*Chirac, le président aux 5 visages* Xavier Panon 2012-02-08 Même dans ses Mémoires en deux volumes (NiL, 2010-2011), Jacques Chirac s'est finalement peu dévoilé. Mélange de pudeur et de passion pour la vie, plus que pour le passé qui « l'emmerde » et la mort, tôt côtoyée en Algérie. Tactique pour offrir le moins de prises à ce monde féroce où il a dû concilier sa nature chaleureuse et l'instinct du tueur, son bonheur du pouvoir et son goût pour l'aventure. « Bulldozer » de Pompidou, « agité » pour Giscard, « caméléon » pour d'autres qui ne comptent plus les métamorphoses de cet animal politique difficile à cerner. Populaire et élitaire, buveur de bière et de saké, homme du terroir et féru d'arts premiers, adepte du parler cru et du dialogue des cultures, fidèle à Bernadette et plus si affinités... Pour éclairer le vrai Chirac, il faut donc additionner les Chirac connus à ceux qui gardent leurs secrets, inévitables en un demi-siècle de combats et de coups tordus. En cinq parties, Xavier Panon brosse le portrait d'un guerrier, d'un jouisseur, d'un conquérant, d'un président et d'un tiers-mondiste. Un canevas retouché par Michel Rocard, Jean-Pierre Raffarin, Roland Dumas, Marie-France Garaud, Jean-Louis Borloo, Jean-Louis Debré et bien d'autres, dont il a recueilli les confidences...

*Sports Coaching: The Basics* Laura Purdy 2017-10-12 Sports Coaching: The Basics is an engaging and provocative introduction to sports coaching which combines coaches' views and experiences of their work with discussions and topical issues that feature in this fast-growing field. In doing so, coaches are placed at the centre of the discussions relating to philosophical, historical, sociological, psychological and pedagogical interpretations of contemporary practice. Consequently, the book prompts questions such as: What is coaching? What does it mean to be a coach? How do coaches influence athletes/players? How do coaches learn? What is it like to be a coach? In considering these questions, readers are encouraged to reflect upon their experiences of coaching and to start conversations with others about coaches' work. Therefore, the book is of use for coaches, those interested in studying sports coaching, and coach educators or facilitators of coach learning initiatives.

**Mixed Methods Research in the Movement Sciences** Oleguer Camerino 2014-03-01

Mixed methods research techniques, combining both quantitative and qualitative elements, have become well established throughout the social, behavioural and natural sciences. This is the first book to focus on the application of mixed methods research in the movement sciences, specifically in sport, physical education and dance. Researchers and practitioners in each of these fields are concerned with the study of habitual behaviour in naturalistic contexts, and of the concurrent and sequential nature of events and states, precisely the kind of work that multi-method research design can help illuminate. The book is arranged into four sections. The first provides a thorough overview of mixed methods procedures and research design, and summarizes their applicability to the movement sciences. The remaining sections then offer detailed case studies of mixed methods research in team and individual sports (analyzing hidden patterns of play and optimising technique); kinesics and dance (analyzing motor skills behaviour in childhood, and the complexity of motor responses in dance); and physical education (detecting interaction patterns in group situations, and optimizing non-verbal communication by teachers and sports coaches). Mixed Methods Research in the Movement Sciences offers an important new tool for researchers and helps to close the gap between the analysis of expert performance and our understanding of the general principles of movement science. It is important reading for any student, researcher or professional with an interest in motor control, sport and dance pedagogy, coaching, performance analysis or decision-making in sport.

**The Expression of Emotion** Catharine Abell 2016-08-31 The Expression of Emotion collects cutting-edge essays on emotional expression written by leading philosophers, psychologists, and legal theorists. It highlights areas of interdisciplinary research interest, including facial expression, expressive action, and the role of both normativity and context in emotion perception. Whilst philosophical discussion of emotional expression has addressed the nature of expression and its relation to action theory, psychological work on the topic has focused on the specific mechanisms underpinning different facial expressions and their recognition. Further, work in both legal and political theory has had much to say about the normative role of emotional expressions, but would benefit from greater engagement with both psychological and philosophical research. In combining philosophical, psychological, and legal work on emotional expression, the present volume brings these distinct approaches into a productive conversation.

**Apocalypse. Les années Fillon** Gérard Davet 2020-01-15 1 306 400 euros ; soit le montant global des sommes perçues indûment par le couple Fillon depuis 1981, selon les enquêteurs. Cet argent a le goût de la défaite en 2017, pour la droite française. De la débâcle, plutôt. Après La Haine. Les années Sarko,

voici donc le second tome de notre fresque politique, relatant cette fois la période 2014-2019. L'affaire Fillon sera jugée à partir de février 2020, les dossiers Bygmalion, Azibert et d'autres encore suivront bientôt. La droite ne s'en remettra pas, déballage de linge sale garanti. Car tous ces scandales politico-judiciaires sont nés de guerres fratricides, notre enquête l'atteste. Elle est nourrie de témoignages sans filtre, de documents exclusifs et, aussi, de spectaculaires révélations. C'est la fin d'une époque, de fureur et de sang, laissant la droite française vitrifiée. Voyage au cœur des ténèbres. Gérard Davet et Fabrice Lhomme sont grands reporters au journal Le Monde.

**Arts martiaux, sports de combat et interventions psychosociales** Jacques Hébert 2011-04-26T00:00:00-04:00 Confiance, estime et maîtrise de soi : voilà ce que peuvent inculquer les arts martiaux et les sports de combat lorsqu'enseignés dans une perspective psychosociale plutôt que purement technique. Quand la parole s'avère difficile, le corps devient un médiateur crucial pour extérioriser ses émotions et réactiver sa capacité à l'introspection. Sa mise en action canalise l'agressivité dans une voie positive pour faire la paix en soi et autour de soi. Promouvant les arts martiaux et les sports de combat à des fins éducatives, thérapeutiques ou préventives, ce livre contient des récits de pratique témoignant de leur utilisation dans différents milieux (dojo, école, internat, hôpital et centre communautaire) et auprès de diverses populations sans difficulté ou avec difficulté aux plans psychique et relationnel. Les professionnels des sciences humaines, de l'éducation et de la santé y trouveront des moyens de prolonger ou d'amorcer leurs plans d'intervention pour favoriser le mieux-être des personnes. Les enseignants de disciplines martiales y verront des expériences novatrices pour stimuler leurs pratiques. Les parents et les pratiquants y puiseront des informations qui les aideront à choisir une école qui favorise le développement personnel et social.
