Tibetan Buddhists in the Making of Modern China Gray Tuttle 2005 Gray Tuttle reveals the surprising role Buddhism and Buddhist leaders played in the development of the modern Chinese state and in fostering relations between Tibet and China from the Republican period (1912-1949) to the early years of Communist rule. Tuttle offers new insights on the impact of modern ideas of nationalism, race, and religion in East Asia. He draws on previously unexamined archival and governmental materials, as well as personal memoirs of Chinese politicians and Buddhist monks, and ephemera from religious ceremonies.

The book consists of two sections -- the first a collection of the teachings of His Holiness the fourteenth Dalai Lama which reflects on the happiness of the human mind and the spiritual uplift of mankind. The second elaborates on the way of life in Tibet, throwing light on economic and social aspects, particularly the part played by religion.

Among Tibetan Texts E. Gene Smith 2001-06-15 For three decades, E. Gene Smith ran the Library of Congress's Tibetan Text Publication Project of the United States Public Law 480 (PL480) - an effort to salvage and reprint the Tibetan literature that had been collected by the exile community or by members of the Bhotia communities of Sikkim, Bhutan, India, and Nepal. Smith wrote prefaces to these reprinted books to help clarify and contextualize the particular Tibetan texts: the prefaces served as rough orientations to a poorly understood body of foreign literature. Originally produced in print quantities of twenty, these prefaces quickly became legendary, and soon photocopied collections were handed from scholar to scholar, achieving an almost cult status. These essays are collected here for the first time. The impact of Smith's research on the academic study of Tibetan literature has been tremendous, both for his remarkable ability to synthesize diverse materials into coherent accounts of Tibetan literature, history, and religious thought, and for the exemplary critical scholarship he brought to this field.

The Snow Lion and the Dragon Melvyn C. Goldstein 1997 Drawing upon his deep knowledge of the Tibetan culture and people, Goldstein takes us through the history of Tibet, concentrating on the political and cultural negotiations over the status of Tibet from the turn of the century to the present. He describes the role of Tibet in Chinese politics, the feeble and conflicting responses of foreign governments, overtures and rebuffs on both sides, and the nationalistic emotions that are inextricably entwined in the political debate. Ultimately, he presents a plan for a reasoned compromise, identifying key aspects of the conflict and appealing to the United States to play an active diplomatic role.

An Introduction to Language and Linguistics Ralph Fasold 2006-03-06 This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

Slave Traders by Invitation Finn Fuglestad 2018-07-01 The Slave Coast, situated in what is now the West African state of Benin, was the epicentre of the Atlantic Slave Trade. But it was also an inhospitable, surf-ridden coastline, subject to crashing breakers and devoid of permanent human settlement. Nor was it easily accessible from the interior due to a lagoon which ran parallel to the coast. The local inhabitants were not only sheltered against incursions from the sea, but were also locked off from it. Yet, paradoxically, it was this coastline that witnessed a thriving long-term commercial relationship between Europeans and Africans, based on the trans-Atlantic slave trade. How did it come about? How was it all organised? And how did the locals react to the opportunities these new trading relations offered them? The Kingdom of Dahomey is usually cited as the Slave Coast's archetypical slave raiding and slave trading polity. An inland realm, it was a latecomer to the slave trade, and simply incorporated a pre-existing system by dint of military prowess, which ultimately was to prove radically counterproductive. Fuglestad's book seeks to explain the Dahomean 'anomaly' and its impact on the Slave Coast's societies and polities.

Arabic Sociolinguistics Reem Bassiouney 2020-04-01 In this second edition of Arabic Sociolinguistics, Reem Bassiouney expands the discussion of major theoretical approaches since the publication of the book's first edition to account for new sociolinguistic theories in Arabic contexts with up-to-date examples, data, and approaches. The second edition features revised sections on diglossia, code-switching, gender discourse, language variation, and language policy in the region while adding a chapter on critical sociolinguistics—a new framework for critiquing the scholarly practices of sociolinguistics. Bassiouney also examines the impact of politics and new media on Arabic language. Arabic Sociolinguistics continues to be a uniquely valuable resource for understanding the theoretical framework of the language.

