Third World Film Making and the West Roy Armes 1987-07-29 This volume is the first fully comprehensive account of film production in the Third World. Although they are usually ignored or marginalized in histories of world cinema, Third World countries now produce well over half of the world's films. Roy Armes sets out initially to place this huge output in a wider context, examining the forces of tradition and colonialism that have shaped the Third World--defined as those countries that have emerged from Western control but have not fully developed their economic potential or rejected the capitalist system in favor of some socialist alternative. He then considers the paradoxes of social structure and cultural life in the post-independence world, where even such basic concepts as "nation," "national culture," and "language" are problematic. The first experience of cinema for such countries has invariably been that of imported Western films, which created the audience and, in most cases, still dominate the market today. Thus, Third World film makers have had to assert their identity against formidable outside pressures. The later sections of the book look at their output from a number of angles: in terms of the stages of overall growth and corresponding stages of cinematic development; from the point of view of regional evolution in Asia, Africa, and Latin America; and through a detailed examination of the work of some of the Third World's most striking film innovators. In addition to charting the broad outlines of filmic developments too little known in Europe and the United States, the book calls into question many of the assumptions that shape conventional film history. It stresses the role of distribution in defining and limiting production, queries simplistic notions of independent "national cinemas," and points to the need to take social and economic factors into account when considering authorship in cinema. Above all, the book celebrates the achievements of a mass of largely unknown film makers who, in difficult circumstances, have distinctively expanded our definitions of the art of cinema. Roy Armes, who lives in London, has written nine books on

film, his most recent being French Cinema. He spent more than three years researching this volume.

**The Political Lives of Information** Janaki Srinivasan 2022-10-04 How the definition, production, and leveraging of information are shaped by caste, class, and gender, and the implications for development. Information, says Janaki Srinivasan, has fundamentally reshaped development discourse and practice. In this study, she examines the history of the idea of "information" and its political implications for poverty alleviation. She presents three cases in India—the circulation of price information in a fish market in Kerala, government information in information kiosks operated by a nonprofit in Puducherry, and a political campaign demanding a right to information in Rajasthan—to explore three uses of information to support goals of social change. Countering claims that information is naturally and universally empowering, Srinivasan shows how the definition, production, and leveraging of information are shaped by caste, class, and gender. Srinivasan draws on archival and ethnographic research to challenge the idea of information as objective and factual. Using the concept of an "information order," she examines how the meaning and value of information reflect the social relations in which it is embedded. She asks why casting information as a tool of development and solution to poverty appeals to actors across the political spectrum. She also shows how the power to label some things information and others not is at least as significant as the capacity to subsequently produce, access, and leverage information. The more faith we place in what information can do, she cautions, the less attention we pay to its political lives and to the role of specific social structures, individual agency, and material form in the defining, production, and use of that information.

He achieves his dream only to be propelled by a series of incidents, grim and absurd, into a slave-like existence herding goats in the middle of the Saudi desert. Memories of the lush, verdant landscape of his village and of his loving family haunt Najeeb whose only solace is the companionship of goats. The Ivory Key Akshaya Raman 2022-01-04 In this epic YA fantasy debut, magic, a prized resource, is the only thing between peace and war. When magic runs out, four estranged royal siblings must find a new source before their country is swallowed by invading forces. The first in an Indian-inspired duology that's perfect for fans of *There Will Come a Darkness*, *The Gilded Wolves*, and *We Hunt the Flame*. Vira, Ronak, Kaleb, and Riya may be siblings, but they've never been close or even liked each other that much. Torn apart by the different paths their lives have taken, only one thing can bring them back together: the search for the Ivory Key, a thing of legend that will lead the way to a new source of magic. Magic is Ashoka's biggest export and the only thing standing between them and war with the neighboring kingdoms—as long as their enemies don't find out that the magic mines are nearly depleted. The siblings all have something to gain from finding the Ivory Key, and even more to lose if they don't. For Vira, the Ivory Key is the only way to live up to the legacy of her mother, the beloved former maharani. Ronak plans to get out of his impending political marriage by selling the Ivory Key to the highest bidder. Kaleb has been falsely accused of assassinating the former maharani, and this is the only way to clear his name. And Riya needs to prove her loyalty to the Ravens, the group of rebels that wants to take control away from the maharani and give it to the people. With each sibling harboring secrets and conflicting agendas, figuring out a way to work together may be the most difficult task of all. And in a quest this dangerous, working together is the only way to survive.

