Data Tutashkhia □abua Amirejibi 1985

Early Medieval Georgian Monasteries in Historic Tao, Klarjet'i, and Šavšet'i Wachtang Z. Djjobadze 1992

Metaphor and Thought Ortony Andrew 1993-11-26 *Metaphor and Thought*, first published in 1979, reflects the surge of interest in and research into the nature and function of metaphor in language and thought. In this revised and expanded second edition, the editor has invited the contributors to update their original essays to reflect any changes in their thinking. Reorganised to accommodate the shifts in central theoretical issues, the volume also includes six new chapters that present important and influential fresh ideas about metaphor that have appeared in such fields as the philosophy of language and the philosophy of science, linguistics, cognitive and clinical psychology, education and artificial intelligence.

Topics in Cognitive Linguistics Brygida Rudzka-Ostyn 1988-01-01 This volume presents new developments in cognitive grammar and explores its descriptive and explanatory potential with respect to a wide range of language phenomena. These include the formation and use of locationals, causative constructions, adjectival and nominal expressions of oriented space, morphological layering, tense and aspect, and extended uses of verbal predicates. There is also a section on the affinities between cognitive

grammar and early linguistic theories, both ancient and modern.

A Book of Wisdom and Lies Sulxan-Saba Orbeliani 1982

The Man in the Panther's Skin Shota Rustaveli 1912

On a Difficult Path Nebojša Đović 2005

Women, Fire, and Dangerous Things George Lakoff 2008-08-08 "Its publication should be a major event for cognitive linguistics and should pose a major challenge for cognitive science. In addition, it should have repercussions in a variety of disciplines, ranging from anthropology and psychology to epistemology and the philosophy of science. . . . Lakoff asks: What do categories of language and thought reveal about the human mind? Offering both general theory and minute details, Lakoff shows that categories reveal a great deal."—David E. Leary, *American Scientist*
