The Sky's the Limit Anna Magnusson 2017-08-07 There is a myth: that travel and exploration are the privileged pastimes of youth. Adventure has an age restriction, and the extraordinary an expiry date. Vicky Jack's inspiring tale of courage, perseverance and strong-headedness reveals the falsity behind this myth as she becomes the oldest British woman to reach the summit of Mount Everest. The Sky's the Limit is the account of Vicky's journey from the Munros of her native Scotland to the summit of the world's highest peak. Her

pilgrimage is full of trials as she battles through Antarctic storms, falls off Mt McKinley in Alaska, is shot at in Indonesia, and runs out of oxygen on Mt Everest; yet Vicky's characteristic determination is never diluted as she strives towards her goal. Anna Magnusson brilliantly captures Vicky's sense of ambition, faithfully retelling this tale of inspiration, challenge and success. This story is both a reminder to all that it is never too late to chase a childhood ambition, and an encouragement to never give up on your dreams - no matter how out of reach they may seem.

A Handbook of Architectural Styles Albert Rosengarten 1878 The view is essentially that of an academic and classical professor, and one brought up not only in familiarity with the best examples of ancient art, but with the habit of mind which occurs to classic and especially to Greek originals, both as a standard of taste and as models for the architectural treatment of modern works...

Tales from Concrete Jungles David Lindo 2015-06-18 Born and raised in London, David Lindo's passionate interest in the natural world, especially birds, began at an early age. His thriving curiosity opened a door for him into an unexplored world of urban birding. Years later he decided to champion the delights of birding in cities and reinvented himself as the Urban Birder. Using this illustrious alias David Lindo has brought urban birding back into the public consciousness, promoting its virtues at every opportunity and writing about it in the birding press. He urges people to look up when walking around in cities, or to stop and close your eyes in a busy street just to listen to the birds that may be singing. In his second book, David visits some of the world's most unnatural environments, revealing the astonishingly diverse range of wildlife that can be found when you take the time to look. Much more than a compendium of birding sites, each tale follows the Urban Birder in his enthralling pursuit of city birding. Accompanied by dedicated local conservationists and renowned birders, David gives a deeper insight into the true nature of each city. Featuring 70 locations to explore, *Tales from Concrete Jungles* is the perfect book to dip in to when on the move, or to hide away with on a rainy afternoon. Join David in his celebration of nature, pick up travel inspiration, and immerse yourself in his captivating quest for urban birding.

The Dolomites and Their Legends Karl Felix Wolff 2013 The Dolomites, a range of mountains in the Southern Alps, are widely celebrated for their bizarre rock formations, light colour hues, and pristine nature. It is no coincidence that UNESCO declared the Pale Mountains a World Heritage Site and that, every single year, they attract tourists and nature enthusiasts from all around the globe. This enchanting mountain landscape, which is oftentimes cool and forbidding, has left an indelible mark on its inhabitants. Their veritable treasure trove of myths, legends and mystery stories is an integral part of the rich cultural heritage of the Dolomites: the older generation has always passed down this heritage to a wide-eyed audience comprised of both the young and the young-at-heart. This compilation by Karl Felix Wolff (1879-1966), probably the most prominent regional writer-explorer of legends, contains well-known tales like "King Laurin and the Alp-Glow" and "The Kingdom of the Fanes" in addition to lesser known stories such as "The Nightingale of the Sasslong", "Iron Hand" and "Merisana's Wedding". This book is a unique collection on your perspective of the Dolomites. Karl Felix Wolff is born in 1879. It was an elderly nanny from the Fassa Valley who first recounted the Ladin legends to Wolff. He became a journalist and writer, and wandered unceasingly all over the Dolomites in

search of forgotten legends. The importance of Wolff's work in preserving the ancient Ladin myths simply cannot be overstated. He died in Bolzano in 1966.

The Call Of Ice Simone Moro 2014-09-19 * Adventure memoir from a renowned winter climber at the top of his game * Moro reflects on some of his most significant climbs * A bestseller in Italy, this is the first English-language edition of Moro's story Simone Moro is a celebrated Italian alpinist who specializes in winter climbing: He holds the record for first winter ascents of 8000-meter peaks—Shisha Pangma, Makalu, and Gasherbrum II. A passionate climber, he is also an accomplished helicopter pilot and founder of a helicopter rescue program in Nepal. The Call of the Ice was written during Moro's dramatic winter attempt on Nanga Parbat in 2012—his twelfth attempt on that mountain—during weather delays and other breaks in the climb. Moro reflects on past climbs and partners, including the death of his longtime friend and climbing partner, Anatoli Boukreev, on Annapurna, his mourning when Boukreev died, and his subsequent recovery; Denis Urubko and the nature of climbing partnerships; two attempts on Shisha Pangma; Broad Peak; Makalu; and Gasherbrum II, which he, Urubko, and Cory Richards completed in February 2011 despite near-tragic moments when they miraculously escaped after being swept away by an avalanche. Many of Moro's climbs do not result in a summit and he explains why his interest lies in the attempt itself. In addition to these reflections, we relive in real-time his attempt on Nanga Parbat, which he and Urubko had to abandon after 51 days and 6600 meters! "I will go in winter. Again. Yes in winter. Just because it's my dream. Just because exploration never ends." - Simone Moro

