Waldo Bien Waldo Bien 1999 Reviewing a renowned Dutch artist's work, this examination shows how Waldo Bien uses a variety of forms of artistic expression. From sculpture and drawing to photography and installations, these images explore the boundaries where history, ecology, geography, and ethnology meet, coming together to create the human experience. This volume is the second comprehensive publication of an artistic complex, arranged by the Free International University, founded in the 1970s by Waldo Bien's teacher, famed German artist Joseph Beuys.

Climax at Gallipoli Rhys Crawley 2014-03-19 Gallipoli: the mere name summons the story of this well-known campaign of the First World War. And the story of Gallipoli, where in August 1915 the Allied forces made their last valiant effort against the Turks, is one of infamous might-have-beens. If only the Allies had held out a little longer, pushed a little harder, had better luck—Gallipoli might have been the decisive triumph that knocked the Ottoman Empire out of the First World War. But the story is just that, author Rhys Crawley tells us: a story. Not only was the outcome at Gallipoli not close, but the operation was flawed from the start, and an inevitable failure. A painstaking effort to set the historical record straight, *Climax at Gallipoli* examines the performance of the Allies' Mediterranean Expeditionary Force from the beginning of the Gallipoli Campaign to the bitter end. Crawley reminds us that in 1915, the second year of the war, the Allies were still trying to adapt to a new form of warfare, with static defense replacing the maneuver and offensive strategies of earlier British doctrine. In the attempt both the MEF at Gallipoli and the British Expeditionary Force on the Western Front aimed for too much—and both failed. To explain why, Crawley focuses on the operational level of war in the campaign, scrutinizing planning, command, mobility, fire support, interservice cooperation, and logistics. His work draws on unprecedented research into the files of military organizations across the United Kingdom and Australia. The result is a view of the Gallipoli Campaign unique in its detail and scope, as well as in its conclusions—a book that looks past myth and distortion to the facts, and the truth, of what happened at this critical juncture in twentieth-century history.

Run, Don't Walk Adele Levine 2015-02-03 M*A*S*H meets Scrubs in a sharply observant, darkly funny, and totally unique debut memoir from physical therapist Adele Levine. In her six years at Walter Reed Army Medical Center, Adele Levine rehabilitated soldiers admitted in worse and worse shape. As

body armor and advanced trauma care helped save the lives—if not the limbs—of American soldiers fighting in Afghanistan and Iraq, Walter Reed quickly became the world leader in amputee rehabilitation. But no matter the injury, physical therapy began the moment the soldiers emerged from surgery. Days at Walter Reed were intense, chaotic, consuming, and heartbreaking, but they were also filled with camaraderie and humor. Working in a glassed-in fishbowl gymnasium, Levine, her colleagues, and their combat-injured patients were on display at every moment to tour groups, politicians, and celebrities. Some would shudder openly at the sight—but inside the glass and out of earshot, the PTs and the patients cracked jokes, played pranks, and compared stumps. With dazzling storytelling, *Run, Don't Walk* introduces a motley array of oddball characters including: Jim, a retired lieutenant-colonel who stays up late at night baking cake after cake, and the militant dietitian who is always after him; a surgeon who only speaks in farm analogies; a therapy dog gone rogue; —and Levine's toughest patient, the wild, defiant Cosmo, who comes in with one leg amputated and his other leg shattered. Entertaining, engrossing, and ultimately inspiring, *Run, Don't Walk* is a fascinating look into a hidden world.

René Guénon, the sinologist René Grousset, and the neo-Thomist Jacques Maritain on questions raised by Ferdinand Ossendowski's thrilling account in his *Men, Beast and Gods* of an escape through Central Asia, during which he foils enemies and encounters shamans and Mongolian lamas, whose marvels he describes. The book caused a great sensation, especially the closing chapters, where Ossendowski recounts legends allegedly entrusted to him concerning the 'King of the World' and his subterranean kingdom Agarttha. The present book, one of Guénon's most controversial, was written in response to this conference and develops the theme of the King of the World from the point of view of traditional metaphysics. Chapters include: Western Ideas about Agarttha; Shekinah and Metatron; The Three Supreme Functions; Symbolism of the Grail; Melki-Tsedeq; Luz: Abode of Immortality; The Supreme Center concealed during the Kali-Yuga; and The Omphalos and Sacred Stones .

Axolotl Roadkill Helene Hegemann 2012 'Horrible lives are a godsend,' writes 16-year-old Mifti in her diary. Since the death of her mother, she has been living in Berlin in an increasingly dire state of disarray. Diagnosed as a 'pseudo stress-debilitated' problem child, she becomes enmeshed in the Berlin party scene, surviving her so called life through a haze of sex, drugs and club culture. What sets Mifti apart is her hypersensitivity and her open, questioning curiosity about an older generation that doesn't seem to be able to care for its children. Torn between genius and madness, she delves into the language of adults, their conventions and toys with what she calls, 'the general decay of their worlds, where the pursuit of prosperity has led to neglect'.

Medical Anthropology Andrea S. Wiley 2009 Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

Marlene C. W. Gortner 2016-05-24 A lush, dramatic biographical novel of one of the most glamorous and alluring legends of Hollywood's golden age, Marlene Dietrich—from the gender-bending cabarets of Weimar Berlin to the lush film studios of Hollywood, a sweeping story of passion, glamour, ambition, art, and war from the author of *Mademoiselle Chanel*. Raised in genteel poverty after the First World War, Maria Magdalena Dietrich dreams of a life on the stage. When a budding career as a violinist is cut short, the willful teenager vows to become a singer, trading her family's proper, middle-class society for the free-spirited, louche world of Weimar Berlin's cabarets and drag balls. With her sultry beauty, smoky voice, seductive silk cocktail dresses, and androgynous tailored suits, Marlene performs to packed houses and becomes entangled in a series of stormy love affairs that push the boundaries of social convention. For the beautiful, desirous Marlene, neither fame nor marriage and motherhood can

cure her wanderlust. As Hitler and the Nazis rise to power, she sets sail for America. Rivaling the success of another European import, Greta Garbo, Marlene quickly becomes one of Hollywood's leading ladies, starring with legends such as Gary Cooper, John Wayne, and Cary Grant. Desperate for her return, Hitler tries to lure her with dazzling promises. Marlene instead chooses to become an American citizen, and after her new nation is forced into World War II, she tours with the USO, performing for thousands of Allied troops in Europe and Africa. But one day she returns to Germany. Escorted by General George Patton himself, Marlene is heartbroken by the war's devastation and the evil legacy of the Third Reich that has transformed her homeland and the family she loved. An enthralling and insightful account of this extraordinary legend, Marlene reveals the inner life of a woman of grit, glamour, and ambition who defied convention, seduced the world, and forged her own path on her own terms.
