No Other Duke Will Do Grace Burrowes 2017-11-07 In this "exquisite gem from a master" of Regency Romance, one duke's plan to find a bride makes for a most entertaining house party (Library Journal). Julian St. David, Duke of Haverford, is barely keeping his head above water in a sea of inherited debts. Though he has a long-term plan to restore the family finances, his sister has a much faster solution: host a house party for London's single young ladies and find Julian a wealthy bride. Elizabeth Windham has no interest in marriage, but a recent scandal has forced her hand. As much as she'd rather be reading Shakespeare than husband-hunting, she has to admit she's impressed by Julian's protective instincts, broad shoulders, and, of course, his vast library. As the two spend more time together, their attraction is overwhelming, unexpected...

and absolutely impossible. With meddling siblings, the threat of financial ruin, and gossips lurking behind every potted palm, will they find true love or true disaster? "Smart, sexy, and oh-so-romantic." -- Mary Balogh "Grace Burrowes is a romance treasure." -- Tessa Dare

Marino Sanudo Torsello, The Book of the Secrets of the Faithful of the Cross Peter Lock 2016-05-06 This is the first full translation of Marino Sanudo Torsello's *Secreta fidelium Crucis* to be made into English. The work itself is a piece of crusading propaganda following the fall of Acre in 1291, written between 1300 and 1321, but it includes much of historical relevance along with interesting observations on the early history of Jerusalem and the Crusader Kingdom. The translation is based upon the text edited by Jacques Bongars in 1611. There is an introduction that contextualises the book, its author, his sources and his audience. The notes provide essential information to clarify internal textual references and allusions, as well as the role of Biblical references in Sanudo's grand design. The index is designed to make this detailed text usable and accessible. In this, his major work, Sanudo advocated the conquest of Egypt as the means to regain Jerusalem for the Latins and worked through his points with considerable detail alongside references to 13th-century Mediterranean history, especially involving Louis IX of France and Charles of Anjou, king of Naples. Books I and II give considerable detailed discussion of the concept, plan and costs of his proposed crusade. Book III provides an outline history of the crusades and the crusader states. It is derived from a wide-reading of other sources especially of William of Tyre, and, for events after 1184 on the Eracles, the letters of James of Vitry, and Sanudo's own experiences in the east. Throughout, the work contains a staggering amount of cartographical, ethnographical, geographical, and nautical information, as well as numerous unique insights into historical events and personalities of the late 13th century, not only in Outremer but in Western Europe.

Eleven Days Lea Carpenter 2013-06-18 Powerful and lean, *Eleven Days* is an astonishing first novel full of suspense that addresses our most basic questions about war as it tells of the love between a mother and her son. When the story opens on May 11, 2011, Sara's son, Jason, has been missing for nine days from a Special Operations Forces mission on the same night as the Bin Laden raid. Smart, young, and bohemian, Sara had dreams of an Ivy League university for Jason that were not out of reach, followed by a job on the Hill where there were connections through his father. The events of 9/11 changed Jason's mind and Sara accepted that, steeping herself in all things military to better understand her son's days, while she works as a freelance editor for Washington policy makers and wonks. Now she knows nothing more about Jason's fate than the crowds of well-wishers and media camped out in the driveway in front of her small farmhouse in Chadds Ford, Pennsylvania, waiting to hear news. In a series of flashbacks we learn about Jason's dashing absentee father, a man who said he was a writer but whose career seemed to involve being in faraway places. And through letters Jason writes home from his training and early missions, we get a picture of a strong, compassionate leader who is wise beyond his years and modest about his abilities. Those exceptional abilities will give Jason the chance to participate in a wholly different level of assignment, the most important and dangerous of his career. At the end Sara will find herself on an unexpected journey full of surprise. This is a haunting narrative about a mother's bond with her son; about life choices; about the military, war, and service to one's country. Lea Carpenter, a dazzling new talent with the kind of strong and distinctive voice that comes along all too rarely, has given us a thrilling and unforgettable story. This eBook edition includes a Reading Group Guide.

London Orbital Iain Sinclair 2003-10-02 A brilliant voyage of discovery into the deeply unfashionable fringes of London. 'It isn't often that one reads a book and is convinced that it's an instant classic, but I'm sure that *LONDON ORBITAL* will be read 50 years from now. This account of his walk around the M25 is on one level a journey into the heart of darkness, that terrain of golf courses, retail parks and industrial estates which is Blair's Britain. It's a fascinating snapshot of who we are, lit by Sinclair's vivid prose, and on another level a warning that the mythological England of village greens and cycling aunts has been buried under the rush of a million radial tyres' J. G. Ballard, *Observer*