**The Startup Habit** Dr. K C C Nair 2016-05-06 Between 2012 and 2014, the authors of this book met regularly on weekends to discuss the entrepreneurship scene in India and Kerala in particular. We swapped stories of the budding entrepreneurs, their struggles and successes. We worried about the disappointments, cheered the excitements and patiently waited for the turnarounds of the young men and women who had taken the plunge into the exhilarating environment of entrepreneurship. Over the course of several months, from what we saw

firsthand, from what we heard and from what we read, it dawned on us that there is a pattern among the success stories. We began a more structured analysis to see if our hunch was correct. This book is the product of that investigation. We share our realization that more than luck or genius, it is the presence of certain habits that consistently lead to sustained success in the turbulent world of business startup. If you are already on the path to business success, the content will help you fine tune some of the habits. You can look at your own progress from a new perspective. If you have been thinking for a while to get going, let this book be the guide that assists you to acquire the right habits for Startup success. If you are student looking for a safe, salaried job upon graduating, we urge you to read through in order to understand how the business world operates and is fundamentally guided by the entrepreneurial spirit. If you have never thought of being an entrepreneur but have been merely curious, we hope to inspire you to give it a shot, again and again

The Theory of Citrasutras in Indian Painting Isabella Nardi 2007-01-24 The study of technical treatises in Indian art has increasingly attracted much interest. This work puts forward a critical re-examination of the key Indian concepts of painting described in the Sanskrit treatises, called citrasutras. In an in-depth and systematic analysis of the texts on the theory of Indian painting, it critically examines the different ways in which the texts have been interpreted and used in the study of Indian painting, and suggests a new approach to reading and understanding their concepts. Contrary to previous publications on the subject, it is argued that the intended use of such texts as a standard of critique largely failed due to a fundamental misconceptualization of the significance of 'text' for Indian painters. Isabella Nardi offers an original approach to research in this field by drawing on the experiences of painters, who are considered as a valid source of knowledge for our understanding of the citrasutras, and provides a new conceptual framework for understanding the interlinkages between textual sources and the practice of Indian painting. Filling a significant gap in Indian scholarship, Nardi's study will appeal to those studying Indian painting and Indian art in general.

Mappila Muslim Culture Roland E. Miller 2015-04-27 Thorough exploration of the distinct culture of the Mappila Muslims of Kerala, India. This book provides a comprehensive account of the distinct culture of the Mappila Muslims, a large community from the southern Indian state of Kerala. Although they were the first Muslim community in South Asia, the Mappilas are little-known in the West. Roland E. Miller explores the Mappilas' fourteen-century-long history of social adaptation and their current status as a successful example of Muslim interaction with modernity. Once feared, now admired, Kerala's Mappilas have produced an intellectual renaissance and renewed their ancient status as a model of social harmony. Miller provides an account of Mappila history and looks at the formation of Mappila culture, which has developed through the interaction of Islamic and Malayali influences. Descriptions of current day life cycles, religion, ritual, work life, education, and leadership are included.

*Moustache* S. Hareesh 2020-01-31 WINNER OF THE JCB PRIZE FOR LITERATURE 2020. 'A novel of epic dimensions ... easily among the most accomplished fictional works in Malayalam.' K. SATCHIDANANDAN Vavachan is a Pulayan who gets the opportunity to play a policeman with an immense moustache in a musical drama. The character appears in only two scenes and has no dialogue. However, Vavachan's performance, and his moustache, terrify the mostly upper-caste audience, reviving in them memories of characters of Dalit power, such as Ravana. Afterwards, Vavachan, whose people were traditionally banned from growing facial hair, refuses to shave off his moustache. Endless tales invent and reinvent the legend of his magic moustache in which birds roost, which allows its owner to appear simultaneously in different places and disappear in an instant, which grows as high as the sky and as thick as rainclouds -- and turn Vavachan into Moustache, a figure of mythic proportions. Set in Kuttanad, a below-sea-level farming region on the south-west coast of Kerala, the novel is as much a story of this land as it is of Vavachan and its other inhabitants. As they navigate the intricate waterscape, stories unfold in which ecology, power dynamics and politics become key themes. Originally published in Malayalam as *Meesha*, S. Hareesh's *Moustache* is a contemporary classic mixing magic, myth and metaphor into a tale of far-reaching resonance.
