John Deere Two-Cylinder Collectibles : Collector's Reference Guide Greg Stephen Two classic love stories in a keepsake edition that will heat up your winter! The Winter Soldier Everyone in Jacobsville, Texas, steered clear of taciturn Cy Parks-everyone but the spirited Lisa Monroe, who electrified the formidable loner with her tantalizing kisses. Their fiery passion escalated when the soldier returned from the line of duty-and claimed Lisa as his bride, to shield her from a revenge-seeking desperado. Clearly Cy was getting mighty possessive of this enchanting woman who needed the type of safeguarding only he could provide. But who would protect the beguiling bride from him...! Cattleman's Pride He was strong, seductive and set in his ways. She was shy, unassuming and achingly innocent. Yet when Jordan made it his personal crusade to help Libby hold on to her beloved homestead, everyone in Jacobsville knew it was just a matter of time before wedding bells chimed. But a cattleman's pride was a force to be reckoned with. Could Libby accomplish what no woman had before and tame this Long, Tall Texan's restless heart?

Compact Utility Tractors Dennis David 2013-06-01 Compact Utility Tractors, or CUTs, are cute little cutters! As farming became more refined so did the needs of tractors. The answer was a smaller, more maneuverable and fuel-efficient tractor with a variety of implements and attachments. With this focus on special needs, attachments became available such as plows, disc harrows, mower decks, cultivators, spreaders, snowblowers, and more. They have become a necessary utility for farmers, orchards, small construction jobs, and landscaping/maintenance for estates, parks and golf courses. At the forefront of this evolution was the Farmall Cub and John Deere Model L. Then came the Japanese invasion; a new kind of tractor by companies such as Yanmar and Kubota. These four-wheel drive machines were rugged and tough and used a variety of hydraulically powered attachments. American companies like John Deere, International Harvester, and Massey Ferguson built their own their own four-wheel versions. Today's compact tractors, such as the Kubota BX series, Massey Ferguson's GC series, and the John Deere 3000, offer an even larger selection of implements for special purposes.
