Wildlife Trafficking Gian Ege 2020-10-09 "Wildlife trafficking threatens the existence of many plant and animal species and accelerates the destruction of wildlife, forests, and other natural resources. It contributes to environmental degradation, destroys unique natural habitats, and deprives many countries and their populations of scarce renewable resources. Nevertheless, preventing and suppressing the illegal trade in wildlife, animal parts, and plants is presently not a priority in many countries and it remains overlooked and poorly researched. The chapters included in this volume address causes, characteristics, and actors of wildlife trafficking, analyse detection methods, and explore different international and national legal frameworks." Reynolds 2019-06-27 *Great Christian Jurists and Legal Collections in the First Millennium* is a systematic collection of essays describing how Christian leaders and scholars of the first millennium in the West contributed to law and jurisprudence and used written norms and corrective practices to maintain social order and to guide people from this life into the next. With chapters on topics such as Roman and post-Roman law, church councils, the papacy, and the relationship between royal and ecclesiastical authority, as well as on individual authors such as Lactantius, Ambrosiaster, Augustine, Leo I, Gelasius I, and Gregory the Great, this book invites a more holistic and realistic appreciation of early-medieval contributions to the history of law and jurisprudence for entry-level students and scholars alike. *Great Christian Jurists and Legal Collections in the First Millennium* provides a fresh look, from a new perspective, enabling readers to see these familiar authors in a fresh light.
