**Left-Wing Populism and Feminist Politics** Pablo Castaño 2022-05-26 This book investigates the relation between left-wing populism and feminist politics by analysing three specific aspects. First, whether left-wing populist parties promote gender equality policies, against charges of a general inconsistency between both political projects; Second, how do these parties form their policy-making coalitions in the field of gender equality; Third, how much impact on policy do women's movements have when left-wing populists are in power. The book is focused on the case of Bolivia during the first twelve years of Evo Morales's presidency. The empirical analysis is based on the qualitative content analysis of documents and semi-structured interviews with women's movements' activists, policy-makers and experts in women's movements. The central issue of the book is present throughout the volume, but each empirical chapter can be also read as a semi-autonomous analysis of a specific aspect of the relation between left-wing populism and feminist politics, which increases the interest of the book for different audiences including experts in gender and politics and feminist activists, specialists in Latin American politics, indigenous politics and social movements.

**Gender Approaches in the Translation Classroom** Marcella De Marco 2019-04-08 This volume examines strategies for embedding gender awareness within translation studies and translator training programmes. Drawing on a rich collection of theoretically-informed case studies, its authors provide practical advice and examples on implementing gender-inclusive approaches and language strategies in the classroom. It focuses on topics including, how to develop gender-inclusive practices to challenge students' attitudes and behaviours; whether there are institutional constraints that prevent trainers from implementing non-heteronormative practices in their teaching; and how gender awareness can become an

everyday mode of expression. Positioned at the lively interface of gender and translation studies, this work will be of interest to practitioners and scholars from across the fields of linguistics, education, sociology and cultural studies.

**Los Invisibles** Richard Cleminson 2011-07-01 Research into homosexuality in Spain is in its infancy. The last ten or fifteen years have seen a proliferation of studies on gender in Spain but much of this work has concentrated on women's history, literature and femininity. In contrast to existing research which concentrates on literature and literary figures, "Los Invisibles" focuses on the change in cultural representation of same-sex activity of through medicalisation, social and political anxieties about race and the late emergence of homosexual sub-cultures in the last quarter of the twentieth century. As such, this book constitutes an analysis of discourses and ideas from a social history and medical history position. Much of the research for the book was supported by a grant from the Wellcome Trust to research the medicalisation of homosexuality in Spain.

**El Progreso de las Mujeres en América Latina y el Caribe 2017** United Nations Women 2020-03-11 América Latina y el Caribe se encuentra en una encrucijada de enorme relevancia para el empoderamiento económico de las mujeres. Tras un período de prosperidad, progreso social y consolidación democrática, muchos países están experimentando una desaceleración económica [y algunos incluso recesión], polarización social, desconfianza en los gobiernos y, en ciertos casos, crisis políticas. A este contexto se suman además factores externos tales como la caída de los precios de las materias primas, tendencias proteccionistas, incertidumbre respecto de la evolución del flujo de las remesas y posibles modificaciones en las políticas migratorias. En este contexto, poner el empoderamiento económico de las mujeres en el centro de la agenda pública cobra renovada importancia si el objetivo en la región es erigir economías no solo más prósperas y resilientes, sino también más igualitarias.

Quienes tienen a su cargo la formulación de políticas públicas enfrentan un doble desafío: proteger las conquistas en materia de igualdad de género frente a la desaceleración económica y continuar superando los persistentes obstáculos que se interponen al empoderamiento económico de las mujeres. Los avances registrados por las mujeres de la región a lo largo de las últimas dos décadas son indiscutibles; pero también son innegables las persistentes brechas no solamente entre mujeres y hombres, sino entre las mujeres mismas. Como muestra este informe, tanto las conquistas como los obstáculos al empoderamiento económico de las mujeres reflejan las profundas desigualdades socioeconómicas características de esta región, las cuales se agudizan con algunas dinámicas familiares y con patrones patriarcales y violentos. Estas desigualdades —a su vez fuertemente influenciadas por las diferencias geográficas y de origen étnico— son obstáculos que deben superarse con el fin de lograr el empoderamiento económico de todas las mujeres.

