White Chocolate Moments Lori Wick 2006-12-15 Beloved author Lori Wick presents a new standalone in the tradition of her bestselling *Sophie's Heart*. After losing her parents, Arcineh Bryant lives with her grandfather as a girl. But growing up without her family causes her to hold resentment toward the man who took her in. Years later, when she meets a man she thinks she may love, she doubts whether she can trust her own heart. A character-rich journey leads Arcineh back to her grandfather's home where there are surprises, questions, and for the first time in her life, an answer to "who will love me forever?" This compelling story about a woman's hunger for acceptance and wholeness points the reader home to God's love.

Inshore Fisheries Management David Symes 2001-12-31 Despite their importance in terms of employment and income generation, inshore fisheries have been a neglected area of study. The review of the common fisheries policy, especially in the light of the need to re-examine the derogation which reserves access to the inshore zone to coastal state vessels, provides an opportunity to redress the balance. With contributions from leading authorities on fisheries management, the book takes an in-depth look at seven European countries, examining the basis for the definition of inshore fisheries, evaluating their status, and describing the salient characteristics of their management. The national studies form the basis for cross-cultural analyses of the social organisation, cultural norms, economic objectives, and institutional structures of inshore fisheries in Europe. Finally, a number of key issues relating to the future of inshore fisheries management in a more integrated approach are examined. Overall the volume reaffirms the invaluable role played by inshore fisheries in the local and regional economies of Europe's complex coastline.

The Ebola Epidemic in West Africa National Academies of Sciences, Engineering, and Medicine 2016-12-30 The most recent Ebola epidemic that began in late 2013 alerted the entire world to the gaps in infectious disease emergency

preparedness and response. The regional outbreak that progressed to a significant public health emergency of international concern (PHEIC) in a matter of months killed 11,310 and infected more than 28,616. While this outbreak bears some unique distinctions to past outbreaks, many characteristics remain the same and contributed to tragic loss of human life and unnecessary expenditure of capital: insufficient knowledge of the disease, its reservoirs, and its transmission; delayed prevention efforts and treatment; poor control of the disease in hospital settings; and inadequate community and international responses. Recognizing the opportunity to learn from the countless lessons of this epidemic, the National Academies of Sciences, Engineering, and Medicine convened a workshop in March 2015 to discuss the challenges to successful outbreak responses at the scientific, clinical, and global health levels. Workshop participants explored the epidemic from multiple perspectives, identified important questions about Ebola that remained unanswered, and sought to apply this understanding to the broad challenges posed by Ebola and other emerging pathogens, to prevent the international community from being taken by surprise once again in the face of these threats. This publication summarizes the presentations and discussions from the workshop.

The Favor of God Jerry Savelle 2012-08-15 The grace of God is often referred to as unmerited favor. In fact, the very meaning of grace is favor. In this extraordinary book written at a time when people need God's favor more than ever, Jerry Savelle shows how the favor of God is not only available to the believer, but also promised. Drawing from his own experience and his deep knowledge of the Scriptures, Dr. Savelle explains how to actively walk and grow in divine favor, and by doing so enjoy the practical as well as the supernatural benefits for such a time as this, when many are living in fear and uncertainty. The Favor of God will not just inspire readers. By God's grace and favor, it will empower them.

The Routledge Handbook of Urbanization and Global Environmental Change Karen C. Seto 2015-12-22 This volume provides a comprehensive overview of the interactions and feedbacks between urbanization and global environmental change. A key focus is the examination of how urbanization influences global environmental change, and how global environmental change in turn influences urbanization processes. It has four thematic foci: Theme 1 addresses the pathways through which urbanization drives global environmental change. Theme 2 addresses the pathways through which global environmental change affects the urban system. Theme 3 addresses the interactions and responses within the urban system in response to global environmental change. Theme 4 centers on critical emerging research.

Write Like this Kelly Gallagher 2011 If you want to learn how to shoot a basketball, you begin by carefully observing someone who knows how to shoot a basketball. If you want to be a writer, you begin by carefully observing the work of accomplished writers. Recognizing the importance that modeling plays in the learning process, high school English teacher Kelly Gallagher shares how he gets his students to stand next to and pay close attention to model writers, and how doing so elevates his students' writing abilities. *Write Like This* is built around a central premise: if students are to grow as writers, they need to read good writing, they need to study good writing, and, most important, they need to emulate good writers. In *Write Like This*, Kelly emphasizes real-world writing purposes, the kind of writing he wants his students to be doing twenty years from now. Each chapter focuses on a specific discourse: express and reflect, inform and explain, evaluate and judge, inquire and explore, analyze and interpret, and take a stand/propose a solution. In teaching these lessons, Kelly provides mentor texts (professional samples as well as models he has written in front of his students), student writing samples, and numerous assignments and strategies proven to elevate student writing. By helping teachers bring effective modeling practices into their classrooms, *Write Like This* enables students to become better adolescent writers. More important, the practices found in this book will help our students develop the writing skills they will need to become adult writers in the real world.

