**TipuSultan- The Tyrant of Mysore** Sandeep Balakrishna 2015-01-28 This book is part of a series of books aimed at disseminating the accurate history of India drawn from the primary sources. History writing, especially about the medieval Muslim rule has been fraught with political correctness, controversy, and in several cases, downright falsification. This has occurred mostly with official state patronage. As a result, any attempts to correct this course has been virulently opposed with the result that most urban-educated Indians have now internalized a politically correct version of Indian history. The history of Tipu Sultan too, stands as a glaring instance of this distorted historical narrative. Indeed, we have seen, read, and heard about a lot of people claiming to be freedom fighters and receiving pensions from the Government. Several of these worthies would not have been born before Independence yet they succeed in

such blatant manipulations. There are instances of portraying certain rulers and chieftains as true heroes who fought against the British Empire. One such ruler happens to be Tipu Sultan. Tipu Sultan is widely known as the Tiger of Mysore. Indeed, the image of Tipu battling a tiger barehanded crosses the mind whenever his name is mentioned. But is this the truth? Was Tipu Sultan truly the warrior as he has been portrayed? What exactly is his record of fighting the British? Was he really a freedom fighter as is widely claimed? Sandeep Balakrishna in this well-researched book, explores both the myths and the truth surrounding Tipu Sultan. A must-read for those who wish to learn the true story of Tipu Sultan.

**Studiare l'architettura** Claudio D'Amato 2015-03-11T00:00:00+01:00 Collana Archinauti diretta da Claudio D'Amato / Archinauti series edited by Claudio D'Amato Questo libro nasce dai corsi di Teoria dell'architettura tenuti dall'autore ininterrottamente dall'AA 1999-2000 ad oggi, ed è rivolto agli studenti italiani che vogliono iscriversi ai corsi di laurea in architettura. È strutturato in due parti: un vademecum, che illustra il nesso fra teoria e progetto in architettura attraverso l'analisi del pensiero occidentale, dall'evo moderno fino alle soglie della rivoluzione informatica del XX secolo (anni Ottanta del Novecento); e un dialogo dell'autore con Paolo Portoghesi sulla natura dell'architettura, sull'insegnamento, sul mestiere, sulla Scuola. Finalità del volume è aiutare i giovani allievi a disegnare mappe culturali in cui posizionarsi nell'epoca della globalizzazione, in cui la straordinaria potenza dei computer e dei software parametrico-variazionali hanno generato, in assenza di modelli culturali sedimentati, un ribaltamento di ruolo, da mezzo a fine dell'azione progettuale. Non è forse fuor di luogo paragonare le giovani (e meno giovani) generazioni di architetti di oggi ad "apprendisti stregoni" incapaci di controllare fino in fondo ciò che il calcolatore è in grado di generare. Una condizione permanente di "fuori controllo", il cui risultato è: il predominio dei nuovi materiali sul linguaggio, la perdita del "filo a piombo" (statica ed estetica si trovano adesso in campi avversi), la preminenza dell'icona rispetto al programma funzionale (destinazione dell'edificio), la dissoluzione dell'oggetto architettonico nel "paesaggio", la atopia, la crisi della tettonica come antefatto logico dell'architettura e l'asservimento della firmitas, della utilitas, della venustas a una "forma predeterminata". Una condizione che la copertina del volume interpreta con la "scomposizione" del frontespizio dell'Essai sur l'Architecture dell'abate Laugier, un invito a ricomporre l'infranto.

*The Assessment of Bilingual Aphasia* Michel Paradis 2014-03-05 The Bilingual Aphasia Test is a comprehensive language test designed to assess the differential loss or sparing of various language functions in previously bilingual individuals. The individual is tested, separately, in each language he or she previously used, and then in the two languages simultaneously. The testing is multimodal -- sampling hearing, speaking, reading, and writing; and multidimensional -- testing various linguistic levels (phonological, morphological, syntactic, lexical, and semantic), tasks (comprehension, repetition, judgment, lexical access and propositionizing), and units (words, sentences, and paragraphs). The BAT is structured as follows: \* To test a bilingual aphasic, you will need the following testing elements: the stimulus books for each of the languages in which the individual was formerly fluent, the single-language tests for each of these languages, as well as the bilingual test that links them. For example, if you are testing an English-French bilingual aphasic, you will need an English stimulus book, a French stimulus book, an English single-language test, a French single-language test, and an English-French bilingual test. \* The BAT can also be used to test monolingual aphasics. To test for monolingual aphasia, you will need the stimulus book and the single-language test in the language in which the individual was formerly fluent. \* Professor Paradis' book, *The Assessment of Bilingual Aphasia*, provides the background material and serves as the manual for the test. The BAT is available in dozens of languages and language pairs. There are now 106 bilingual pairs available. Additional single-language and bilingual tests are being prepared continuously. If the language (or language pair) you need is not listed, please call LEA to find out if and when it will be available. of migratory testimonies, co-produced with people on the move across the Mediterranean during 2015 and 2016, to document how EU policy developments create precarity on the part of those migrating under perilous conditions. The book draws attention to the flawed assumptions embedded within the policy agenda, while also exploring the claims and demands for justice that are advanced by people on the move. Written collectively by a team of esteemed scholars from across multiple disciplines, *Reclaiming migration* makes an important contribution to debates surrounding migration, borders, postcolonialism and the politics of knowledge production.

