to be preserved. This anthology brings together 28 acclaimed women writers, artists, scientists and entrepreneurs from across the continent to offer new perspectives on the future of Europe, and how it might be rebuilt. Featuring essays, fictions and short plays, *Europa28* asks what it means to be European today and demonstrates – with clarity and often humour – how women really do see things differently. 'Inspiring, essential, honest and deeply humane... This brilliant collection takes readers on a brave journey into our beloved continent, Europe, daring to tell the stories beyond its centres of power and privilege.' - Elif Shafak

Democracy Temma Kaplan 2015 At a moment when the term "Democracy" is evoked to express inchoate aspirations for peace and social change or particular

governmental systems that may or may not benefit more than a select minority of the population, this book examines attempts from ancient Mesopotamia to the democratic movements of the early twenty-first century to sustain and improve their own lives and those of outsiders who have migrated into territory they regard as their own. Democratic activists have formed organizations to regulate the distribution of water, to restore the environment, and to assure that they and their children will have a future. They have organized their relations with deities and those who held secular power, and they have created particular institutions that they hoped would help them shape a good, free, and creative life for themselves and those who follow. They have also created laws and representative bodies to serve their needs on a regular basis and have written about the difficulties those they have elected to office have maintaining their ties to those who brought them to power in the first place. Since early times, proponents of direct or participatory democracy have come into conflict with the leaders of representative institutions that claim singular power over democracy. Patriots of one form or another have tried to reclaim the initiative to define what democracy should mean and who should manage it. Frequently people in small communities, trade unions, repressed, exploited, or denigrated racial, religious, political, or sexual groups have marched forward using the language of democracy to find space for themselves and their ideas at the center of political life. Sometimes they have re-interpreted the old laws, and sometimes they have formulated new laws and institutions in order to gain greater opportunities to debate the major issues of their time. Whatever conclusions they come to, they are only temporary since changing times require new solutions, assuring that democracy can only survive as a continuous process. As such and as a system of beliefs, democracy has many flaws. But looking cross-culturally and trans-historically, it still seems like democracy still holds promise for improving the lives of all the world's people."
