Tony Rinaudo Johannes Dieterich 2018-05-25 The Australian agronomist Tony Rinaudo revolutionized reforestation in Africa with Farmer Managed Natural Regeneration (FMNR). His method is based on deploying tree stumps and roots that still grow even in degraded landscapes: thanks to the protection and care of the shoots, the original tree population can be regenerated without major financial costs. The method is now successfully applied in at least 24 African countries. Where the desert was still expanding 20 years ago, farmers reforest large areas with FMNR: in Niger alone seven million hectares of land were already restored in this way. Up to 700 million people will possibly be obliged to leave their homelands during the next three decades because of increasing desertification in the landscapes where they live. In the opinion of scientists, there is only one hope: to convince the local farmers of 'sustainable land management'. Tony Rinaudo believes that with FMNR he has found the appropriate method for such management - and just in time to stop, or even to be able to reverse the destruction of livelihoods.

The Boxing Kings Paul Beston 2017-09-08 For much of the twentieth century, boxing was one of America's most popular sports, and the heavyweight champions were figures known to all. Their exploits were reported regularly in the newspapers—often outside the sports pages—and their fame and wealth

dwarfed those of other athletes. Long after their heyday, these icons continue to be synonymous with the “sweet science.” In *The Boxing Kings: When American Heavyweights Ruled the Ring*, Paul Beston profiles these larger-than-life men who held a central place in American culture. Among the figures covered are John L. Sullivan, who made the heavyweight championship a commercial property; Jack Johnson, who became the first black man to claim the title; Jack Dempsey, a sporting symbol of the Roaring Twenties; Joe Louis, whose contributions to racial tolerance and social progress transcended even his greatness in the ring; Rocky Marciano, who became an embodiment of the American Dream; Muhammad Ali, who took on the U.S. government and revolutionized professional sports with his showmanship; and Mike Tyson, a hard-punching dynamo who typified the modern celebrity. This gallery of flawed but sympathetic men also includes comics, dandies, bookworms, divas, ex-cons, workingmen, and even a tough-guy-turned-preacher. As the heavyweight title passed from one claimant to another, their stories opened a window into the larger history of the United States. Boxing fans, sports historians, and those interested in U.S. race relations as it intersects with sports will find this book a fascinating exploration into how engrained boxing once was in America’s social and cultural fabric.
