**Melodica for Absolute Beginners. Play by Letter. Learn to Transpose** Helen Winter The Melodica is one of the best educational instruments. The Melodica is light and portable The Melodica develops both keyboard skills and breath control The Melodica is perfect for group play The Melodica works like a clarinet The Melodica plays like a piano The Melodica sounds like a harmonica or an accordion This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. That is why we use an "easy-to-play" visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or have a musical background. No previous knowledge is necessary. None at all. Every song has a large and simple, color and letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There is a total of 22 songs and 3 options to help children to begin to play right away. PLAYING BY COLOR CIRCLE PLAY BY LETTER PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - CIRCLES Mary Had a Little Lamb - Ver 1 - NOTES Level 2. In this part, you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Ver 1 - CIRCLES Hot Cross Buns - Ver 1 - NOTES Hot Cross Buns - Ver 2 - NOTES (Here the player will play songs in a different key and learn to transpose). Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3. Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer, not only Melodica). Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as kalimba, marimba, xylophone, glockenspiel, or even color bell set.

*Never Too Late* John Holt 1991-09-12 "If I could learn to play the cello well, as I thought I could, I could show by my own example that we all have greater powers than we think; that whatever we want to learn or learn to do, we probably can learn; that our lives and our possibilities are not determined and fixed by what happened to us when we were little, or by what experts say we can or cannot do." Best known for his brilliant insight into the way children learn, John Holt was also an intrepid explorer of adult learning. At the age of forty, with no particular musical background, he took up the cello. His touching and hilarious account of his passionate second career demolished the myth that one must start an instrument (or a sport, or a language) in early childhood, and will inspire any reader who dreams of taking up a new skill.

*Piano: Learn To Play The Piano: A Beginners Guide* Michael Shaw 2015-04-25 A Piano Lessons Beginners Guide for Children & Adults. This book is suitable for children and adults who are about to start piano, keyboard or organ lessons. This book is aimed specifically at beginners who want to learn to play a keyboard instrument, this can be piano, electronic keyboard and electric organ. I actually wrote this book for myself to use as a resource when I teach new students how to play the piano. Since every piano keyboard player has had to learn what's in this book, it made sense to create a book that's easy to follow and can easily be shared. This learn to play piano book should be used before you buy a course book, in fact it should be the first book you go to before you start to play the piano. All keyboard players know this information, all piano teachers will teach you the information in this book before giving you sheet music to play. This is not a learn to play in 24 hours book, its not for advanced players, there's no secrets in this book, the info in this book is freely available if you want to search for it. I like to call the info in this piano book "essential information" for students who know nothing about music theory and playing the piano. Here's what's in this book: 01 Note names on the keyboard In this section you will learn all the white notes on a keyboard 02 The staff Here we show what the staff looks like and what symbols you can expect to see in lesson 1. 03 Notes on the staff Here you will learn what the notes are called on the staff. 04 Middle C Here you will find where middle C is on the staff and the keyboard 05 Note values Discover music notes used in lesson 1 with different beat values 06 Hand position Hand shape and position on the keyboard. 07 5 finger exercise This is your first exercise to get those fingers working. 08 Read the notes you are playing Here you will read the notes in the 5-finger exercise. 09 Finger numbers Learn what each fingers number is. 10 Play your first piece of music Here you will play your first piece of music with your right hand Piano teachers can use this book as a teaching aid for new students. Beginners can use this if they want to have a go themselves. I have used the methods outlined in this book for over thirty years teaching my own new students. My name is Michael Shaw, I hope you find this book useful, Good luck with your music. Just by following the circles with letters, you will sound like an experienced musician. We made our sheet music large and as simple as possible. You'll play cool kids songs by circles. No musical staff or notes. Playing music can be as simple and enjoyable as a game. Some songs were adapted for a one-octave instrument. That is why most songs are simplified. Most songs in this sheet music book can be played within one octave on the xylophone using only 8 notes. Several songs need 1.5 or 2 octaves or a 10-15 note xylophone. The 2 last songs require a chromatic xylophone since they have flat notes. For some melodies, we group circles to show the rhythm. Most songs are simple, popular and fanny, some songs are Christian, they are perfectly suitable for a church choir or orchestra. Recommended for ages 3 and up. The Play Piano by Letters book is perfect for the visual learner. Play Piano by Letters is an interesting and fun way for musicians to play well-known songs on the piano. *Little Pianist. Piano Songbook for Kids* Aria Altmann 2021-10 One of the biggest mistakes when someone starts learning to play the piano is playing songs with their index finger instead of using all fingers and both hands. Most piano sheet music for kids has notes for practicing with the right hand only, which encourages the 'plinky-plonk' playing that children should avoid. In this book, however, all songs have treble and bass clef notes for practicing with both hands! So, suppose you are looking for a diverse collection of 55 large print piano songs for children, young learners, or adult students that are simple enough for beginners to play and show letters (note names), numbers (fingerings), and lyrics. In that case, this is the perfect book for you. In this book, you will get: 55 EASY PIANO SONGS FOR KIDS - All songs have been arranged especially for young learners. This means that all complex chords and rhythms have been simplified. Also, all the pieces are kept relatively short, only one or two pages long. This will allow your child to enter the magic world of piano without frustration. FROM EASIEST TO HARDEST - Are you tired of searching for piano pieces with the appropriate difficulty? At the beginning of this book, you will find very simple songs, and then they gradually get more challenging as the book progresses. This will keep your child motivated and enable them to progress through the levels. DIFFERENT TYPES OF SONGS - You will get a diverse selection of pieces: well-known children's songs and nursery rhymes and simplified classical pieces, as well as famous English evergreens and international folk songs. This varied selection of easy sheet music will fuel your kid's enjoyment when practicing the piano. WITH LETTERS AND NUMBERS - The most straightforward songs in this book are presented with letters above the music notes to help you know what keys to press. However, as the pieces get more complex, the note names have been deliberately left out to encourage note recognition. All songs include finger placements (numbers) in problem areas. LARGE PRINT - Most music notes for beginners are pretty small, so learners struggle to read them without squinting. To avoid this, all songs in this book have a clear layout and large print for students to follow the pieces easily. **Let's play the melodica! 28 songs with letter notation for the beginner** Helen Winter This sheet music book was written to help the beginner, be they, child or adult, learn to play music in a simple and easy way that requires no previous knowledge of music. Just by following the circles with letters, you will sound like an experienced musician. Playing music can be effortless and an enjoyable game. There are 3 levels in this book: Level 1 and 2 are for beginners and use circles with letter notation, instead of notes. Level 3 has letter notation and traditional musical notes. Level 1. Songs that are possible to play within the main octave. Level 2. Songs that need to be played in an octave other than the main octave, or songs that involve the flat notes. Now you will need to select the proper note/key by ear. Level 3. These songs have been written for one octave with ordinary "adult" musical notes and symbols. To begin to play right away without any musical knowledge, you just need to obtain and apply the stickers with letter-notation and on each key of your melodica. Most melodicas include these stickers, but you can buy them separately or create your own using common peelable paper stickers.