*Neoliberalism and Unequal Development* Fernando López Castellano 2022-04-08 Since the 1970s, neoliberalism has evolved from ideology to political programme, from political programme to public policy, and from public policy to constitutional rule. This process of change has been made possible through the endorsement of an uncritical, a-historical, and apolitical economic theory that legitimized technocratic despotism, financial deregulation, precarious labour, and constitutional-political emptying. This book examines critical perspectives in mainstream neoliberal development analysis. It examines the neoliberal experiment as a global historical construct through the cases of Africa, Latin America, and Europe. The analysis begins in 1980 with the Structural Adjustment Plans in Latin America and Africa, followed in 1990 by Maastricht in the case of Europe and the euphoric shift that

took place, typified by the "Africa Rising" narrative, which attempts to promote the idea of an economically emerging continent. It also considers the weakness of the state resulting from neo-liberal austerity and fiscal stabilization policies, which have amplified the inability to collectively deal with the social, economic, and political impact of the COVID-19 crisis. One of the key features of the book is the extensive comparative analysis between regions, using case studies, including examples from African countries. The authors connect the different regional perspectives, included in the book, in a clear and coherent way, such that it will appeal to students and scholars interested in the social, economic, and political outcomes of globalization and will also be of interest to official development agencies and third sector organizations in Latin America, Sub-Saharan Africa and Europe.

*Gender Transitions Along Borders* Marlene Solis 2016-04-28 In recent decades, women living in border cities have taken on new roles and have become one of the most vulnerable population groups; experiencing the effects of the economic crisis of the early 21st century and the consequent increase in social inequality and violence. This situation is particularly evident for the northern borderlands of Mexico and Morocco. The geopolitical position of these regions is defined by their strong existing asymmetry with their neighbouring countries: the United States, in the case of Mexico, and the Mediterranean European countries, in the case of Morocco. This book contributes to the understanding of current changes in the workplace, in family, in sexuality and sexual violence within the setting of the borderlands, through various studies addressing the manner in which these transformations are interpreted and experienced by women in everyday life and in their individual and collective agency.

**Gender Politics in Transitional Justice** Catherine O'Rourke 2013-08-22 What role do transitional justice processes play in determining the gender outcomes of transitions from conflict and authoritarianism? What is the impact of transitional justice processes on the human rights of women in states emerging from political violence? *Gender Politics in Transitional Justice* argues that human rights outcomes for women are determined in the space between international law and local gender politics. The book draws on feminist political science to reveal the key gender dynamics that shape the strategies of local women's movements in their engagement with transitional justice, and the ultimate success of those strategies, termed 'the local fit'. Also drawing on feminist doctrinal scholarship in international law, 'the international frame' examines the role of international law in defining harms against women in transitional justice and in determining the 'from' and 'to' of transitions from conflict and authoritarianism. This book locates evolving state practice in gender and transitional justice over the past two decades within the context of the enhanced protection of women's human rights under international law. Relying on original empirical and legal research in Chile, Northern Ireland and Colombia, the book speaks more broadly to the study of gender politics and international law in transitional justice.

**The Palgrave International Handbook of Women and Journalism** Carolyn M. Byerly 2016-01-12 Now in paperback for the first time, the Handbook is an academic adaptation of information contained in the Global Report on the Status of Women in News Media, a study commissioned by the International Women's Media Foundation. The book's editor was the principal investigator of the original study. This text draws together the most robust data from that original study, presenting it in 29 chapters on individual nations and three additional theoretical chapters. The book is the most expansive effort to date to consider women's standing in the journalism profession across the world. Contents organize nations in relation to their progress within newsrooms, with those most advanced in gender equality representing diversity in terms of region and national development. Contributing authors are, in most cases, the original researchers for their respective nations in the Global Report study.

