A Brief History of Vatican II Giuseppe Alberigo 2006 "The Second Vatican Council, summoned by Pope John XXIII on Christmas Day 1961, met in four autumn sessions from 1962 to 1965. The Council was a watershed in both world Christian and world religious history. Historian Giuseppe Alberigo tells the story of that Council for a generation that has come of age since its close. Here, the drama of the Council comes alive, as the assembled bishops and their advisors worked on themes that would transform the global landscape of religion in ways that few, including Pope John, could have imagined."--BOOK JACKET.

Alta Vendita John Vennari 2016-07-11 The Permanent Instruction of the Alta Vendita is a document, originally published in Italian in the 19th century, purportedly produced by the highest lodge of the Italian Carbonari and written by "Piccolo Tigre," codename for Giuseppe Mazzini. The document details an alleged Masonic plan to infiltrate the Catholic Church and spread liberal ideas within it. The Carbonari had strong similarities to Freemasonry and so the document is seen by some as a Masonic document. In the 19th century, Pope Pius IX[3] and Pope Leo XIII both asked for it to be published.

Papacy, Religious Orders, and International Politics in the Sixteenth and

Seventeenth Centuries Autori Vari 2014-03-08T00:00:00+01:00 During the early modern age religious orders had to interpret papal strategies and directives in international politics in the light of a substantial ambiguity. They were loyal subjects of the pope, but also trusted agents and advisers of princes. They were operatives of the Holy See and, at the same time, of strategies not necessarily in line with Roman guidelines. This ambiguity resulted in conflicts, both overt and latent, between obedience to the pope and obedience to the sovereign, between membership in a universal religious order and individual «national» origins and personal ties, between observance of Roman directives and the need to maintain good relations with the authorities of the territory in which the religious orders lived and worked. This book aims to examine, through a series of case studies not only in Europe but also America and the Middle East, the roles played by religious orders in the international politics of the Holy See. It seeks to determine the extent to which the orders were mere objects or instruments; whether they were able to give life, more or less openly, to autonomous strategies, and for what reasons; and what awareness of their own identity groups or individuals developed in relation to the influences of international politics in an age of conflict.

The Spirit of the Liturgy Joseph Cardinal Ratzinger 2014-08-26 New Softcover Edition with Index! Considered by Ratzinger devotees as his greatest work on the Liturgy, this profound and beautifully written treatment of the "great prayer of the Church" will help readers rediscover the Liturgy in all its hidden spiritual wealth and transcendent grandeur as the very center of our Christian life. Among the many liturgical issues that he covers in this work, Cardinal Ratzinger discusses fundamental misunderstandings of the Second Vatican Council's intentions for liturgical renewal, especially the orientation of prayer at the Eucharistic sacrifice, the placement of the tabernacle, and the posture of kneeling. Other important topics he discusses include the following: the essence of worship; Jewish roots and new elements of the Christian Liturgy; the historic and cosmic dimensions of the Liturgy; the relationship of the Liturgy to time and space; art, music, and the Liturgy; active participation of all the faithful; gestures, posture, and vestments. "My purpose here is to assist this renewal of understanding of the Liturgy. Its basic intentions coincide with what Guardini wanted to achieve. The only difference is that I have had to translate what Guardini did at the end of the First World War, in a totally different historical situation, into the context of our present-day questions, hopes, and dangers. Like Guardini, I am not attempting to involve myself with scholarly discussion and research. I am simply offering an aid to the understanding of the faith and to the right way to give the faith its central form of expression in the Liturgy." - Joseph Cardinal Ratzinger, from the preface

The Making of Gratian's Decretum Anders Winroth 2000-11-23 This book offers perspectives on the legal and intellectual developments of the twelfth century. Gratian's collection of Church law, the Decretum, was a key text in these developments. Compiled in around 1140, it remained a fundamental work throughout and beyond the Middle Ages. Until now, the many mysteries surrounding the creation of the Decretum have remained unsolved, thereby hampering exploration of the jurisprudential renaissance of the twelfth century. Professor Winroth has now discovered the original version of the Decretum, which has long lain unnoticed among medieval manuscripts, in a version about half as long as the final text. It is also different from the final version in many respects - for example, with regard to the use of Roman law sources - enabling a reconsideration of the resurgence of law in the twelfth century.