The Code of Trust Robin Dreeke 2017-08-08 A counterintelligence expert shows readers how to use trust to achieve anything in business and in life. Robin Dreeke is a 28-year veteran of federal service, including the United States Naval Academy, United States Marine Corps. He served most recently as a senior agent in the FBI, with 20 years of experience. He was, until recently, the head of the Counterintelligence Behavioral Analysis Program, where his primary mission was to thwart the efforts of foreign spies, and to recruit American spies. His core approach in this mission was to inspire reasonable, well-founded trust among people who could provide valuable information. The Code of Trust is based on the system Dreeke devised, tested, and implemented during years of field work at the highest levels of national security. Applying his system first to himself, he rose up through federal law enforcement, and then taught his system to law enforcement and military officials throughout the country, and later to private sector clients. The Code of Trust has since elevated executives to leadership, and changed the culture of entire companies, making them happier and more productive, as morale soared. Inspiring trust is not a trick, nor is it an arcane art. It's an important, character-building endeavor that requires only a sincere desire to be helpful and sensitive, and the ambition to be more successful at work and at home. The Code of Trust is based on 5 simple principles: 1) Suspend Your Ego 2) Be Nonjudgmental 3) Honor Reason 4) Validate Others 5) Be Generous To be successful with this system, a reader needs only the willingness to spend eight to ten hours learning a method of trust-building that took Robin Dreeke almost a lifetime to create.

Francisco Jerónimo de León Nuria Verdet Martínez 2014-10-06 La trayectoria vital de Francisco Jerónimo de León estuvo marcada por su formación jurídica y su vocación de servicio a la corona. Como resultado de su experiencia en la judicatura de la más alta instancia compuso una vastísima obra de jurisprudencia doctrinal -Decisiones Sacrae Regiae Audientiae Valentinae-, publicada en tres volúmenes. La relevancia alcanzada por el magistrado no ha

impedido que su biografía haya permanecido prácticamente inédita hasta el momento. En esta monografía se ofrece una caracterización de su personalidad desde un doble enfoque: el entorno personal, familiar y social del jurista es perfilado en la primera parte del trabajo, mientras la segunda se consagra al estudio de su carrera profesional.

My Life as a Russian Novel Emmanuel Carrère 2010-08-03 An unsparingly truthful account of love, betrayal, and the traps we set for ourselves, by France's master of psychological suspense In work after work, the critically acclaimed author Emmanuel Carrère has trained his unblinking gaze on the lives of others as they fight a losing battle with that most fearsome of adversaries—the self. Now, determined to escape the bleak visions of his narratives, he takes on a film project in the heart of Russia while also embarking on a new love affair back home in Paris. But soon enough, the diversion he seeks eludes him, intimacy proves too arduous, and Carrère is left peering into the dark mirror of his own life. Set in Paris and Kotelnich, a small post-Soviet town, *My Life as a Russian Novel* traces Carrère's pursuit of two obsessions—the disappearance of his Russian grandfather and his erotic fascination with a woman he loves but cannot keep from destroying. In prose that is elegant and passionate, Carrère weaves the strands of his story into a travelogue of a journey inward. Road trip, confession, erotic tour de force—this fearless reckoning illuminates the schemes we devise to evade ourselves and the inevitable payment they exact.

The Pregnant Man Roberto Zapperi 1991 This book is a most exciting and unusual study of cultural history. The idea of the pregnant man, redolent of bawdy jokes and sexual fantasy, has inspired European literature and folklore since ancient times. Traces of the theme, both comical and disturbing, are found not only in the wealth of tales from Italy, France, Germany, Russia, Finland and other European Countries, but also in the Hebrew and Islamic traditions.

Chagall and Music Ambre Gauthier 2017-02-10 * Accompanying text for the exhibition at the Montreal Beaux-Arts Museum, from 28th January to 11th June 2017 and Los Angeles LACMA, from 23th July 2017 to 7th January 2018* Highly illustrated, this book explores a hitherto overlooked topic in Chagall studies. This book explores the connection between Chagall and music. This intimate relationship, which ran deep in both his family history and the Jewish culture of his native city, was particularly meaningful in Chagall's creations for the stage. His works for the Jewish Theatre (Moscow, 1919-1920) and the ballets 'Aleko' (Mexico, 1942), 'The Firebird' (New York, 1945), 'Daphnis et Chloé' (1958) and 'The Magic Flute' (New York, 1967) celebrate the links he established between music, large-scale set design, and the material design of costumes. Chagall's monumental projects in the 1960s, such as the ceiling of the Paris Opera (1964) and his decorative architectural program for the Metropolitan Opera at Lincoln Center in New York (1966), are a reflection of his notion of 'total art', and his explorations in the universality of music and its translation into the spatial dimension. Music was a constant source of inspiration to Chagall. The subject of his creations, it provided internal rhythm and strength to his compositions, as well as dictating the intensity and ranges of color he used. Offering a fresh approach to iconography, Chagall and Music argues for the intersection of aural and visual art as the mark of Chagall's incessant and brilliant modernity.

Flowers of Spit Catherine Mavrikakis 2011 Fiction. Translated from the French by Nathanaël. FLOWERS OF SPIT is a corrosive narrative that surrounds the inflamed character of Flore Forget. Is it possible to emancipate oneself from one's tragedies, from the the individuals that have touched our lives and have died? Is it possible for flowers to bloom from cinders and spit?