**Domestic Violence in International Context** Diana Scharff Peterson 2016-12-19 Domestic violence does not discriminate and is prevalent throughout the world regardless of race, age or socio-economic status. Why, then, do reactions and response differ so widely throughout the world? While some countries work diligently to address the matter through prevention and training, others take a 'hands-off' approach in their response. This book is one of the first to investigate domestic violence on a global scale and provides best practices gleaned from various countries around the world to paint a detailed picture of how police response to domestic violence is currently being conducted and provide training bodies with up-to-date information to enhance current curricula. *Domestic Violence in International Context* brings together expert scholars native to twelve different countries to examine the history and scope of domestic violence and how it is being addressed, repressed or ignored in their thirteen respective countries. Their specialised knowledge and unique data come together to create a series of snapshots that will guide nations, societies and communities worldwide in formulating effective strategies to prevent, intervene and combat this epidemic, and examine partnerships and programmes already in place. This book is essential reading for practitioners, policy makers, and human rights organisations, as well as students and scholars of criminology, social work, sociology and law.

**Children of the Father King** Bianca Premo 2006-05-18 In a pioneering study of childhood in colonial Spanish America, Bianca Premo examines the lives of youths in the homes, schools, and institutions of the capital city of Lima, Peru. Situating these young lives within the framework of law and intellectual history from 1650 to 1820, Premo brings to light the colonial politics of childhood and challenges readers to view patriarchy as a system of power based on age, caste, and social class as much as gender. Although Spanish laws endowed elite men with an authority over children that mirrored and reinforced the monarch's legitimacy as a colonial "Father King," Premo finds that, in practice, Lima's young often grew up in the care of adults--such as women and slaves--who were subject to the patriarchal authority of others. During the Bourbon Reforms, city inhabitants of all castes and classes began to practice a "new politics of the child," challenging men and masters by employing Enlightenment principles of childhood. Thus the social transformations and political dislocations of the late eighteenth century occurred not only in elite circles and royal palaces, Premo concludes, but also in the humble households of a colonial city.

**Discursive Approaches to Sociopolitical Polarization and Conflict** Laura Filardo-Llamas 2021-11-18 This collection explores the discursive strategies and linguistic resources underpinning conflict and polarization, taking a multidisciplinary approach to examine the ways in which conflict is constructed across a diverse range of contexts. The volume is divided into two sections as a means of identifying two different dimensions to conflict construction and bridging the gap between different perspectives through a constructivist framework. The first part comprises chapters looking at sociopolitical conflicts across specific geographic contexts across the US, Europe and Latin America. The second half of the book unpacks sociocultural conflicts, those not defined by physical borders but shaped by ideological differences on core values, such as on religion, gender and the environment. Drawing on frameworks across such fields as linguistics, critical discourse analysis, rhetoric studies and cognitive studies, the book offers new insights into the discursive polarization that permeates contemporary communicative interactions and the ways in which a better understanding of conflict and its origins might serve as a mechanism for providing new ways forward. This book will be of particular interest to students and scholars in critical discourse analysis, linguistics, rhetoric studies and peace and conflict studies.

*Gender Equality in a Global Perspective* Anders Ortenblad 2017-01-06 *Gender Equality in a Global Perspective* looks to discuss whether Gender Equality can be adopted as it has been defined in international documents anywhere, or whether it needs to be adapted in a more local context; discuss which factors and perspectives need to be taken into account when

adapting Gender Equality to specific contexts; suggest research approaches for studies on whether a universal (Western) concept of Gender Equality fits in certain specific contexts; and finally suggests challenges to the existing interpretation of Gender Equality (e.g., theory of intersectionality); and the development of legal and policy framework. This book is situated within the tradition of comparative gender studies. While most other such books take up and compare various ways of implementing (or not implementing) gender equality, this book studies and compares whether or not (and to what extent) a specific definition of Gender Equality (GE) could be adopted by various nations. Thus, all chapter contributors will engage with the same definition of GE, which will be presented within the book, and discuss the possibilities and constraints related to applying such a definition in their particular national context. The readers will learn about the problems of applying a universal concept of Gender Equality and the possible reasons for and modes of adapting Gender Equality to different contexts. Gender Equality in a Global Perspective looks to maintain a critical and reflexive stance towards the issues raised and will seek to present multiple perspectives and open-ended answers. As such it hopes to contribute to the international discussion of human rights more broadly and Gender Equality specifically. The intended audience is not limited only to but will include policy makers, scholars and students with an interest in Gender issues, Organizational Theory, Political Science, Human Development, Policy Analysis, Globalization and other management sub-disciplines.