The Nature and Mission of Theology Cardinal Joseph Ratzinger 2016-06-21 As Cardinal, Joseph Ratzinger wrote this book in response to the dialogue going on today concerning theology and the clarification of its methods, its mission and its limits which he thinks has become urgent. Ratzinger states: "To do theology-as the Magisterium understands theology-it is not sufficient merely to calculate how much religion can reasonably be expected of man and to utilize bits and pieces of the Christian tradition accordingly. Theology is born when the arbitrary judgment of reason encounters a limit, in that we discover something which we have not excogitated ourselves but which has been revealed to us. For this reason, not every religious theory has the right to label itself as Christian or Catholic theology simply because it wishes to do so; whoever would lay claim to this title is obligated to accept as meaningful the prior given which goes along with it."

Court and Politics in Papal Rome, 1492–1700 Gianvittorio Signorotto 2002-03-21 This 2002 book attempts to overcome the traditional historiographical approach to the role of the early modern papacy by focusing on the actual mechanisms of power in the papal court. The period covered extends from the Renaissance to the aftermath of the peace of Westphalia in 1648 - after which the papacy was reduced to a mainly spiritual role. Based on research in Italian and other European archives, the book concentrates on the factions at the Roman court and in the college of cardinals. The sacred college came under great international pressure during the election of a new pope, and consequently such figures as foreign ambassadors and foreign cardinals are examined, as well as political liaisons and social contacts at court. Finally, the book includes an analysis of the ambiguous nature of Roman ceremonial, which was both religious and secular: a reflection of the power struggle both in Rome and in Europe.

Theology Today International Theological Commission 2012 Since the Second Vatican Council, an exciting array of new theological voices, themes, and venues for reflection has emerged. This addresses the vital question of what exactly is Catholic theology. It considers basic perspectives and principles that characterise Catholic theology and offers criteria by which diverse theologies may be recognised as authentically Catholic.

Old Testament Priests and the New Priest Albert Cardinal Vanhoye 2009-01-01
Recent decades have seen passionate debate in the Church about the nature of priesthood. Cardinal Vanhoye's classic study, originally published in English in 1986, provides a much needed exegesis following the New Testament texts that speak of priests and priesthood. In the first century the question of priesthood was a distinct issue from that of ministries in the Church. This book identifies three series of texts about priesthood contained in the New Testament. In the first series the vocabulary of priesthood is used only in connection with Jewish priests and high priests, or - in one case only - in connection with pagan priests. In the second series, whose texts are all found together in a single piece of writing, the Epistle to the Hebrews, Christ himself is proclaimed, and with great insistence, priest and high priest, and the comparison is made between his priesthood and the old priesthood. Finally, in some other texts which make up a third series, priesthood is attributed to Christians themselves. By listening to the New Testament and being guided by the texts we share an increasing realisation of the profound meaning of priesthood. Cardinal Vanhoye does not try to impose solutions to the various problems and controversies as they arise but invites us to share an exegetical reflection that can transform our understanding. Albert Cardinal Vanhoye, SJ was born in 1923 at Hazebrouck in France. He taught at the Gregorian University and the Lateran University and, from 1963 as a professor, at the Pontifical Biblical Institute in Rome where he was Rector, 1984 - 1990. He has served as a member of the Pontifical Biblical Commission, 1984 - 2001, and as secretary 1990 - 2001. He has been a Consultor to the Sacred Congregations of Catholic Education from 1978 and of the Doctrine of the Faith from 1990. He was created Cardinal in 2006.

Matthew Tindal, Freethinker Stephen Lalor 2006-01-15 "He [Tindal] has been a most notorious ill Liver (registered as 'tis said, or deserving to be soe, at All Soul's under ye Title of Egregious Fornicator)" -- Thomas Hearne, Remarks and Collections (Oxford: Clarendon Press, 1885) Matthew Tindal was the outstanding freethinker of his time, famous for writing what became known as the 'Deists' Bible'. While not as profound as his near contemporaries John Locke and David Hume, Tindal played an important part in the creation of the modern world. Between the early 1690s and his death in 1733 Tindal made major contributions in a various areas. As Deputy Judge Advocate of the Fleet he had a large influence on the case law on piracy. His timely pamphlet on the freedom of the press was hugely influential in the ending of the legal requirement that all publications be licensed before being printed. His book on The Rights of the Christian Church had an immense impact on church/state relations and on the growth of freethinking. Tindal's Christianity as old as the Creation in 1730 was the ultimate statement of the deist understanding of Christianity and was highly influential in England and on the Continent. Through Voltaire it profoundly affected the French freethinkers and following its translation into German it laid the foundations of hermeneutics. Stephen Lalor's book will be of

considerable interest to readers across many disciplines.