The Merciful Humility of God Jane Williams 2018-12-13 St Augustine's insight was that it is only the merciful humility of God that could penetrate our armoured pride. As we follow this book through Lent and through the Biblical

narrative what begins to emerge is that God's merciful humility is the source of life. The chapters of Jane Williams's book include: 'Humble Beginnings'; 'How to win friends and influence nobody'; 'Reigning from a tree' and 'Risen and ascended into humility'. Her reflective Lent book will be a trusted guide for anyone seeking a deeper understanding of God's humility during this religious period.

Es'kia Es'kia Mphahlele 2002 "The essays and public addresses of scholar, teacher, philosopher, and activist Es'kia Mphahlele are presented in this collection spanning 40 years of recent African history. The intellectual and distinctly South African perspective exhibited in these writings is enriched by humor and autobiographical anecdotes. Subjects addressed include African literature and literary criticism, education in a democratic South Africa, relations between Africans and African Americans, negritude, African identity, and African humanism. A critical introduction, full biography, bibliography, and brief synopsis of each essay are included."

Faith Seeking Understanding Daniel L. Migliore 2004-06-14 Daniel Migliore's Faith Seeking Understanding has been a standard introduction to Christian theology for more than a decade. The book's presentation of traditional doctrine in freshly contemporary ways, its concern to hear and critically engage new voices in theology, and its creative and accessible style have kept it one of the most stimulating, balanced, and readable guides to theology available. This second edition of Faith Seeking Understanding features improvements from cover to cover. Besides updating and expanding the entire text of the book, Migliore has added two completely new chapters. The first, "Confessing Jesus Christ in Context," explores the unique contributions to Christian theology made by recent theologians working in the African American, Asian American, Latin American, Hispanic, feminist, womanist, and mujerista traditions. The second new chapter, "The Finality of Jesus Christ and Religious Pluralism," addresses the growing interest in the relationship of Christianity to other religions and their adherents. Migliore's three delightful theological dialogues are followed by a new appendix, an extensive glossary of theological terms, making the book even more useful to students seeking to understand the history, themes, and challenges of Christian belief.

Global Antimicrobial Resistance Surveillance System World Health Organization 2015-12-15 The Global Antimicrobial Resistance Surveillance System (GLASS) is being developed to support the Global Action Plan on Antimicrobial Resistance and should be coordinated within the national action plans of countries. The goal of GLASS is to enable standardized, comparable and validated data on AMR to be collected, analysed and shared with countries, in order to inform decision-making, drive local, national and regional action and provide the evidence base for action and advocacy. GLASS combines patient, laboratory and epidemiological surveillance data to enhance understanding of the extent and impact of AMR on populations. In view of the challenges of collecting all these data, countries should consider gradual implementation of the surveillance standards proposed in this manual on the basis of their priorities and resources. This manual focuses on early implementation of GLASS, comprising surveillance of resistance in common human bacterial pathogens. The intended readership of this publication is national public health professionals and national health authorities responsible for surveillance of antibacterial resistance in humans. This manual describes the GLASS standards and a road map for evolution of the system between 2015 and 2019. Further development of GLASS will be based on the lessons learned during this period.

With God in the Crucible Peter Storey 2010-09-01 Often the church is accused of being so embedded in the culture that effective prophecy leveled at the culture is impossible. But this book illustrates that there was a time and a place where the church community was faithful to its mission as the body of Christ, as church leaders led, people lifted high the cross, and they marched into the uncertainty that still prevails. Here is a time and place where the call to risky discipleship was answered not with whimpers, whines, and excuses, but with the power of faithful Christians living out their call. This book illustrates what it can mean to faithfully answer the call to discipleship and God's service. Many people wonder if they would be able to stand up for their faith if it meant great personal sacrifice or the sacrifice of people they love. They wonder what they would risk for their faith, if anything. In the United States where cost/benefit analysis is a popular way to assess risk, many Christians wonder if they might not have to stand alone, because too many see the risks as too costly. As suggested by the title, this book draws upon a collection of sermons and addresses given by Peter Storey in a variety of contexts between 1966 and 1993. The original audiences ranged from the all-white Central Methodist Church in Johannesburg, to the South African Council of Churches, to the nation of South Africa, and to the world. All of these sermons and addresses are directly related to specific historical events: security police confrontations, beatings, and tear-gassings in churches around the country of South Africa; an imposed State of Emergency; the murder of 14-year-old Stompie Sepie by Winnie Mandela's thugs; and the violent jockeying for power between Mandela's African National Congress, Chief Mangosutho Buthe's

Inkatha Movement, and F. W. de Klerk's regime. The book offers the full perspective of what it means to speak truth, empower people to stand for the truth, and to pastor souls during times when living truth seems almost impossible. Key Features: 1. Foreword by Desmond Tutu 2. 15 chapters, each including a brief description of the original context, the sermon and its connection with the present, and a prayer 3. Epilogue by Will Willimon

Counselling in Primary Health Care Jane Keithley 2002 There is a fierce debate about the strength of the evidence base to justify allocating scarce healthcare resources to counselling. Counsellors are better trained and accredited, yet fear losing their professional autonomy in a more 'managed' health service. This book will prove a vital resource in this fast growing and hotly debated field for doctors, counsellors and managers involved in planning and providing services in primary care. A comprehensive discussion of how far and in what ways counselling can contribute to the care provided by the primary health care team.