body withers and dies. Until recently, the world record for climbing them all stood at nearly eight years. So I announced I was summiting them in under seven months. People laughed. They told me I was crazy, even though I'd sharpened my climbing skills on the brutal Himalayan peaks of Everest and Dhaulagiri. But I possessed more than enough belief, strength and resilience to nail the job, having taken down enemy gunmen and terrorist bomb makers while serving with the Gurkhas and the UK Special Forces. Throughout 2019, I came alive in the death zone. Soon after, I was showing the world a new truth: that with bravery and enough heart and drive, the impossible was possible...

Winter Birds Lars Jonsson 2017-10-19 In this stunning book, Lars Jonsson celebrates and explores the beauty of the birds that surround him during the Swedish winter months. The GR5 Trail Paddy Dillon 2016-01-19 An essential guidebook for walking the GR5, one of the world's most spectacular long-distance trails. The GR5 makes its way through the Alps from the shores of Lac Léman at Geneva to the Mediterranean at Nice. A route of 674km (420 miles), it can be trekked in a month, or split over a series of summer trips. The GR5 is well within the reach of fit and moderately experienced walkers and backpackers. There is good signposting and waymarking, and accommodation, food and drink are all available at regular intervals. The paths and tracks are generally well graded, while steep climbs are tackled on zigzag paths, so the overall gradient is not so severe. Every summer, thousands of walkers embark on this trek. This guidebook also describes some scenic variant routes, including the stunning GR55 through the Vanoise National Park and the delightful GR52 that crosses the Mercantour National Park. Full descriptions and maps are provided for these alternatives. The book includes daily stages, timings, ascents and descents, full-colour mapping and gradient profiles, alongside information about facilities and services along the route. The result is an ideal companion to planning and completing your trek. Two further Cicerone guidebooks cover the remaining sections of the GR5; 'The GR5 Trail - Vosges and Jura', and 'The GR5 Trail - Benelux and Lorraine' which together cover the route from Lac Léman to the Hoek Van Holland.

Reinhold Messner My Life at the - ebook Reinhold Messner 2014-09-19 •*Reveals the long view from an icon who, with age, has added wisdom to his list of accomplishments •*Messner climbing firsts: the world's fourteen peaks taller than 8000 meters; Everest solo; Everest without supplemental oxygen •*Author of more than 60 books Reinhold Messner: My Life at the Limit, the newest book by the famed mountaineer, is a conversation between Messner and interviewer Thomas Hüetlin, an award-winning German journalist. It reveals a more thoughtful and conversational Messner than one finds in his previous books, with the "talk" between Messner and Hüetlin covering not only the highlights of Messner's climbing career, but also his treks across Tibet, the Gobi, and Antarctica; his five-year-stint as a member of the European Parliament; his encounter with and study of the yeti; his thoughts on traditional male/female roles; and much more. Readers learn about Messner's childhood, his thoughts about eating ice cream with girls (against), politics (mostly liberal), and his technique for killing chickens (sharp scissors). Messner is known as one of history's greatest Himalayan mountaineers, a man who pushed back the frontiers of the possible for a whole generation of climbers. While the interest in My Life at the Limit is that it exposes much more of the man than his climbing career, that career is still utterly remarkable—and Mountaineers Books is proud to

present this book, which is core to our mission, to audiences across North America. ***For a limited time, donors to our Legends and Lore series will receive a signed copy of My Life at the Limit. Click here > to learn more.***

Bergwanderungen in Albanien Karl Steinmetz 2016-09-12 Am Ende des 19. und am Anfang des 20. Jahrhunderts war Albanien ein Land, das es zu entdecken galt. Das ewig unruhige Balkanland gehörte noch zu dem in Zerfall begriffenen, großen Osmanischen Reich und war für europäische Reisende nicht einfach zugänglich. Dennoch strömten viele europäische Forscher und Reisende nach Albanien, um den letzten weißen Fleck auf der Karte Europas zu erkunden. Unter ihnen spielte der österreichische Ingenieur Karl Steinmetz eine besondere Rolle. Im Gegensatz zu den meisten Entdeckern und Reisenden war er auf seine Expeditionen gut vorbereitet. Er lernte albanisch, scheinbar gut, und war dadurch in die Lage versetzt, selbstständig kreuz und quer durch die bis dahin schwer zugänglichen Berge zu reisen und mit den angeblich so schießwütigen Einheimischen umzugehen. Diese Ausgabe umfasst die drei Reiseschilderungen des abenteuerlustigen Karl Steinmetz aus den Jahre 1903, 1904 und 1905.
