Decorative Games Jean-François Bédard 2011 This book features an extraordinary album of ornament designs by the French architect Gilles-Marie Oppenord (1672?1742). For the first time, this publication reproduces in their initial state the embellishments Oppenord drew over the first French edition of Cesare Ripa's Iconologia. In lieu of a haphazard succession of sketches, it reveals Oppenord's fascinating interplay between text, engraved and drawn images, one patterned on the art of conversation and the linguistic games cultivated in elite Parisian circles.

The Games of Fiction David Gascoigne 2006 This book presents the first complete overview in English of the prose fiction of Georges Perec, recognised since his death in 1982 as one of the most influential and innovative French writers of his generation. In particular, it explores in depth the nature of the numerous, and often astonishing, games and ludic devices which he used to generate and develop his material and to draw his readers into a playful interaction with his texts. Moreover this study situates Perec's writings as the culmination of a significant tradition in twentieth-century French writing, that of ludic fiction, whose evolution is traced from Roussel to Ricardou and the Nouveau Roman and Oulipo movements. In so doing, it seeks to answer two important questions: why did ludic writing reach such particular prominence in the 1960s and 1970s? What made its appeal for Georges Perec so special that it came to shape his whole approach to writing, and led this orphan of war and holocaust to invest literary game-playing with such a profound personal and cultural importance?

Issues in International Commercial Law Iwan Davies 2019-06-04 Originally published in 2005. It is now possible to identify, within the discipline of law, a distinct body of international commercial law. This engaging book consists of a wide-ranging series of essays which demonstrates the breadth and scope of the subject matter of international commercial law. Many of the themes identified bridge both national and international commercial law. The volume consists of three parts: Credit and Security; Contractual Issues; International Commercial Regulation. It is evident that international commercial law is concerned with private and public law within which there are particular disciplines ranging from banking law, e-commerce, intellectual property, insolvency and increasingly international regulation through criminal law extending beyond frontiers.

Historicizing the Pan-American Games Bruce Kidd 2018-04-19 The Pan-American Games, begun officially in 1951 in Buenos Aires and held in every region of the western hemisphere, have become one of the largest multi-sport games in the world. 6,132 athletes from 41 countries competed in 48 sports in the 2015 Games in Toronto, Canada. The Games are simultaneously an avenue for the spread of the Olympic Movement across the Americas, a stage for competing ideologies of Pan-American unity, and an occasion for host city infrastructural stimulus and economic development. And yet until this volume, the Games have never been studied as a single entity from a scholarly viewpoint. Historicizing the Pan-American Games presents 12 original articles on the Games. Topics range from the origins of the Games in the period between the world wars, to their urban, hemispheric and cultural legacies, to the policy implications of specific Games for international sport. The entire collection is set against the shifting

economic, social, political, cultural, sporting and artistic contexts of the turbulent western hemisphere. Historicizing the Pan-American Games makes a significant contribution to the literature on major games, Olympic sport and sport in the western hemisphere. This book was previously published as a special issue of *The International Journal of the History of Sport*.
