A Linguistic Handbook of French for Translators and Language Students Paul Boucher 2018-04-03 A Linguistic Handbook of French for Translators and Language Students offers the reader an in-depth contrastive study of French and English based on recent theories of linguistics and discourse analysis. At the same time it is a practical manual for the advanced language student or the translator with dozens of exercises in analyzing and translating French along with detailed corrections. Organized in three sections – Structure, Perspective and Coherence – the handbook first explores French word formation and syntax, then moves on to the use of tense and aspect, illocution and speech styles in various text types. Finally, problems concerning textual coherence and cohesion in both languages are discussed: anaphora and ellipsis, relevance and equivalence and information structure. Each chapter is followed by a list of suggested readings for further discussion and a detailed glossary at the end of the book explains all technical terms used. The handbook is designed to be used either as a textbook or for individuals working at home.

Reading Apollinaire's Alcools Willard Bohn 2016-10-27 Reviewing the previous scholarship for seventeen of the most important poems in *Alcools*, this book provides a detailed analysis of each work and includes a state-of-the-art survey of current Apollinaire criticism. Besides acquainting readers with the existing scholarship, the book considers all the interpretations that have been proposed and indicates profitable directions to pursue. Each poem is subjected to a rigorous, line-by-line analysis that engages in a succession of dialogues with previous critics. The studies themselves are arranged in roughly chronological order, beginning with the “*Rhénanes*” in 1901-1902 and concluding with “*Zone*” in 1912. Although each chapter is basically conceived as an

independent unit, readers are able to follow the evolution of Apollinaire's aesthetics from his first mature creations through his subsequent experiments with fantastic, hermetic, visionary, and cubist poetry. At the same time, they witness Apollinaire's personal evolution from his infatuation with Annie Playden through a period of deep depression, his love affair with Marie Laurencin, and the aftermath of that relationship.

The Carousel of Time Bernard Ancori 2019-12-05 Based around the image of a carousel, this book uses epistemological theory to tackle the paradoxical acceleration and deceleration of time that is experienced by many. The consequence of this paradox is the observance of the past, present and future coinciding, where acceleration is combined with perfect immobility. The Carousel of Time proposes a model that focuses on a complex network of individual actors, and their relation to the analysis, structure and evolution of our socio-cognitive space-time. The first part of the book, "Foundations", presents the key bases of this model, as well as the notions that must be understood and integrated. The book then analyzes the concept of "Space", defining the parameters of the network's boundaries, and finishes with an exploration of "Time". This third part links the temporality of the network to its spatial characteristics and studies its evolution.

Philosophical Problems Today / Problèmes Philosophiques d'Aujourd'hui Guttorm Fløistad 2013-11-11 Philosophical Problems Today is a new series of publications from the Institut International de Philosophie. It follows upon Contemporary Philosophy, a series presenting philosophical research in various world cultures and so far published in seven volumes: Vols. 1-4 on European Philosophy, Vol. 5 on African Philosophy, Vol. 6 on Medieval Philosophy (Part 1 and 2) and Vol. 7 on Asian Philosophy (appeared in 1993). A further volume, dealing with the Philosophy of South America, is still in preparation (to appear in 1994/95). The new series is based on a different concept. Each volume consists as a rule of five articles. The articles are extensive discussions of topical philosophical problems and offer always some original contributions. The articles in each volume represent different philosophical traditions and cultures and may thus contribute to crosscultural communication. Volume 1 in the new series contains articles on standard problems in European and American philosophy. Quine writes on truth and discusses various difficulties connected with the clear definition of the correspondence theory of truth. What are true and false, are propositions. Part of the difficulty stems from the ambiguity of "proposition". Some think that the word refers to certain types of sentences, others that it rather refers to the meaning of such sentences. Another major difficulty is due to the fact that the world, being unique, may be variously grasped.

Science and Structure in Proust's A la Recherche Du Temps Perdu Nicola Luckhurst 2000 Proust's A la recherche du temps perdu is a hybrid, a novel-essay, a capacious work of fiction containing a commonplace-book. It might, as Roland Barthes has suggested, be thought of as the product of profound and cherished indecision, Proust's indecision between two styles of writing, themoralistic and the fictive/novelistic/romanesque. Structure and Science is an exploration of this indecision. The shorter Proust, Proust the moraliste, is a prolific writer of maxims, from the laws of the passions to the aesthetic manifesto of the Temps retrouve to the [rapacious] teeming/fertile/spawning/exuberant/luxuriant reflection(s) on sexuality, politics, society. Yet these maxims, whose grammarlays claim to timelessness, are bound up in narrative, the story of their evolution. And disintegration. Proust's moralizing exposes our affective relationship with law statements,

with authority, and it is this question that engages A la recherche in an epistemological debate which crosses the boundaries between the two cultures, art and science. What might be called the epistemological alertness of Proust's text is explored at this interface between 'modernist' science and literature.