Night Conversations with Cardinal Martini: The Relevance of the Church for Tomorrow Carlo Maria Martini 2014-05-14 Carlo M. Martini was cardinal of the largest diocese in the world, a scholar, and one of the most renowned men of the church. Georg Sporschill has worked in prisons and lived with drug-addicted street children in Romania and Moldavia. The two Jesuits met in Jerusalem and became firends: two worlds, one faith--and a passionate search for ways in which the message of Jesus of Nazareth can still be effective for tomorrow. In a series of conversations they ask what faith can mean for life, what future young people have in the church, and what must be changed so that Crhistianity itself has a future. The questions from young people are the catalyst for deep thought. Is the future only dark? Where are the rays of light on the horizon? What would Jesus say today?

God Is Near Us Joseph Cardinal Ratzinger 2012-08-14 The Second Vatican Council says, "We ought to try to discover a new reverence for the Eucharistic mystery. Something is happening that is greater than anything we can do. The liturgy is the summit toward which the activity of the Church is directed; it is the font from which all her power flows." This profound statement about the Eucharist stands at the center of this book by Cardinal Ratzinger. He compellingly shows us the biblical, historical, and theological dimensions of the Eucharist. The Cardinal draws far-reaching conclusions, focusing on the importance of one's personal devotion to and adoration of the Blessed Sacrament, for the personal reception of Communion by the individual Christian, as well as for the life of the Church. For Ratzinger, any transformation of the world on the social plane grows out of the celebration of the Eucharist. He beautifully illustrates how the omnipotent God comes intimately close to us in the Holy Eucharist, the Heart of Life.

Dogmatic Constitution on the Church Pope Paul VI 2000-11 The central document of the Second Vatican Council, *Lumen Gentium* was promulgated by Pope Paul VI on November 21, 1964. This document is "the keystone" of the Councils whole Magisterium. It focuses on the whole Church as a communion of charity. With it, according to John Paul II, the Second Vatican Council wished to shed light on the Church's reality: a wonderful but complex reality consisting of human and divine elements, visible and invisible.

The Mind of Pope Francis Massimo Borghesi 2018-08-15 A commonly held impression is that Pope Francis is a compassionate shepherd and determined leader but that he lacks the intellectual depth of his recent predecessors. Massimo Borghesi's *The Mind of Pope Francis: Jorge Mario Bergoglio's Intellectual Journey* dismantles that image. Borghesi recounts and analyzes, for the first time, Bergoglio's intellectual formation, exploring the philosophical, theological, and spiritual principles that support the profound vision at the heart of this pope's teaching and ministry. Central to that vision is the church as a *coincidentia oppositorum*, holding together what might seem to be opposing and irreconcilable realities. Among his guiding lights have been the Jesuit saints, Ignatius and Peter Faber; philosophers Gaston Fessard, Romano Guardini, and Alberto Methol Ferrer; and theologians Henri de Lubac and Hans Urs von Balthasar. Recognizing how these various strands have come together to shape the mind and heart of Jorge Mario Bergoglio offers essential insights into who he is and the way he is leading the church. Notably, this groundbreaking book is informed by four interviews provided to the author, via audio recordings, by the pope himself on his own intellectual formation, major portions of which are published here for the first time.

On the Donation of Constantine Lorenzo Valla 2008 Valla (1407-1457) was the most important theorist of the humanist movement. His most famous work is the present volume, an oration in which Valla uses new philological methods to attack the authenticity of the most important document justifying the papacy's claims to temporal rule.

Discovering Pope Francis Brian Y Lee 2019-08-27 2020 Association of Catholic Publishers third place award in theology 2020 Catholic Press Association third place award in Pope Francis books The dangerous tendency to reduce theological positions to political ones has always fueled divisions in the Church, and it plagues debates surrounding Pope Francis's teaching today. This collection of essays was born of a landmark international symposium designed to promote theological understanding by contextualizing the thought of Pope Francis—from his understanding of history to his theology of mission—within important theological conversations rarely heard in the US Catholic Church. Its contributors demonstrate decisively that Pope Francis's magisterium is the fruit of a profound and distinctive, yet deeply Catholic, intellectual engagement with the theological and ecclesial traditions of the Church.
