**The Unity of Plutarch's Work** Anastasios Nikolaidis 2008-12-10 This volume of collected essays explores the premise that Plutarch's work, notwithstanding its amazing thematic multifariousness, constantly pivots on certain ideological pillars which secure its unity and coherence. So, unlike other similar books which, more or less, concentrate on either the Lives or the Moralia or on some particular aspect(s) of Plutarch's œuvre, the articles of the present volume observe Plutarch at work in both Lives and Moralia, thus bringing forward and illustrating the inner unity of his varied literary production. The subject-matter of the volume is uncommonly wide-ranging and the studies collected here inquire into many important issues of Plutarchean scholarship: the conditions

under which Plutarch's writings were separated into two distinct corpora, his methods of work and the various authorial techniques employed, the interplay between Lives and Moralia, Plutarch and politics, Plutarch and philosophy, literary aspects of Plutarch's œuvre, Plutarch on women, Plutarch in his epistemological and socio-historical context. In sum, this book brings Plutarchean scholarship to date by revisiting and discussing older and recent problematization concerning Plutarch, in an attempt to further illuminate his personality and work.

*The First World War from Tripoli to Addis Ababa (1911-1924)* Silvia Bruzzi 2018-10-08 For a long time now it has been common understanding that Africa played only a marginal role in the First World War. Its reduced theatre of operations appeared irrelevant to the strategic balance of the major powers. This volume is a contribution to the growing body of historical literature that explores the global and social history of the First World War. It questions the supposedly marginal role of Africa during the Great War with a special focus on Northeast Africa. In fact, between 1911 and 1924 a series of influential political and social upheavals took place in the vast expanse between Tripoli and Addis Ababa. The First World War was to profoundly change the local balance of power. This volume consists of fifteen chapters divided into three sections. The essays examine the social, political and operational course of the war and assess its consequences in a region straddling Africa and the Middle East. The relationship between local events and global processes is explored, together with the regional protagonists and their agency. Contrary to the myth still prevailing, the First World War did have both immediate and long-term effects on the region. This book highlights some of the significant aspects associated with it.

**Dictionnaire géographique universel, ou, description de tous les lieux du globe sous le rapport de la géographie physique et politique, de l'histoire, de la statistique, du commerce, de l'industrie, etc., etc. ...** 1838

**New Perspectives on Lexical Borrowing** Eline Zenner 2013-11-27 This volume aims to broaden the focus of existing loanword research, which has mainly been conducted from a systemic and structuralist perspective. The eight studies in this volume introduce onomasiological, phraseological, and methodological innovations to the study of lexical borrowing. These new perspectives significantly enhance our understanding of lexical borrowing and provide new insights into contact-induced variation and change.

Sex in Antiquity Mark Masterson 2018-02-05 Looking at sex and sexuality from a variety of historical, sociological and theoretical perspectives, as represented in a variety of media, *Sex in Antiquity* represents a vibrant picture of the discipline of ancient gender and sexuality studies, showcasing the work of leading international scholars as well as that of emerging talents and new voices. Sexuality and gender in the ancient world is an area of research that has grown quickly with often sudden shifts in focus and theoretical standpoints. This volume contextualises these shifts while putting in place new ideas and avenues of exploration that further develop this lively field or set of disciplines. This broad study also includes studies of gender and sexuality in the Ancient Near East which not only provide rich consideration of those areas but also provide a comparative perspective not often found in such collections. *Sex in Antiquity* is a major contribution to the field of ancient gender and sexuality studies.