A milestone of modern architecture and subject of controversial debate, the Unité in Marseille continues to attract numerous visitors and students of architecture. This volume is the latest addition to Birkhäuser's series of guides to Le Corbusier's most acclaimed buildings, and includes an additional chapter on his Unités in Rezé-les-Nantes, Briey en Forêt, Firminy and Berlin. Investigating Simenon Russell Campbell 2022-09-21 For nearly a century, the work of Belgian crime writer and psychological novelist Georges Simenon, creator of Chief Inspector Maigret, has captivated readers worldwide. This investigation situates Simenon's work in its historical context and interprets it as a reaction to shifting gender relations in Western society. Simenon's compelling narratives capture the anxieties of men whose patriarchal position was under threat in an era of insurgent feminist movements. These concerns are also evident in Simenon's pervasive preoccupation with sexuality, as well as his political stance that stems from his petit-bourgeois upbringing. This groundbreaking study includes interwoven commentary on all 191 novels Simenon published under his own name, including several that have never been translated into English, as well as a number of short stories and several pseudonymous works.

The Literary Exception and the Rule of Law Johan Van Der Walt 2022-07-20

Addressing the influential analysis of law and literature, this book offers a new perspective on their relationship. The law and literature movement that has gained global prominence in the course of last decades of the twentieth and the first decades of the twenty-first centuries has provided the research and teaching of law with a considerable body of new and valuable knowledge and understanding. Most of the knowledge and insights generated by the movement concern either a thematic overlap between legal and literary discourses – suggesting they deal with the same moral concerns – or a rhetorical, semiotic or general linguistic comparability or ‘sameness’ between them – imputing to both the same or very similar narrative structures. The Literary Exception and the Rule of Law recognises the wealth of knowledge generated by this approach to the relationship between law and literature, and acknowledges its debt to this genre of scholarship. It nevertheless also proposes, on the basis of a number of revealing phenomenological inquiries, a different approach to law and literary studies: one that emphasises the irreducible difference between law and literature. It does so with the firm belief that a regard for the very different and indeed opposite discursive trajectories of legal and literary language allows for a more profound understanding of the unique and indeed separate roles that the discourses of law and literature generally play in the sustenance of relatively stable legal cultures. This important rethinking of the relationship between law and literature will appeal to scholars and students of legal theory, jurisprudence, philosophy, politics and literary theory.

Poetic Images, Presence, and the Theater of Kenotic Rituals Eniko Sepsi

2021-09-30 This book explores the interrelation of contemporary French theatre and poetry. Using the pictorial turn in the various branches of art and science, its observable features, and the theoretical framework of the conceptual metaphor, this study seeks to gather together the divergent manners in which French poetry and theatre address this turn. Poetry in space and theatricality of poetry are studied alongside theatre, especially to the performative aspect of the originally theological concept of "kenosis". In doing so the author attempts to make use of the theological concept of kenosis, of central importance in Novarina's oeuvre, for theatrical and dramaturgical purposes. Within poetic rituals, kenotic rituals are also examined in the book in a few theatrical practices – János Pilinszky and Robert Wilson, Jerzy Grotowski and Eugenio Barba – facilitating a better understanding of Novarina's works. Accompanied by new English translations in the appendices, this is the first English language monograph related to the French essayist, dramaturg and director Valère Novarina's theatre, and will be of great interest to students and scholars in theatre and literature studies.

Simone Weil's Apologetic Use of Literature Marie Cabaud Meaney 2007-12-06 Marie Cabaud Meaney looks at Simone Weil's Christological interpretations of the Sophoclean Antigone and Electra, the Iliad and Aeschylus' Prometheus Bound. Apart from her article on the Iliad, Weil's interpretations are not widely known, probably because they are fragmentary and boldly twist the classics, sometimes even contradicting their literal meaning. Meaney argues that Weil had an apologetic purpose in mind: to the spiritual ills of ideology and fanaticism in World War II she wanted to give a spiritual answer, namely the re-Christianization of Europe to which she (though not baptized herself) wished to contribute in some way. To the intellectual agnostics of her day she intended to show through her interpretations that the texts they cherished so much could only be fully understood in light of Christ; to the Catholics she sought to reveal that Catholicism was much more universal than generally believed, since Greek culture already embodied the Christian spirit - perhaps to a greater extent than the Catholic Church ever had. Despite or perhaps because of this apologetic slant, Weil's readings uncover new layers of these familiar texts: Antigone is a Christological figure, combating Creon's ideology of the State by a folly of love that leads her to a Passion in which she experiences an abandonment similar to that of Christ on the Cross. The Iliad depicts a world as yet unredeemed, but which traces objectively the reign of force to which both oppressors and oppressed are subject. Prometheus Bound becomes the vehicle of her theodicy, in which she shows that suffering only makes sense in light of the Cross. But the pinnacle of the spiritual life is described in Electra which, she believes, reflects a mystical experience - something Weil herself had experienced unexpectedly when 'Christ himself came down and took her' in November 1938. In order to do justice to Weil's readings, Meaney not only traces her apologetic intentions and explains the manner in which she recasts familiar Christian concepts (thereby letting them come alive - something every good apologist should be able to do), but also situates them among standard approaches used by classicists today, thereby showing that her interpretations truly contribute something new.
