Toward an Integral Practice of Architecture Richter - Dahl Rocha & Associés 2014-02-06 The task of design is to integrate functional requirements, contextual conditions and technological means into the creation of a work of architectural culture. After twenty years of practice, a team involving Ignacio Dahl Rocha, Kenneth Ross, Christian Leibbrand, Manuela Toscan and others of the Lausanne-based Swiss office of Richter • Dahl Rocha & Associés has undertaken to formulate the knowledge behind their architectural practice in a comprehensive manual. Covering the full span from initial design, building typology, technology to the cooperation with other professions in four extensive sections, this book conveys the concepts, methods and details that constitute the tools of state-of-the-art architectural projects. The material used is completely first-hand, with the technical drawings redrawn to this purpose, coming from projects like the much-acclaimed integral renovation of Nestlé Headquarters, from residential, office and healthcare buildings to the groundbreaking Swiss Tech Convention Center on the Lausanne Polytechnic Campus. Written with the editorial collaboration of Denise Bratton, this book sets new standards for architectural publications as tools for design.

Lunar Science Yann-Henri Chemin 2022-08-25 There are still many open scientific questions about the moon, including whether humans will one day be able to live there. This book looks at the history of the moon's orbit and the prospects of in situ lunar science, the radiation impact on the lunar surface, the resistance of settlement materials on the moon under the conditions of protecting humans on-site, and the preparation of humans for space missions.

Schwarz-Bart: Pluie et Vent sur Télumée Miracle Simone Schwarz-Bart 2015-03-02 Great-granddaughter of Minerve, first woman of the Guadeloupean branch of the Lougandor family to be freed from slavery in 1848, the elderly Telumée tells the story of her own difficult life and that of her ancestors. It is a poor black woman's tale of heroic survival, set in the early 20th century, harsh agrarian environment of a Caribbean island. Through the richly imaged narration of a constantly evolving, cultural significant and always entertaining saga, the author leads the reader into her native West Indian realm of legends, magic, folkloric wisdom and traditional reverence for the elderly and the past. Her protagonist, Telumée, embodies the innate strength and nobility of women in general and of black Caribbean women in particular. Published in 1972, this book received *Elle* magazine's literary prize. This edition reflects the editor's personal acquaintance with the author, and her country. It provides a synthesis of the latest critical studies, and a thorough interpretation of Creole terms, symbolic imagery and a unique cultural background.

Imperial College Sports Grounds and RMC Land, Harlington Andrew B. Powell 2016-02-16 This

volume brings together the results from the excavations at the former Imperial College Sports Ground, RMC Land and Land East of Wall Garden Farm, near the villages of Harlington and Sipson in the London Borough of Hillingdon. The excavations revealed parts of an archaeological landscape with a rich history of development from before 4000 BC to the post-medieval period. The opportunity to investigate two large areas of this landscape provided evidence for possible settlement continuity and shift over a period of 6000 years. Early to Middle Neolithic occupation was represented by a rectangular ditched mortuary enclosure and a large spread of pits, many containing deposits of Peterborough Ware pottery, flint and charred plant remains. A possible dispersed monument complex of three hengiform enclosures was associated with the rare remains of cremation burials radiocarbon dated to the Middle Neolithic. Limited Late Neolithic and Early Bronze Age activity was identified, which is in stark contrast to the Middle to Late Bronze Age when a formalized landscape of extensive rectangular fields, enclosures, wells and pits was established. This major reorganized land division can be traced across the two sites and over large parts of the adjacent Heathrow terraces. A small, Iron Age and Romano-British nucleated settlement was constructed, with associated enclosures flanking a trackway. There were wayside inhumations, cremation burials and middens and more widely dispersed wells and quarries. Two possible sunken-featured buildings of early Saxon date were found. There was also a small cemetery. Subsequently, a middle Saxon and medieval field system of small enclosures and wells was established.

Habitations et Milieu de Vie John Miron 1994-04-12 Les collaborateurs identifient certains critères importants pour l'évaluation de la situation actuelle et future dans le domaine du logement, précisent les questions et priorités de la recherche en matière de logement et signalent certaines questions de politique qui se dessinent. Les articles sont répartis en six sections: facteurs économiques, démographiques et institutionnels sous-jacents à la demande de logements au cours de la période de l'après-guerre; principaux aspects de l'offre de logements, et notamment financement, technologie et réglementation; croissance du parc immobilier et modifications de la qualité des logements; équilibre entre l'offre et la demande compte tenu de ce qui est suffisant, convenable et abordable; évolution de l'environnement des lieux habités; leçons, défis et questions pour l'avenir. L'ouvrage contient également certains résumés utiles des mesures prises entre 1945 et 1986 en matière de politiques de logement. Document de référence essentiel sur le logement urbain et le développement des villes au cours de la période d'après-guerre au Canada, *Habitations et milieu de vie* sera apprécié des universitaires, des planificateurs, des professionnels et des étudiants qui s'intéressent aux questions de logement.