Law, Migration and Precarious Labour Anastasia Tataryn 2020-11-09 Providing a radical new approach to labour migration, this book challenges the prevailing legal and political construction of the figure of the irregular migrant labourer, whilst at the same time reimagining this irregularity as the basis of an alternative, post-capitalist, sociality. The text draws on the work of contemporary philosopher Jean-Luc Nancy, and more specifically his term 'ecotechnics', in order to examine how economic, political, and juridical norms deny the full legal status of certain people who are deemed to be irregular. This ostensible irregularity is revealed as a regular feature of labour market practice, and a necessary support for the conceptual foundations of capitalist legality. As this book shows, however, this legality – and with it, the technological subordination of life to the circulation of capital as if this were the only possibility for our being in the world – is not insurmountable. The book's consideration of the figure of the irregular migrant labourer comes to provide an alternative basis for reimagining our relationship not only with migration and with labour itself, but ultimately with each other. This powerful analysis of contemporary labour migration is of considerable interest to legal and political theorists, philosophers, labour lawyers, migration experts, and others with theoretical, political, or policy interests in this area.

Activating Psychosocial Local Resources in Territories Affected by War and Terrorism E. Baloch-Kaloianov 2009-08-25 In this publication the necessity of activation and building local resources needed for recovery and development is highlighted at the level of individuals, social systems and structures, social networks, civil society and at the level of the community in general. This combined approach is a solid basis for the efficiency and effectiveness of programs and assures sustainability of outcomes. Mental health and psychosocial functioning of the population in post-conflict times are of crucial importance for the individual and community recovery and development of social capital and for the social and political stability. That is an important reason why mental health and psychosocial programs financed by foreign donors are run in areas affected by war. The bulk of psychosocial activities are aimed at helping people overcome experienced traumas and losses and to cope with post-conflict difficult circumstances. Programs aiming to strengthen the mental health and psychosocial functioning of the population are typically directed towards the groups that are either more easy to access through the school system, such as children and youth, or to severely affected and vulnerable groups, such as veterans, survivors of torture and family losses. Additional reasons for targeting the children and youth are that their developmental stage makes them particularly receptive for positive (and negative) influences; they are the future of every society. This publication will contribute to reducing the gap between declared principles of local capacity building and mobilization of local resources and the reality of psychosocial interventions and consequently to a more efficient use of international funds.

Le figlie delle catastrofi Silvia Vignato 2020-11-02 Che adulti diventano i bambini cresciuti in tempo di catastrofe e ricostruzione? Quali effetti hanno sia il periodo di sofferenza, sia le strategie di salvataggio e sostegno sociale che le società locali mettono in opera per loro? Seguendo le vite di bambine e adolescenti cresciute in Aceh (Indonesia) dopo il terribile tsunami del 2004, alla fine di una lunga guerra civile (1975-2005), questo libro esamina il costituirsi intimo della marginalità sociale attraverso le ideologie e le pratiche di ricostruzione designate a scongiurarla. La povertà economica, la discriminazione di genere, il commercio del corpo sessuale e lo sfruttamento lavorativo di alcune giovani acehnesi appaiono infatti non solo inevitabili, ma proprio strutturali al contesto di distruzione e di riprogettazione sociale nel quale crescono le ragazze. Non si tratta tuttavia di un'etnografia della disperazione. Il libro, frutto di una ricerca decennale, presenta persone capaci di reinterpretare strutture tradizionali e capovolgimenti contemporanei con creatività. Come fanno?, ci si chiede. La riflessione sullo sviluppo di una personalità vitale conduce alla definizione di un "sé mobile", capace di svicolare fra le matrici simboliche trasformative di catastrofe e ricostruzione senza perdersi e senza rinunciare a compiere buone scelte.

Conquest and Community Shahid Amin 2016-09-15 Few topics in South Asian history are as contentious as that of the Turkic conquest of the Indian subcontinent that began in the twelfth century and led to a long period of Muslim rule. How is a historian supposed to write honestly about the bloody history of the conquest without falling into communitarian traps? *Conquest and Community* is Shahid Amin's answer. Covering more than eight hundred years of history, the book centers on the enduringly popular saint Ghazi Miyan, a youthful soldier of Islam whose shrines are found all over India. Amin details the warrior saint's legendary exploits, then tracks the many ways he has been commemorated in the centuries since. The intriguing stories, ballads, and proverbs that grew up around Ghazi Miyan were, Amin shows, a way of domesticating the conquest—recognizing past conflicts and differences but nevertheless bringing diverse groups together into a community of devotees. What seems at first glance to be the story of one mythical figure becomes an allegory for the history of Hindu-Muslim relations over an astonishingly long period of time, and a timely contribution to current political and historical debates.
