The Modern Maker Mathew Gnagy 2014-07-28 The Modern Maker: Men's Doublets is the culmination of many years of research into historical tailoring. Traditionally, stage and screen costumers make these garments without the detailed stretching and sculpting that is the trademark of an old-world tailor. After examining surviving garments and analyzing tailor's pattern books from the era, The Modern Maker presents a simple, detailed method for making a doublet from around the year 1618. You will learn pattern making, hand sewing stitches, interior structuring, how to make a simple button from the time period as well as how to make a buttonhole by hand. In this book, you will learn the principles of efficient hand work. You will also see detailed photos of surviving garments displaying the techniques that are taught. Many of these images have never before been seen.

**How You Look and Dress** Byrta Carson 1959

Clothing Matters Emma Tarlo 1996-09 What do I wear today? The way we answer this question says

much about how we manage and express our identities. This detailed study examines sartorial style in India from the late nineteenth century to the present, showing how trends in clothing are related to caste, level of education, urbanization, and a larger cultural debate about the nature of Indian identity. Clothes have been used to assert power, challenge authority, and instigate social change throughout Indian society. During the struggle for independence, members of the Indian elite incorporated elements of Western style into their clothes, while Gandhi's adoption of the loincloth symbolized the rejection of European power and the contrast between Indian poverty and British wealth. Similar tensions are played out today, with urban Indians adopting "ethnic" dress as villagers seek modern fashions. Illustrated with photographs, satirical drawings, and magazine advertisements, this book shows how individuals and groups play with history and culture as they decide what to wear.

**The Grace of Four Moons** Pravina Shukla 2015-10-16 Because clothing, food, and shelter are basic human needs, they provide excellent entries to cultural values and individual aesthetics. Everyone gets dressed every day, but body art has not received the attention it deserves as the most common and universal of material expressions of culture. *The Grace of Four Moons* aims to document the clothing decisions made by ordinary people in their everyday lives. Based on fieldwork conducted primarily in the city of Banaras, India, Pravina Shukla conceptualizes and realizes a total model for the study of body art—understood as all aesthetic modifications and supplementations to the body. Shukla urges the study of the entire process of body art, from the assembly of raw materials and the manufacture of objects, through their sale and the interactions between merchants and consumers, to the consumer's use of objects in creating personal decoration.

The Persian Contributions to the English Language Garland Hampton Cannon 2001 The Persian Contributions to the English Language: An Historical Dictionary contains 811 main entries. Its major purpose is to advance the historical study of comprehensive, chiefly lexical borrowing between languages in contact. The ancillary purpose is to show how a collected corpus of loans can shed light on multiple disciplines. This wide-ranging, innovative book is the largest, most up-to-date collection of English words and multiword lexical units borrowed from Persian, directly or through a mediating language such as Hindi/Urdu, Arabic or Turkish. All general English dictionaries were searched, including electronic retrieval from the second edition of the Oxford English Dictionary. A major feature of the tome is that each dictionary entry gives its first known recorded date in written English, its semantic field, any modern variant form and labels, etymology including 'native' meaning(s), English definitions in chronological order as could be dated, any derivative forms including functional shifts and compounds, sometimes a grammatical note, the symbolized sources where the loan is recorded, and the degree of naturalization in English.

**Costumes and Textiles of Royal India** Ritu Kumar 2006 After years of searching through dusty museum collections and royal stores across India, acclaimed designer Ritu Kumar has uncovered many of the last surviving examples of traditional royal clothing. Her book is a celebration of this rich legacy of textiles and craftsmanship. This in-depth study of the evolution of Indian royal costume spans the centuries from the first representations of clothing in ancient India, through the reign of the Mughal emperors and the days of the British Raj, to Indian independence and royalty in the present day. The author covers both men's and women's garments, Hindu and Muslim styles, and documents the evolution of European-Indian fashions. This sumptuous volume is illustrated with a variety of material, much of which has never been published before ranging from archive photographs, miniatures, royal portraits and cinema stills, to detailed images of garments and textiles from as far back as the seventeenth century. A separate section explains in detail the techniques behind the traditional crafts of weaving, dyeing, printing and embroidery, with sketches and patterns illustrating a variety of garments. Specially commissioned photographs of members of royalty wearing their traditional clothes emphasise the colour, shape, ornament and texture of these stunning costumes. This royal family album is supplemented by stories of royal India told to the author by the last Rajmatas who still remember the splendours of courtly life. AUTHOR: Ritu Kumar is one of India's foremost designers, who has developed a unique style combining the ancient traditions of Indian craftsmanship with contemporary innovations. She began her work many years ago in a small village near Calcutta with just four hand-block printers and a couple of tables. 360 colour & 100 b/w illustrations
