**Southland Tales** T/James Reagan 2018-07-04 T/James Reagan has novelized Richard Kelly's 2006 cult film "Southland Tales" into a complete vision of a complex story of power, politics, and porno. The title refers to the Southland, a name used by locals to refer to Southern California and Greater Los Angeles. Set in the then-near future of 2008, as part of an alternate history, the novel is an expanded portrait of Los Angeles, and a satiric commentary on the military–industrial complex and the infotainment industry. Combining the theatrical cut, the Cannes cut, and the graphic prequel novels, T/James Reagan offers his trademark unflinching post-Empire vision on Kelly's ambitious, sprawling narrative. *Critical Path* R. Buckminster Fuller 1982-02-15 The masterwork of a brilliant career, and an important document of the crisis now facing mankind. Today we find ourselves in the midst of the greatest crisis in the history of the human race. Technology has placed in our hands almost unlimited power at the very moment when we have run up against the limits of our resources aboard Spaceship Earth, as the crises of the late twentieth century—political, economic, environmental, and ethical—determine whether or not humanity survives. In this masterful summing up of an entire lifetime's thought and concern, R. Buckminster Fuller addresses these crucial issues in his most significant, accessible, and urgent work. *Critical Path* traces the origins and evolution of humanity's social, political, and economic systems from the obscure mists of prehistory, through the development of the great political empires, to the vast international corporate and political systems that control our destiny today to show how we got to our present situation and what options are available to

man. With his customary brilliance, extraordinary energy, and unlimited devotion, Bucky Fuller shows how mankind can survive, and how each individual can respond to the unprecedented threat we face today. The crowning achievement of an extraordinary career, *Critical Path* offers the reader the excitement of understanding the essential dilemmas of our time and how responsible citizens can rise to meet this ultimate challenge to our future.

*A Psychological Analysis of Adolf Hitler* Walter Langer 2012-11-27 In 1943 William Donovan the director of the Office of Strategic Services (the forerunner to the CIA) approached Harvard psychologist Walter Langer and asked him to construct a psychological profile of Adolf Hitler. Despite his reservations regarding the reliability of the data upon which his analysis would be based, Langer set about this unprecedented task by putting together a team of psychologists and researchers. Langer and his research team had just five months to produce their findings, in which time they interviewed key informants who knew Hitler personally and drew upon over 1000 pages of background research from a document known as *The Hitler Source Book*. In order to try and understand Hitler as a person and the motivations underlying his actions, Langer presents his psychological profile within five specific sections 1. Hitler as he believes himself to be. 2. Hitler as the German people know him. 3. Hitler as his associated know him. 4. Hitler as he knows himself. 5. Psychological analysis and reconstruction. *Freudianism at its Height* In constructing a psychological analysis of Hitler, Langer drew heavily upon the ideas of Sigmund Freud, most notably the developmental influence of early childhood experiences. As such the report provides the reader with a fascinating window into the mechanics of Freudian analysis. Among the issues discussed within this paradigm are: Hitler's character as influenced by his father.

Hitler's mother and her influence. Hitler's attitude towards love, women and marriage. Hitler's early conflicts expressed in symbolic form. The Messiah Complex. Desire for immortality. Hitler's Sexual development. A Classic in The History of Psychology Langer's report on Adolf Hitler not only showcased the dominant discourse of psychological analysis at the time, but it also served as the catalyst for the development of political profiling as a discipline. Psychology Gets Political Without doubt the greatest legacy of Langer's report was the influence it had on the field of political profiling. Dr Jerrold Post cites Langer's analysis of Hitler as the inspiration for the profiling unit he established at the CIA in the 1970s; which would subsequently go on to profile every important world leader up to and including Saddam Hussein. In discussing Langer's psychological profile of Hitler during an interview with the BBC, Post stated: "We must understand the leaders we are contending with - you can't deter optimally a leader you don't understand - and to relegate be it a Hitler or a Joseph Stalin or a Saddam Hussein to a crazy evil madman really degrades our capacity to deal with them optimally because we're not thinking about what pushes them, what makes them tick." While the value of political profiling remains open to question, the seminal importance of Langer's psychological study of Hitler in influencing the discipline is not. A Psychological Analysis of Adolf Hitler has been produced as part of an initiative by the website All About Psychology to make important psychology publications widely available.