Elements of Structural Syntax Lucien Tesnière 2015-02-11 This volume appears now finally in English, sixty years after the death of its author, Lucien Tesnière. It has been translated from the French original into German, Spanish, Italian, and Russian, and now at long last into English as well. The volume contains a comprehensive approach to the syntax of natural languages, an approach that is foundational for an entire stream in the modern study of syntax and grammar. This stream is known today as dependency grammar (DG). Drawing examples from dozens of languages, many of which he was proficient in, Tesnière presents insightful analyses of numerous phenomena of syntax. Among the highlights are the concepts of valency and head-initial vs. head-final languages. These concepts are now taken for granted by most modern theories of syntax, even by phrase structure grammars, which represent, in a sense, the opposite sort of approach to syntax from what Tesnière was advocating. Women, Business and the Law 2021 World Bank 2021-04-05 Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law 2021 makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

The High Road to China Kate Teltscher 2006-01-01 In 1774 the head of the East India Company in Bengal, Warren Hastings, determined to open trade relations with the hitherto impenetrable court of imperial China. To this end he entrusted the young Scotsman George Bogle to be the first British envoy to Tibet. Once there, Bogle attempted to enlist the influence of the Panchen Lama in a bid to attract the sympathy of the Qianlong Emperor; a hard task, for the imperial court generally viewed trade with disdain, and took an altogether dim view of the British Empire. But what began as an unprecedented diplomatic mission soon acquired a different character. Bogle became smitten by what he saw, and in particular by the person of the Panchen Lama himself, with whom he struck up a remarkable friendship, fuelled by a reciprocal desire for understanding. And as for Tibet: 'When I look upon the time I have spent among the Hills it appears like a fairy dream.' Bogle's letters and journals, by turns playful, penetrating, self-deprecating and packed with engaging detail, were to help create the myth of Tibet in the West, the Shangri-La so familiar to us today. This book tells

the story of the British attempt to reach the Qianlong Emperor's ear, a narrative of two extraordinary journeys across some of the harshest and highest terrain in the world: Bogle's mission, and the Panchen Lama's state visit to China, on which British hopes were hung. Piecing together the narrative from Bogle's private papers, Tibetan biographies of the Panchen Lama, the account of a wandering Hindu monk, and the writings of the Qianlong Emperor himself, Kate Teltscher deftly reconstructs the momentous meeting of four very different worlds.

Ripartire dall'Africa Petra Mezzetti 2019-06-07T00:00:00+02:00 Ripensare a un mondo caratterizzato da forme di co-sviluppo costruttive e condivise tra Nord e Sud del mondo è ancora possibile? Il volume si propone di rivisitare in chiave critica il nesso tra migrazione e sviluppo, in un periodo storico in cui le politiche pubbliche di cooperazione, sviluppo e integrazione appaiono in una fase di stallo, se non di regressione. In che modo quell'insieme di relazioni di scambio e di connessioni tra aree diverse del globo generate dalle migrazioni e animate da diversi soggetti pubblici e privati possono essere rilanciate nel mutato panorama contemporaneo? I contributi raccolti nel volume offrono spunti di riflessione sulle realtà africane, sulle politiche e le pratiche degli attori implicati e sulla recente esperienza quinquennale di co-sviluppo realizzata in Burkina Faso, seguita dal CeSPI, e a cui hanno partecipato fondazioni bancarie, Ong e associazioni della diaspora. La strada da seguire è duplice. Da una parte incrementare le azioni di cooperazione e interscambio dando voce e riconoscimento ai diversi attori, incluse le popolazioni non migranti, e promuovendo

un'integrazione a largo spettro che coinvolga l'Africa e anche l'Italia. Dall'altra, ripensare il rapporto con i migranti e capire che costituiscono un fattore vitale del nostro futuro sociale, politico e culturale, che sono un'occasione per progettare e perseguire un nuovo patto sociale tra cittadini già inclusi e cittadini ancora da includere; e, in questo senso, che sono loro l'opportunità da cui ripartire per costruire relazioni interne e internazionali più integrate, giuste e solidali.