The Fighting Doc John Coey 2015-07-19 It is Saturday afternoon, 19 July 1975, next to a dry riverbed in Rhodesia's northeastern operational area, in a war against communist-backed guerrillas. A Rhodesian combat medic receives an order to descend into the riverbed to attend to two critically wounded troopers, their figures seemingly lifeless on the sand. The whereabouts of the insurgents is not known. As the medic, displaying a red cross, moves in, shots ring out and he sustains a fatal head wound. That medic is 24-year-old American John Alan Coey. Driven by his Christian faith and an ardent belief in the threat of global communist hegemony, Coey had come to Rhodesia to fulfill an overriding passion to help the beleaguered southern African country in its fight against what he perceived to be a communist bid to secure the subcontinent. John was a very complex individual who, right until his death, was in a permanent state of internal conflict as to his mission in life: he wishes he had a wife; he tells young American girls that they must produce strong sons who will fight the good fight; he is disillusioned by his failures; he admits he is a weak leader, virtually offering an apology for his own shortcomings; he vacillates endlessly; he admits to being unable to identify the path he needs to take to achieve his mission. But, finally, as a combat medic-a pioneer in this concept- he finds his much sought-after destiny.

Physical Sciences for NGSS Dr Tracey Greenwood 2020-05 Physical Sciences for NGSS has been specifically written to meet the requirements of the Next Generation Science Standards (NGSS) for High School Physical Sciences (HS-PS). It encompasses all three dimensions of the standards (science and engineering practices, crosscutting concepts, and disciplinary core ideas), addressing the program content through a wide range of engaging student-focused activities and investigations. Through completion of these activities, students build a sound understanding of science and engineering practices, recognize and understand the concepts that link all domains of science, and build the knowledge base required to integrate the three dimensions of the standards to meet the program's performance expectations.

Chen 2016-07-22 Gain a critical understanding of the nature of stress from a positive psychology framework that allows you to look beyond a simple pathology of stress-related symptoms. This new edition of Stress Management and Prevention integrates Eastern and Western concepts of stress while emphasizing an experiential approach to learning through the use of exercises, activities, and self-reflection. This student-friendly text contains chapters on conflict resolution, mindfulness meditation, time management, prevention of health risks, and cognitive restructuring. Included throughout are an emphasis on mindfulness and the neuroscience behind it, more theories, and new techniques for stress reduction and time management. An updated companion website includes even more video-based activities so students can see techniques in practice.

Multimedia '96 Bodo Urban 2012-12-06 In the last few years multimedia hardware and applications have become widely available on PC and workstations. Moreover, through the tremendous development and the wide usage of the World Wide Web multimedia applications have been brought over the network to many people. This book presents the results of the fourth in a well established series of international workshops on Multimedia organized by the EUROGRAPHICS Association, and held from May 28 to 30, 1996, in Rostock, Germany. The workshop had the special topic Multimedia on the Net and was the follow up of the EUROGRAPHICS Symposium and Workshop on Multimedia held in Graz in June 1994. The workshop program consisted of an invited keynote speech and five technical sessions. The fifteen contributions selected for this volume treat topics of particular interest in current research and address actual problems of the use of multimedia in distributed applications over the network. According to the technical sessions they can be roughly structured in the parts concepts for handling multimedia data, still and motion pictures on the net, WWW and multimedia, collaborative multimedia, and multimedia and education. Concepts for handling multimedia data are addressed in two contributions. The first treats a frame based presentation model for distributed information systems (Kirste), the other one presents a temporal logic formalism for specifying navigational transformation in hypermedia applications (Mere et al.).

Talent Talker Yolanda Lacoma 2018-03 Great people developers take an interest

in others, they recognize that they didn't get to where they are on their own, and they want to "pay forward" the time that others have invested in them. Helping others unlock their talent and potential is an enormously rewarding activity, and it doesn't take very much time, just the right attitude. If you look back on your own career and recognize a talent talker in your past, you owe it to them to become one yourself. If you don't see a talent talker in your past, you need to look harder, because no one can make it on their own. Getting managers to have development conversations is one of the most important drivers of unlocking talent and potential in your organisation. This book, and the TalentTalker.com application, makes it easy for any manager to sit down and have a development conversation. Those conversations can be about improving performance, managing a career, developing leadership skills or formulating and executing new business strategies. Talking connects people, people who feel connected are more engaged, engaged people deliver exceptional results.
